MAKE A GIF

1 CREATE SCENE

Upload images or choose icons from the menu to create your scene.
Tip: Create unity by choosing images with similar lines and shapes.

2 MOVE CHARACTER INTO FIRST POSITION

Decide where you want your GIF to begin and place your character in that location.
3 DOWNLOAD IMAGE AS JPG

Click Download from the menu and select JPG.

4 REPEAT

Move your character to its second position and download the image again. Keep moving and downloading until your character has completed the gesture.

Tip: Smaller movements between each download will lead to a smoother GIF.

5 UPLOAD IMAGES

Click Choose Files and select all of the images you downloaded from Adobe Spark. Then click the Upload and make a GIF! button.

6 FINISH THE GIF

Click the Make a GIF! button and wait for the GIF to be created. Then scroll down and click the Save button.
