SIM card
Note: Turn the device off and disconnect the charger and any other device before removing any covers. Avoid touching electronic components while changing any covers. Always store and use the device with any covers attached.
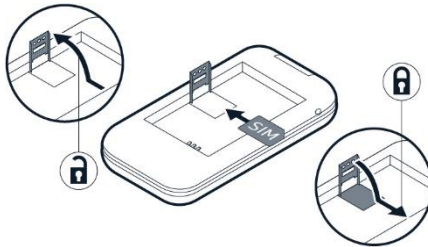

Your phone comes with the SIM card preinstalled.

To swap the SIM, follow the steps below:

1. Put your fingernail in the small slot at the bottom of the phone, lift and remove the cover.

2. If the battery is in, lift it out.
3. Slide the SIM card holder to the left and open it up. Place the nano-SIM in the slot face down, close down the holder and slide it to the right to lock it in place.

4. Put back the battery.
5. Put back the cover.

Charge your phone
1. Plug a compatible charger into a wall outlet.
2. Connect the cable to your phone.

Your phone supports the USB-C cable. You can also charge your phone from a computer with a USB cable, but it may take a longer time.

If the battery is completely drained, it may take several minutes before the charging indicator is displayed.

Basics
Explore your phone
To open the apps list, press the center key.

To open an app or select a feature, press the center key right, left, up, or down to scroll to the app or feature, and press the center key to select **SELECT**.

To go back to the previous view, press the back key.

To go back to the home screen, press ⌾.

CHANGE THE VOLUME
To change the volume during a call, or when listening to music, press the volume keys.

To change the volume of your media apps, ringtones, alerts, and alarms, press the center key, and select **Settings**. Scroll right to **Personalization**, and select **Sound** > **Volume**.

Protect your phone

LOCK THE KEYS AND SCREEN

If you want to avoid accidentally making a call when your phone is in your pocket or bag, you can lock your keys and screen.

To lock your keys and screen, press and hold the * key, or close the fold.

UNLOCK THE KEYS AND SCREEN

To unlock the keys and screen, select **Unlock**.

SET A SCREEN LOCK

You can set the phone to ask for a screen lock code.

1. Press the center key and select **Settings**.
2. Scroll right to **Privacy & Security**.
3. Select **Screen Lock** > **Screen lock** > **On**, and create a four-digit code. Note, however, that you need to remember the code you created, as Tracfone is not able to open or bypass it.

Write text

Press a key repeatedly until the letter is shown.

To type in a space, press 0.

To type in a special character or punctuation mark, press *.

To switch between character cases, press # repeatedly.

To type in a number, press and hold a number key.

CHANGE THE TEXT SIZE

Do you want to read bigger text on the display?

1. Press the center key and select **Settings**.
2. Scroll right to **Device**, and select **Accessibility** > **Large text** > **On**.

Accessibility mode

With the accessibility mode, the text on the phone display is bigger and the alerts louder. To switch on the accessibility mode, press the center key, and select **Settings** > **Device** > **Accessibility Mode** > **On**.

ADD YOUR ICE DETAILS

To be able to make SOS calls, you need to add your ICE (In Case of Emergency) details. To add your personal details, press the center key, and select **Settings** > **Device** > **ICE information**.

To define the contacts to whom the SOS call is made, press the center key, and select **Settings** > **Device** > **ICE information** > **Options** > **Create ICE contacts**.

MAKE AN SOS CALL

Once you have the accessibility mode turned on and added an ICE contact, you can make SOS calls. To make the call, press and hold the SOS call key for three seconds, or press the SOS call key quickly twice. The phone calls your first ICE contact. If the

contact doesn't answer in 25 seconds, the phone calls the next contact, and keeps calling your contacts 10 times until one of them answers the call, or you press ☏.

Note: When the SOS call is answered, the phone goes to handsfree mode. Do not hold the phone close to your ear, as the volume may be very loud.

SEND AN SOS MESSAGE
You can select to send an SOS message if no one answers your SOS call. Press the center key and select **Settings** > **Device** > **Accessibility Mode** > **On** > **SOS Call** > **SOS Message** > **On**.

To edit the pre-defined message, select **SOS Message** > **Edit**.

Tip: If you want to keep the accessibility mode on, but don't want to make SOS calls, press the center key, and select **Settings** > **Device** > **Accessibility Mode** > **SOS Call** > **Off**.

Battery life
To save power:

- Always charge the battery fully.
- Mute unnecessary sounds, such as keypad sounds.
- Use wired headphones, rather than the loudspeaker.

- Set the phone screen to turn off after a short time.
- Lower the screen brightness.
- When applicable, use network connections, such as Bluetooth, selectively: turn the connections on only when you are using them.
