

CCN and Tiramizoo collaborates to offer seamless integration of urban logistics

Singapore, 13 January 2025 – Cargo Community Network (CCN) announces a cooperation with the leading vendor for Last Mile technology, Tiramizoo Pte Ltd, through its CUBEforall platform.

With Tiramizoo, CCN extends its coverage of the overall supply chain: Having its origin in air cargo, the CUBEforall platform becomes an end-to-end logistics solutions, providing customers with access to specialized IT services for each logistics phase.

The Last Mile is a critical step of the whole shipping process since it is the “customer-facing” stage; it is both high labour intensity and complex operations. Finally, it is also characterized by high stop density, various use-cases & involved personas.

CCN integrates seamlessly Tiramizoo’s technology on the CUBEforall platform enabling its platform-users to optimise and manage the Last Mile operations.

CCN’s CEO, Adrian Goh, reflects on the collaboration, “As a company that has long supported air cargo operations, we understand the complexities of logistics extends beyond the airport. This collaboration with Tiramizoo marks a pivotal moment where CUBEforall evolves further into a full-service platform that now directly addresses the crucial last-mile segment, arming CCN’s community of users the tools to remain competitive in an evolving logistics landscape.”

Martin Straeb, CEO of Tiramizoo Pte Ltd, shares his perspective: “We are experts for optimising urban logistics challenges knowing that the supply chain consists of many more steps. Therefore, our philosophy always has been to offer open API to integrate with other IT-vendors. With the CUBEforall platform we partner with an outstanding ecosystem that offers a comprehensive suite to cover seamlessly the whole supply chain. It saves our joint customers integration costs and time.”

About Tiramizoo Pte Ltd

Tiramizoo is a company that focuses on refining the last mile in the transport process. The primary problem it addresses is the optimization, management, and control of deliveries, fleet, and drivers. The company achieves this through the implementation of their transport management system specifically designed for the last mile logistics.

Tiramizoo was founded 2011 with its headquarters in Munich/ Germany and operates today subsidiaries in Singapore and Kuala Lumpur.

At the heart of Tiramizoo's platform is the proprietary algorithm calculating most efficient routes by considering urban constraints like traffic, availability and load capacities of vehicles, opening hours of consignees, driver skill-sets etc. Tiramizoo can easily be integrated into telematics, ERP, WMS via API.

Tiramizoo's customers are 3PL, logistics companies, postal companies, retailers, wholesalers, e-commerce etc.
