

Project Brief

Photo Series

SUBJECT: (Name)

About the project

Photographs allow artists to capture the world around them and can be used to communicate messages to viewers. For this project, photos should be used to depict a single person's identity by either **directly photographing the subject** or **taking photos of objects that represent the subject**. A series of photos has been requested to fully communicate the subject's identity.

Project goals

The photo series should include 3-5 images that depict different parts of the subject's identity. Each photo should be interesting enough to stand on its own while also fitting in with the other photos in the series. A voiceover or written captions should provide viewers with additional information or context about the subject.

Requirements

- **Space** - the series must include a wide shot, midshot, and closeup.
- **Scale** - the series must adjust the scale of the subject by including at least one photo taken from a low or high angle.
- **Identity** - the series should communicate the subject's identity through use of physical attributes, environment, styling, and/or tone.

Technical guidelines

- Light editing to adjust image contrast or colors is permitted.
- Filters that add unnatural effects should be avoided.
- 3-5 images should be selected for the series.

- Images should be sequenced together in a slideshow created on Adobe Spark.
- Voiceovers or written captions should be used to provide additional information about the subject's identity. Written captions should not distract from the photographs.

Deliverables

1. 3-5 photos
2. Slideshow of photos with voiceover or captions

Deadlines

- Photos are due by (due date).
- Slideshow is due by (due date).
