with us**

## eMobility<sup>®</sup> Experience Program: *Internship*

### **Program Overview:**

The Siemens eMobility<sup>®</sup> Experience internship is a 12-week summer internship ideal for students who are passionate about transportation electrification and eager to gain hands-on experience with products, applications, and technologies that advance our communities while improving energy efficiency and creating a cleaner, safer environment.

eMobility<sup>®</sup> is dedicated to driving an open and accessible market for electric vehicles by developing innovative AC and DC charging technologies, as well as planning and implementing secure grid connections to accelerate EV adoption. The solutions we work on range from personal in-home chargers for consumers (VersiCharge<sup>™</sup> AC series, Ford<sup>®</sup> Charge Station Pro) to large-scale electric bus chargers (Siemens SICHARGE UC).

This opportunity offers you the opportunity to apply your classroom knowledge to real world business challenges, further develop your technical skills, grow your professional network, and gain the exposure and practical experience that will empower you to cultivate their post-graduation career path and goals.

Successful completion of the internship program will prepare you for a potential opportunity in the two-year full-time rotational Siemens eMobility<sup>®</sup> Experience or a direct hire position upon completion of your degree.

**Examples of Past Rotations and Projects:**

- Circuit design and testing
- Software engineering, embedded software, and embedded systems
- Finite element analysis
- Thermal simulation and testing
- Additive manufacturing
- Product management
- Application engineering
- Sustainable product design

Siemens career opportunities  
for students and recent graduates

**Candidate Requirements:****Majors:**

- Computer Engineering
- Computer Science
- Electrical Engineering
- Mechanical Engineering
- Software Engineering and related programs

**Academic Standing:**

Rising sophomore, junior, or senior.

**Schedule:** Candidates must be willing and able to work 40 hours per week.

**Work Authorization:** Permanent work authorization in the U.S. is required.

**Potential Locations:**

Atlanta, GA

**About Siemens**

Siemens Corporation is a U.S. subsidiary of Siemens AG, a leading technology company focused on industry, infrastructure, transport, and healthcare. From more resource-efficient factories, resilient supply chains, and smarter buildings and grids, to cleaner and more comfortable transportation as well as advanced healthcare, the company creates technology with purpose, adding real value for customers. By combining the real and the digital worlds, Siemens empowers its customers to transform their industries and markets, helping them to transform the everyday for billions of people. Siemens also owns a majority stake in the publicly listed company Siemens Healthineers, a global leading medical technology provider shaping the future of healthcare.
