

AI / LLM integration to the shop floor

Openness towards LLM providers

Level 1
Overview

Level 2
Detailed

- 1** Connect shopfloor equipment to Industrial Edge via pre-configured connectors
- 2** Integrate Industrial Edge with WinCC OA for data aggregation and visualization
- 3** WinCC OA seamlessly interacts with the WinCC OA MCP Server
- 4** The MCP server connects LLMs to WinCC OA, enabling intelligent automation and monitoring for industrial environments.
- 5** "Show me all temperature values in the plant"
"Which pumps are currently running?"
"Set the setpoint for pump P-101 to 50%"
"Create a production report for today"
