# SIEMENS

# Transform your manufacturing operations with Opcenter X - Simplify, Optimize, and Grow.

## Why Opcenter X?

Siemens is pioneering modular MOM, enabling more manufacturers to take a stepwise approach to digital transformation. Built natively in the cloud, Opcenter X lowers the time and cost barrier for small- to medium-sized manufacturers who can now realize rapid ROI with modules that connect and adapt as the enterprise matures. Easily integrated into the enterprise IT landscape, Siemens' modular solutions include MES, scheduling, quality and analytics.

**Faster time to market**

**Lower TCO**

**Higher product quality**

## Reduce cost of ownership with a modern cloud platform

Discover the reason behind the rapid growth of cloud technology in MOM software by experiencing Opcenter X's instant-on feature that ensures a quick time-to-value. With Opcenter X, enjoy secure and easy access from any location, knowing that the highest standards of privacy and data security are upheld. Leave all the operations, maintenance, and updates to Siemens, which helps reduce your IT costs.
