Introduction Training for MindSphere
Product Sheet

This one-day training provides an introduction to MindSphere – the cloud-based, open IoT operating system from Siemens. The training topics range from the importance of the ecosystem and partner network to connecting sensor data from MindConnect solutions via MindSphere architecture and security solutions to the wide array of cloud-based business opportunities. A live demonstration presents a collection of sensor data and the subsequent data analytics.

Training Specifics

Content	• MindSphere ecosystem • MindSphere portfolio • MindSphere scalability • Use cases • Information technology (IT) security • Live demonstration • MindSphere pricing model • MindSphere forums and networks
Duration	One day
Prerequisites	Laptop with USB port with ability to connect to the internet via Wifi or cable.
Training methods	Interactive lectures

Definitions

Public Training	Open classroom training that is booked per person with content predefined by Siemens, offered at a location designated by Siemens.
Onsite Training	Training that is booked per training with content predefined content by Siemens, delivered at a specific customer's site.
