

Insights Hub for Reseller Partners Product Sheet

The Insights Hub for Reseller Partners Offering is exclusively available to partners who have an active Siemens Partner Program Agreement for Insights Hub. The Offering is intended to help partners influence end-customers and sell/re-sell Insights Hub products and bespoke Insights Hub applications/solutions. Insights Hub for Reseller Partners provides everything you need to develop and demonstrate an Insights Hub based solution. The Offering is not authorized to support commercial use – for example, you cannot use Insights Hub for Reseller Partners to operate a bespoke solution supporting an end-customer in a production mode.

Prerequisites	
Siemens Partner Program Agreement for Insights Hub	Partner must have an active Siemens Partner Program Agreement for Insights Hub to be eligible for the Insights Hub for Reseller Partners Offering.
Web browser	A HTML5 capable Internet browser is required (e.g., Mozilla Firefox, Google Chrome, or Microsoft Internet Explorer). The recommended screen resolution is 1024x768 or higher.
Internet connection	The bandwidth of your Internet connection will determine your experience of the performance of the Offering.

Description	
When subscribing to Insights Hub for Reseller Partners, you will be provided with the following Offerings. Please note that certain limits apply as per the table below.	
Insights Hub Capability Package	
General	The Insights Hub Capability Packages provide you with a dedicated Account in Insights Hub which is required to use the various IIoT capabilities for developers, operators and end users depending on the Insights Hub Capability Package. The descriptions and conditions set out in the Product Sheet for Insights Hub Capability Packages available on https://siemens.mindsphere.io/en/docs/Product-Descriptions-Overview/MindSphere-Product-Sheets apply to your use of the Insights Hub Capability Package, subject to the limits set out in the table below.
Asset Attributes	
General	To use the Insights Hub Capability Packages, Asset Attributes are needed. Asset Attributes are properties of Assets. An Asset Attribute represents individual data such as temperature, pressure, or speed. They can be static, e.g., a serial number or dynamic like temperature where historical data is desired. An Asset comprises at least one Asset Attribute but can contain more, if required.

	<p>Asset Attributes created by you are counted independently of their purpose such as monitoring, alarming, or structuring.</p> <p>The description and conditions for “Asset Attributes” set out in the Product Sheet for Insights Hub Capability Packages available on https://siemens.mindsphere.io/en/docs/Product-Descriptions-Overview/MindSphere-Product-Sheets apply to your use of Asset Attributes, subject to the limits set out in the table below</p>
Insights Hub Cloud Resources	
General	<p>Insights Hub cloud resources empower you to use Insights Hub capabilities. Insights Hub Cloud Resources Packages provide the resources required to use the various capabilities and functionalities provided either in an Insights Hub Capability Package or as an Insights Hub Add-on Offering.</p> <p>Insights Hub for Reseller Partners Offering includes Cloud Resources called “IIoT Data Package”, “Integrated Data Lake” and “Data Contextualization”.</p>
IIoT Data Package	<p>To use various capabilities and functionalities provided, Insights Hub Cloud Resource Packs are required. Therefore, Insights Hub for Reseller Partners Offering includes mandatory Cloud Resources called “IIoT Data Package”.</p> <p>The description and conditions for “IIoT Data Package” set out in the Product Sheet for Insights Hub Cloud Resources available on https://siemens.mindsphere.io/en/docs/Product-Descriptions-Overview/MindSphere-Product-Sheets apply to your use of IIoT Data Package, subject to the limits set out in the table below.</p>
Integrated Data Lake, Data Contextualization	<p>Insights Hub for Reseller Partners Offering includes also optional Insights Hub Cloud Resources called “Integrated Data Lake” and “Data Contextualization”.</p> <p>Such Cloud Resources are needed for specific use cases and are required to consume/use the respective capabilities.</p> <p>The descriptions and conditions for “Integrated Data Lake” and “Data Contextualization” set out in the Product Sheet for Insights Hub Cloud Resources available on https://siemens.mindsphere.io/en/docs/Product-Descriptions-Overview/MindSphere-Product-Sheets apply to your use of Integrated Data Lake and Data Contextualization, subject to the limits set out in the table below.</p>
Upgrades and Add-ons	
Upgrades	<p>You can upgrade to larger sizes of included products (e.g., Insights Hub Capability Package, IIoT Data Package) for an additional fee.</p>
Add-ons	<p>You can also subscribe to Add-on products based on your needs. Insights Hub Add-ons provide additional capabilities that enhance the Insights Hub Capability Packages. Insights Hub for Reseller Partners does not include any Add-ons. Please refer to the Product Sheet for Insights Hub Add-ons available on https://siemens.mindsphere.io/en/docs/Product-Descriptions-Overview/MindSphere-Product-Sheets for the complete set of Add-on Offerings and evaluate if any would be helpful in supporting your business goals.</p>

Overview

The authorization levels shown in the table below set out the overall limits of authorizations for the respective metrics. Regarding other limits please refer to the Product Sheet for Insights Hub Capability Packages and Insights Hub Cloud Resources available on <https://siemens.mindsphere.io/en/docs/Product-Descriptions-Overview>.

Should the actual usage repeatedly exceed one or more of the applicable limits below, and should you not order the appropriate increase of usage capacities for an additional fee, we reserve the right to suspend the Offering. Other contractual rights and remedies remain unaffected.

Should the actual usage of your Asset Attributes and Insights Hub Cloud Resources exceed the applicable limits below, usage-based fees will be charged on a monthly basis as set forth in the Price List for Offerings with Usage-based Fees available at <https://siemens.mindsphere.io/en/docs/Product-Descriptions-Overview/usage-based>.

Please note that depending on your usage certain technical limitations may apply in addition to the limits set out in the tables below. For more information, please refer to <https://siemens.mindsphere.io/en/docs/Product-Descriptions-Overview/technical-limitations>. To clarify whether such technical limitations can be increased please contact Insights Hub Support.

Insights Hub Capability Package	Size Premium
Asset Attributes	1 000
