Project manager	224.00	302.00	336.00
Senior project manager	272.00	367.00	408.00

Prices for further technical services will be provided upon request.

### The following Terms and Conditions apply for Technical Services:

#### 1. Scope

The above-mentioned prices, terms and conditions are valid for customers based in Germany. Prices for services outside Germany will be provided upon request. For employees of the Siemens AG the current local labor agreements apply. The charging of costs is based on the weekly working hours, that are valid in the state of the sending department. This price list becomes invalid, with the publication of a new price list.

#### 2. Prices

The hourly rates apply to working-, remote-support-, travelling-, transit-, waiting-, preparation- and follow-up processing-time. For services outside of normal working times the Working Hours Act must be observed, particularly regarding "exceptional cases", as well as subject to approval by regulatory authorities if necessary. If services are executed beyond our normal working times applying these prerequisites and in "exceptional cases", cost surcharges shall be invoiced.

For work activities under specific circumstances surcharges may apply.

#### 3. Incidental costs

Cost rates of services during the normal working times include a prorated daily allowance. Not included are travel costs and accommodation allowances. Potentially arising accommodation expenses, travel expenses and other incidental costs are charged by expenditure. The cost rate for the deployment of vehicles is EUR 1.10 per kilometer. Special vehicles are charged by expenditure.

The compensation for the provision of special tools, measuring equipment, set-up tools, lifting gear and construction site equipment, as well as special protective equipment will be charged separately. Delivery and return will be at the customer's expense. Incidental costs such as taxes, fees, insurances and other charges, incurred in connection with the service provision, are charged by expenditure.

We charge a flat rate of EUR 750.00 (net) per transaction for the notification, coordination and administration of services abroad (regardless of the service-providing unit)

#### 4. Value added tax

Besides the prices, the valid value added tax will be charged in addition.

#### 5. Other provisions

In case of changes in cost at the beginning or during the performance of technical services, due to legal, tariff, or other regulations which Siemens is not responsible for, the alignment of prices and conditions remains reserved. Further conditions must be agreed upon in writing.

An assembly insurance is not included and must be taken out by the customer if necessary.

#### 6. Legal validity

The contract language is German. German law shall apply exclusively. The German version of the price lists for technical services as well as for maintenance, overhaul and services is definitive. The English version is for information purpose only.
