***The information and data presented in this report are accurate at the time of publishing, but may undergo significant changes in a short period of time, due to the volatile and constantly evolving nature of the Amazon market.

HOW WE DID IT

When searching for a product, we followed these criteria:

Categories: Kitchen & Dining.

Price range: \$10 - 100

Product idea: This is a specific product that is popular and stands out because of its sales numbers, price, and reviews in the niche. In this report, we showcase profitable products as examples. You can view them as a source of inspiration and customize your offerings to align with your unique brand and target audience.

Demand: Determined by data on monthly sales and revenues on various trading platforms, including Amazon and AliExpress. Good values are considered to be revenue starting at \$3,000 on Amazon U.S., €3,000 in Europe, and £3,000 in the U.K. In addition to profits generated, we also pay attention to the search trend for relatable keywords in Google and on Amazon - we get all of this data from a reliable source: AMZScout.

Opportunity for Improvement: With the integration of advanced AMZScout PRO AI, product research has become even more precise and actionable. By incorporating new technologies, this report captures a broader spectrum of data and provides well-founded opportunities for enhancing product profitability. This ensures smarter selling strategies tailored to your specific goals.

Competition: This can be considered “light” if the seller won’t need to compete with any big brands for sales on Amazon or other marketplaces. Also, in order for a niche to be confidently deemed “uncompetitive”, there shouldn’t be any large Shopify stores with traffic starting from 100,000 visitors. Last but not least, we look at the number of reviews for products in a niche. The exact proportion between revenue and reviews depends on the category. We also consider RPR (Revenue Per Review), which is the ratio of how much revenue a seller makes per one review.

Other specific criteria: Low top-brand competition; Stable demand throughout the year, no seasonality.

*We are not affiliated with, authorized by, or in any way connected to the companies indicated in this report, and are not responsible for their products and services. All trademarks and brand names are the property of their respective owners.

**Information provided in this document shall not be considered selling, professional or investing recommendations or advice. Results not guaranteed

***The information and data presented in this report are accurate at the time of publishing, but may undergo significant changes in a short period of time, due to the volatile and constantly evolving nature of the Amazon market.

OUR CHOICE IS:

TEMPERATURE CONTROL TRAVEL MUG

- 👍 Low number of reviews
- 👍 Lightweight
- 👍 Customizable

WHY IT IS A GREAT IDEA TO SELL IT

- This niche is not currently oversaturated, so there is plenty of room for new sellers to enter and benefit significantly. Even though this niche isn't particularly new, it does continue to develop and change, especially with new and evolving technologies. On the first page, six sellers with under 100 reviews each are selling over 200 units, which is a positive sign for new sellers.
- Sellers can differentiate this product from those sold by existing competitors by offering a better design and price, as well as by offering products in a more attractive set or pack. Despite the fact that this product comes in several varieties, some of them don't sell at all, while others do sell, but not well. Approximately 40% of this item's sales are derived from the variation "Color: Lilac".
- The even revenue distribution among sellers in this niche indicates a healthy, competitive environment, offering newcomers opportunities to attract stable consumer interest and stand out with unique offerings, better service, or innovations that can boost their chances of success.

LISTING QUALITY SCORE

The LQS (Listing Quality Score) measures how optimized a product listing is on Amazon. This score ranges from 1 to 100, with 100 being excellent. This table compares the current values of the listing with recommended values to improve the LQS. Green values indicate elements that meet or exceed the recommendations. Red values highlight areas that need improvement. Improving the red-highlighted factors can increase the listing's visibility and appeal to customers, which can lead to better sales performance.

	Current product	Recommended

SUPPLIER CHECK

TEMPERATURE CONTROL TRAVEL MUG

We have performed a thorough review of suppliers on Alibaba, and we've chosen one that seems to be the most suitable.

WHY WE CHOSE THIS SUPPLIER

1. **This is a verified supplier.** The “Verified” tag means that the supplier has been reviewed and verified as a legally registered business by a third-party agency. This supplier has passed Alibaba's On-Site Check, and has also earned an four-year “Multispecialty supplier” badge.

Multispecialty supplier: For buyers seeking low MOQs and high product variety, multispecialty suppliers offer low MOQ customization, end-to-end logistics solutions, and multi-category procurement, backed by their rich industry and service experience, and strong understanding of emerging product trends.

Ningbo Maizi Intelligent Technology Co., Ltd. was established on April 19, 2017, and has since accumulated over eight years of experience in both exporting and the intelligent technology industry. The company primarily serves North America (65%), Southeast Asia (10%), and Oceania (10%), catering to retailers, engineers, wholesalers, brand businesses, manufacturers, and private consumers. Ningbo Maizi offers comprehensive quality control, including full product inspections, random checks, and traceability of raw materials. Quality assurance is integrated across all production lines, supported by a team of three dedicated QA/QC inspectors.

2. **This company also has a ‘Trade Assurance’ mark,** which will protect your Alibaba.com order from unscrupulous suppliers.

Alibaba.com protects all your orders placed and paid on the platform with  Trade Assurance

*We are not affiliated with, authorized by, or in any way connected to the companies indicated in this report, and are not responsible for their products and services. All trademarks and brand names are the property of their respective owners.

Main markets

MOQ (Minimum Order Quantity) For Product Customization:

300 pieces

CUSTOMIZATION:

- For the Temperature Control Travel Mug, logo customization is available for orders starting at 300 pieces, using methods such as laser engraving, pad printing, or screen printing, depending on the material and design requirements.
- Custom colors for the mug body can be provided for orders of 1,000 pieces or more.

PRODUCT PRICE:

For a batch of 550 pieces, this supplier offers an **excellent price of \$2.10/piece**. If you choose to order additional items, the price per piece might be lower, resulting in a higher margin and ROI.

*Information provided in this document shall not be considered selling, professional or investing recommendations or advice. Results not guaranteed

**The information and data presented in this report are accurate at the time of publishing, but may undergo significant changes in a short period of time, due to the volatile and constantly evolving nature of the Amazon market.

PRODUCT SHIPPING:

- The supplier is offering a price of around **\$1,115** to ship a batch of **550 pieces**. Please keep in mind that this price is only intended for reference purposes and is based on delivery to the Amazon warehouse located at 5750 Mesmer Ave, Ste D, Culver City, CA 90230, United States.
- The exact shipping costs depend on the specific destination and type of freight. It is possible to find a different shipping service that will deliver a given number of sets at a lower price, in which case you'll only need to negotiate with the supplier about manufacturing.

MANUFACTURING TIME:

The manufacturing process typically takes **15 days**.

SHIPPING TIME:

- The shipping process by **sea + express delivery takes about 30 days once the vessel departs**.
- You can also order partial shipments, if necessary.

SAMPLE ORDERING:

A sample of this product costs **\$10.00/piece (shipping not included)**.

As part of this service, we will introduce you to a supplier via email or messenger if you prefer. When you're ready to contact them, please let us know by sending an email to support@amzscout.net.

Be sure to include your name, the same email address you used when submitting your product survey, and your preferred mode of communication with the manufacturer.

**The information and data presented in this report are accurate at the time of publishing, but may undergo significant changes in a short period of time, due to the volatile and constantly evolving nature of the Amazon market.

HOW WE DID IT

Explanations you need to understand in order to get the most value from this report:

An Amazon “listing” is a product page on Amazon's website that displays information about a product. A listing usually consists of a title, product description, images, price, and reviews. This information helps customers find a product and learn more about it.

“Listing optimization” is very important, as it allows sellers to improve a product’s visibility and ranking in Amazon search results, which means higher sales and revenues. Another goal of listing optimization is to make the product more attractive to potential customers, which can lead to more clicks, higher sales, and better reviews.

SEO optimization of an Amazon listing includes the following steps:

- **Keyword research.** In this step, we collect all relevant keywords from Amazon search results pages and competitor listings, using AMZScout tools.
- **Selecting the main keywords for promotion.** During this step, we select the most effective main keyword for the listing. We consider the difficulty of promotion for every keyword, and choose the most optimal one in terms of the volume of requests and the level of competition.
- **Creating SEO optimized texts for a listing.** This includes writing a title, bullets, and a description of the product. It is very crucial to include the right keywords in each of these parts of the listing. It’s also important that the title, bullets, and product description are not too long. All text must be attractive to customers, informative, and follow best practices for Amazon SEO.
- **Adding a list of backend keywords.** There should be no keyword repetitions.

All listing elements need to meet strict Amazon requirements.

Listing optimization is not a process that just occurs once. Any effective optimized listing and its keywords have to be reviewed and updated periodically. Here are some reasons why:

- As you generate more sales and reviews, the listing has more chances to rank higher using additional high-competition keywords (those that lead to higher sales and have higher search volumes).
- Changing your listing’s title, text, and images may improve conversion, which is why it’s a good idea to test out different options.
- As new competitors or products emerge, this can influence buyers’ behavior, expectations, and search terms, which may affect your listing rank and conversion rate over time.

The search volume for selected keywords can also change over time.

*Information provided in this document shall not be considered selling, professional or investing recommendations or advice. Results not guaranteed

**The information and data presented in this report are accurate at the time of publishing, but may undergo significant changes in a short period of time, due to the volatile and constantly evolving nature of the Amazon market.

MAIN KEYWORD FOR PROMOTION

temperature-controlled mug

WHY DID WE SELECT THIS KEYWORD?

- **This keyword is relevant to the product.**
- **This keyword has a high search volume.** It generates over 10,000 searches/month, which is the highest number of searches among relevant keywords.
- **This keyword is also not very competitive.** Both the average sales in the niche “temperature-controlled mug” and the average number of reviews aren’t high, so despite the fairly high number of sellers in this niche, this keyword is optimal in terms of competition. At the same time, other popular keywords (such as “vacuum sealed travel cup” and “smart cup”) have lower numbers of searches and higher competition, where the number of search results on Amazon is 10,00 and more.

LIST OF KEYWORDS TO BE USED:

Amazon Search Keyword	Est. Monthly Search Volume	Used for
temperature-controlled mug	10,000	Main keyword
vacuum sealed travel cup	9,880	Bullets
heated mugs rechargeable	6,110	Bullets*, Description
smart cup	5,400	Bullets, Description
heated coffee mug	3,600	Title, Bullets

*Information provided in this document shall not be considered selling, professional or investing recommendations or advice. Results not guaranteed

**The information and data presented in this report are accurate at the time of publishing, but may undergo significant changes in a short period of time, due to the volatile and constantly evolving nature of the Amazon market.

Amazon Search Keyword	Est. Monthly Search Volume	Used for
coffee travel mug	2,900	Bullets, Description
coffee mug warmer	2,900	Bullets, Description
heating cup	1,900	Bullets
insulated travel mug	1,600	Title, Bullets
smart mug	1,600	Description
usb cup warmer	1,500	Title, Description
heated travel mug	480	Title, Description
rechargeable coffee mug	260	Description
tea heater mug	230	Description
temperature control smart mug	140	Description

For this list of keywords, we used the most popular niche keywords as well as keywords for following products that are popular and/or fast-growing: **B0D12ZV98J**, **B0B6JTX6NB**, **B0DD8NS6IS**, and **B0CGMDWT8C**.

In addition to the most popular keywords, we have also considered the following words from “long tail” keywords in order to increase the likelihood that the product will be included among a wider list of requests, and is therefore likely to collect more traffic. The list of backend keywords includes words related to relevant characteristics of such temperature controlled mugs, as well as some keywords in Spanish.

DESCRIPTION

Enjoy your coffee or tea at the perfect temperature with this smart temperature-controlled mug. It's designed to keep drinks heated at 131°F, bringing out the optimal flavor and aroma. Whether you're at home, at the office, or on the road, this heated travel mug keeps your favorite drink warm for up to 90 minutes.

Why You'll Love Our Smart Cup:

- Keeps drinks hot at 131°F for the perfect sip
- Features a USB-powered cup warmer + fast-charging magnetic cable
- Heated mug is rechargeable and easy to carry
- Includes smart mug display with temp and battery info
- Makes a great gift idea for coffee or tea lovers

This rechargeable coffee mug is easy to use—just press and hold the button to turn it on. The smart display shows the temperature in both Fahrenheit and Celsius, along with the cup's remaining battery life. This item is a perfect choice for busy mornings or work-from-home days. Charge the cup quickly with the included USB cup-warmer cable and enjoy a hot beverage at your desk all day.

With its vacuum-sealed, insulated design, this coffee travel mug prevents spills and keeps drinks hot and fresh. Use it as a heated coffee or tea mug daily coffee mug warmer. This item is ideal for any hot drink lover who wants to enjoy their beverage on the go.

Looking for a unique and practical gift? This temperature control smart mug is a must-have for coffee and tea fans. Stylish, functional, and built for daily use, it's a gift they'll truly enjoy.

BACKEND KEYWORDS

wireless cordless thermal cooler auto digital taza inteligente thermos

*Information provided in this document shall not be considered selling, professional or investing recommendations or advice. Results not guaranteed

**The information and data presented in this report are accurate at the time of publishing, but may undergo significant changes in a short period of time, due to the volatile and constantly evolving nature of the Amazon market.

A+ CONTENT

- A+ Content is an enhanced product description tool available to Brand Registered sellers on Amazon. It allows sellers to present their product visually and structurally with the use of images, comparison blocks, and expanded text sections.

- The primary goal of A+ Content is not keyword indexing, but rather conversion optimization. While keywords are indexed throughout the title, bullets, description, and backend search terms, A+ Content focuses on helping shoppers gain a clearer understanding of the product, its functionality, and its value, compared to alternatives.

What Is the Purpose of A+ Content

The main purpose of A+ Content is **conversion optimization**, not keyword indexing.

Unlike titles, bullets, and backend search terms, A+ Content does not play a primary role in Amazon SEO. Instead, it focuses on:

- Explaining how the product works
- Highlighting key features and benefits in a visually appealing format
- Differentiating the product from similar competitors
- Reducing customer doubts and unanswered questions

Properly structured A+ Content helps turn listing traffic into sales.

MODULES YOU'VE SELECTED:

1. Standard Company Logo
2. Standard Image Header with Text
3. Standard Four-Image and Text
4. Standard Single-Image and Highlights

Other specific criteria:

- Photo: One product photo in medium quality
- Color palette: Dark green + black
- Theme: Dark
- Style: Minimalistic
- Special requests: None

*Information provided in this document shall not be considered selling, professional or investing recommendations or advice. Results not guaranteed

**The information and data presented in this report are accurate at the time of publishing, but may undergo significant changes in a short period of time, due to the volatile and constantly evolving nature of the Amazon market.

BEFORE & AFTER

Before

- ✗ Text-heavy product description
- ✗ No brand story or emotional hook
- ✗ Low engagement and weak trust signals
- ✗ Hard for shoppers to quickly understand value of product

After

- ✓ Visual modules that guide the buyer's journey
- ✓ Clear brand story that builds trust
- ✓ Benefits-first messaging, not just features
- ✓ Lifestyle imagery that shows real-world use

What the client had: One basic product image and a standard text description that failed to capture attention.

Product Description

The New and Improved SmrtMugg Go v2 is a heated travel mug for people on the go. It's simplistic design is great for what it's designed for, keeping your coffee at the perfect, drinkable temperature. It's designed to keep your coffee in the "Goldilocks Zone" of temperature, where your coffee tastes the best. It's designed to quickly cool hot coffee, and then keep it in this perfect, drinkable temperature zone of approx. 131°F (55°C) for about 90 minutes, plenty of time to finish your drink and enjoy every sip. The SmrtMugg Go is our most straightforward product ever. It's got 1 button. Hold it down to turn on the heat. It will keep your coffee at 131°F (55°C). Hold it down again to turn the mug off. Tap the button once to display current temperature inside the mug in Celsius. Tap again to display current temperature in Fahrenheit. And tap the button a third time to display remaining battery life. From a full charge it will keep your coffee at the perfect drinking temperature for at least 90 minutes. With other mugs, the quality of each sip diminishes, as each sip is always a little colder than the last. This is no longer an issue with the SmrtMugg Go as each sip will be at the ideal drinking temperature. The SmrtMugg Go is also capable of keeping your drink warm all day during desktop use, if you start with a full charge and keep the magnetic power cord attached. The SmrtMugg Go is easy to clean (hand wash only) and once it's clean and dried, simply pop the innovative magnetic charging cord onto the mug and it'll be ready to use again in no time. The SmrtMugg Go is designed to be super simple, yet ultra-reliable. It's also one of the most affordable battery powered heated mugs on the market. We hope you enjoy your SmrtMugg Go. Great Coffee at the Perfect Temperature for a wonderful way to start your day!

HOW WE DID IT

While searching for this product, we followed these criteria:

Categories: Pet Supplies.

Price range: \$25 - 50

Demand: Determined by data on monthly sales and revenues on various trading platforms, including Amazon and AliExpress. Good values are considered to be revenue from \$3,000 on Amazon US, from €3,000 in Europe, and from £3,000 in the UK. In addition to profits generated, we also pay attention to the search trend for relatable keywords in Google and on Amazon - we get all of this data from a reliable source, AMZScout.

Competition: This can be considered "light" if there are not too many sellers on the same listing. We also take into account the number of reviews for the product and the average number of reviews within the niche. If the product has a high number of reviews and high ratings compared to the average within the niche, this is a great advantage. Additionally, we analyze the Best Seller Rank (BSR). A lower BSR suggests stronger demand, which is crucial for reselling models on Amazon (like Wholesale and Online Arbitrage).

Other specific criteria: High revenue; Stable demand throughout the year, no seasonality; Lightweight and small product size (might be especially important to some sellers who utilize the Amazon FBA business model).

① **ASIN:** The Amazon Standard Identification Number is a 10-character alphanumeric code used by Amazon to uniquely identify products listed on the marketplace.

① **UPC:** The Universal Product Code is a 12-digit number used globally in retail to identify products and typically appears as a barcode on product packaging.

WHY IT IS A GREAT IDEA TO SELL IT

- This product's score for reselling is 10, which indicates that the product has high demand and low competition for reselling, using a wholesale model. The competitive landscape for reselling remains limited, with only two other sellers currently offering this product.
- Additionally, the considerable volume of reviews indicates this item's immense popularity among buyers, suggesting that achieving high sales should be relatively feasible. This product also boasts an impressive rating of 4.5 stars on Amazon, and there is an opportunity to offer complementary products, such as heat packs, and more.
- Since there are currently only two other sellers on this listing, neither of whom is Amazon, this reduces direct competition from other strong sellers. Furthermore, sellers can expect to achieve high profits due to this product's low fulfillment costs, compact size, and light weight. They can become part of an Amazon listing for this product seamlessly without needing to obtain any special permission, which means that this product currently has no limitations under the new conditions.

PRODUCT HISTORY ON AMAZON

Despite occasional fluctuations, we can see that this product has been experiencing consistently high sales throughout the last year.

*Information provided in this document shall not be considered selling, professional or investing recommendations or advice. Results not guaranteed

**The information and data presented in this report are accurate at the time of publishing, but may undergo significant changes in a short period of time, due to the volatile and constantly evolving nature of the Amazon market.

PRODUCT BUY BOX PRICE HISTORY

This chart illustrates the historical trends of the Buy Box price, Amazon price, and other key pricing metrics (FBA and FBM minimum prices). It highlights how pricing dynamics affect a product's competitiveness when securing the Buy Box, which is critical for driving sales.

Monitoring these metrics allows sellers to evaluate their pricing strategies, understand competition, and make data-driven adjustments to improve visibility and performance. Frequent drops in rank or significant price spikes may indicate issues with inventory, competition, or pricing.

SOURCING OPTIONS*

It's important for sellers to work closely with suppliers to achieve a successful product launch. The suppliers listed in the report are merely examples, and you have the opportunity to explore more suitable options tailored to your profit goals. When using the wholesale model, it's generally more feasible to request documentation from the official distributor and build long-term relationships with suppliers.
