**Transform the everyday
with us**

Electrification & Automation Engineering: Internship Program

Program Overview:

The Electrification & Automation business unit covers the entire spectrum for power distribution systems and solutions as well as products for protection technology, station automation, telecontrol technology, power quality, smart communication and microgrids.

Programs are offered to support full-time and part-time temporary assignments during the summer, fall and spring semesters. Our programs are ideal for students who are passionate about innovative technology and eager to gain hands-on experience with products, applications, and technologies that advance our communities while improving energy efficiency and creating a cleaner, safer environment.

Successful completion of the internship program will prepare you for a potential opportunity in future roles within the business or a direct hire position upon completion of your degree.

Examples of Past Rotations and Projects:

- Utility / Energy sector projects (Power Transmission, Generation and Distribution)
- Configuration and testing of energy automation systems
- Energy management and efficiency
- Engineering design process improvements

- Thermal simulation and testing
- Additive manufacturing
- Product and project management
- Application and order engineering
- Sustainable product design
- Protection automation

Internship Rotation Offerings:

- Summer Internship Program (Full-time)
- Spring and Fall Co-Op (Full-time)
- Fall Internship Program (Part-time)
- Spring Internship Program (Part-time)

for students and recent graduates

Candidate Requirements:**Majors:**

Currently enrolled in one of the following Majors; Electrical Engineering, Mechanical Engineering, Manufacturing Engineering, Computer Engineering, Computer Science, Business / Data Analytics, and Information Technology.

Academic Standing:

Rising sophomore, junior, or senior

Schedule:

Summer Full-time: 40 hours per week (Monday-Friday) May-August

Co-Op Full-time: 40 hours per week (Monday-Friday) August-December

Fall Part-time: 30 hours per week (Monday-Friday) August-December

Spring Part-time: 30 hours per week (Monday-Friday) January-April

Work Authorization: Permanent work authorization in the U.S. is required.

Location:

Wendell, NC

About Siemens

Siemens Corporation is a U.S. subsidiary of Siemens AG, a leading technology company focused on industry, infrastructure, transport, and healthcare. From more resource-efficient factories, resilient supply chains, and smarter buildings and grids, to cleaner and more comfortable transportation as well as advanced healthcare, the company creates technology with purpose, adding real value for customers. By combining the real and the digital worlds, Siemens empowers its customers to transform their industries and markets, helping them to transform the everyday for billions of people. Siemens also owns a majority stake in the publicly listed company Siemens Healthineers, a global leading medical technology provider shaping the future of healthcare.
