TRANSPORT GUIDELINES
Transport control of purchase deliveries – Germany National

For goods that Siemens purchase from you on the basis of the delivery contition FCA “free carrier" (i.e. that the transport costs are borne by Siemens), we request that you observe the following shipping instructions:

I N G E N E R A L:

Please note that:

- that the Siemens order or purchase order number must be indicated in the freight documents without fail.
- Freight charges from the supplier will not be accepted.
- For FCA shipments, it is mandatory to provide the freight forwarder with the ORGID (= address identifier) of the ordering Siemens unit.
- The separately indicated SOR ("Siemens Organization Reference") of the freight paying Siemens unit must be provided to the forwarder by the supplier.

These are the requirements for the identification for the Siemens freight release so that the goods shipment can be carried out. If OrgID and SOR number are not known, they have to be requested from the ordering Siemens unit.

Dangerous Goods Shipments:

- For shipments containing dangerous goods, the supplier is obliged to provide the forwarder with the required data (UN-No./Class) for dangerous goods when placing the order.
- The supplier is responsible for the transport packaging, marking and labeling for the commissioned mode of transport..

A T T E N T I O N:

If the shipment of goods does not take place from the supplier's originally commissioned country, it is mandatory that the supplier consults the relevant Siemens unit so that the transport service provider nominated for the country can be used.

In the case of non-compliance with this transport control for the shipment of goods, the ordering Siemens unit will invoice the additional costs incurred for freight and administrative expenses.

SIEMENS

How to allocate your shipment to the right transport mode

Characteristics Parcel shipment

- Express/parcel deliveries EOB / time-precise deliveries (before 09:00h, before 10:00 h, before 12:00 h).
- Time delivery with time option needs a release of the ordering Siemens department
- Standard < 70 kg per package: length x width x height 120 cm x 80 cm x 80 cm
- Exceptions > 70 kg per package:- maximum 300 kg per package- length x width x height: 300 cm x 120 cm x 160 cm

Restrictions **Parcel**	
Length	120 cm
Weight	80 cm
Hight	80 cm
max. weight per package / colli	32 kg

Express/Parcel

Characteristics Groupage

Emons/IDS/Geis:

- 1 kg - 3000 kg
- and does not exceed GRP restrictions
- Attention:
  Unconsolidated shipments
  < 32 kg have to be processed via the nominated parcel service provider (Characteristics Parcel-Provider)

Emons/IDS/Geis:

Groupage restriction per one package / colli	
Length	≤ 240 cm
Width	≤ 180 cm
Hight	≤ 220 cm
Weight	≤ 1200 kg
Max. Volume	≤ 3 cbm
Max. Ldm	2,4 Ldm

Groupage

Characteristics LTL

- Single Shipment
  ≥ 1000,1 kg, or
- Single Shipment
  < 1000,1 kg with reloading ban and/or stacking restriction, or
- Individual shipments < 1200 kg that exceed the groupage criteria (see Groupage restriction).

LTL

Characteristics FTL

- Standard deliveries for FTL transports = complete loads: max. load per truck type 24000 kg

FTL

Characteristics Slightly ODC

- Slightly Overdimensional Cargo (ODC) = Shipments outside of standard traffic
- The following service codes / truck types are to be applied (see the slide below):

  34801_Open low-loader with throwing tarpaulin

  34802_Open drop deck with throwing tarpaulin

  34803_Open mega trailer with tarpaulin

  34804_Extensible mega tarpaulin semitrailer

ODC

Attention:
Small shipments with a dedicated reloading ban must be assigned to and invoiced as **LTL** (calculated according to lane-specific bulkiness factors).

SIEMENS

How to assign your Slightly Overdimensional Cargo (ODC) shipment to the appropriate truck type and its specific service code

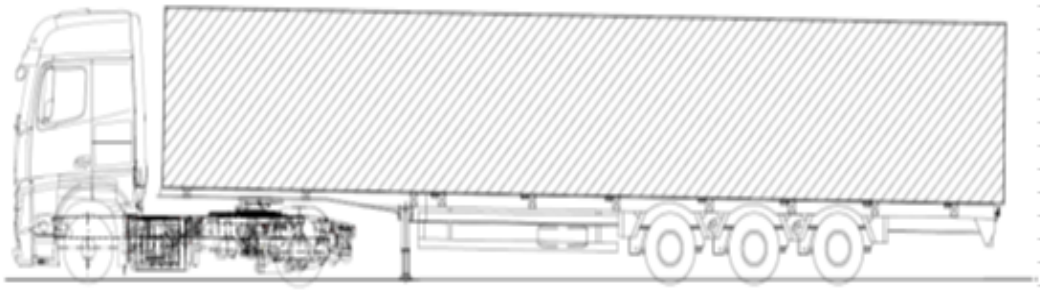

Offener Tieflader mit Wurfplane	Service Code
Open low loader with throwing tarpaulin (always carried separately by the freight forwarder)	**34801**
Measurements :	**Open low loader with throwing tarpaulin, loading height 0.85 m** **max. load dimensions** **drop deck:** 9,40 x 3,00 x 3,15 m (LxWxH) **max. load dimensions** **gooseneck:** 3,50 x 3,00 x 2,50 m (LxWxH)
Weight:	**Max. payload 18to.**

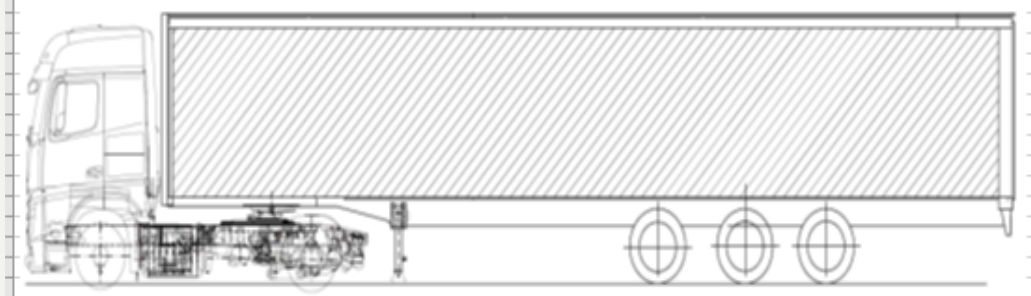

Offener Tiefbett mit Wurfplane	Service Code
Open low bed with throwing tarpaulin (always carried separately by the freight forwarder)	**34802**
Measurements :	Open low bed with throwing tarpaulin, loading height 0,35 m max. load dimensions low bed: 6,80 x 3,00 x 3,65 m (LxWxH)
Weight:	**Max. payload 18to.**

offener Megatrailer mit Wurfplane	Service Code
Open mega trailer with throwing tarpaulin (always carried separately by the freight forwarder)	**34803**
Measurements :	**Open mega trailer with throwing tarpaulin, loading height 1.05 m** **max. load dimensions** **open mega trailer:** 13,60 x 3,00 x 2,95 m (LxWxH)
Weight:	**Max. payload 20 to.** (with continuous width > 2.45m = max. 12.50 load length)

Mega Trailer mit verbreiterbarer Plane	Service Code
Widenable tarpaulin mega trailer	**34804**
Measurements :	**Widenable tarpaulin mega trailer, loading height 1.00 m** **max. load dimensions** **drop deck:** 13,60 x 3,00 x 2,90 m (LxWxH)
Weight:	max. payload 23 to. (with continuous width > 2.45m = max. 12.50 load length)
