Routing Order Europe for shipment of goods from Spain to Germany

TRANSPORT ORDER

Transport regulation for goods shipment on behalf of Siemens FCA (free carrier)

For goods purchased by Siemens under the delivery condition FCA 'Free Carrier' (i.e., Siemens bears the transport costs), we kindly request that you observe the following shipping instructions

IN GENERAL:

Please note the following:

- The Siemens order or purchase order number must be indicated in the freight documents without fail.
- Freight charges from the supplier will not be accepted.
- For FCA shipments, it is mandatory to provide the freight forwarder with the ORGID (address identifier) of the ordering Siemens unit.
- The separately indicated SOR (Siemens Organization Reference) of the freight-paying Siemens unit must be provided to the forwarder by the supplier.

These are the requirements for the identification for the Siemens freight release so that the goods shipment can be carried out. If the OrgID and SOR number are not known, they must be requested from the ordering Siemens unit.

Dangerous Goods Shipments:

- For shipments containing dangerous goods, the supplier is obliged to provide the forwarder with the required data (UN-No./Class) for dangerous goods when placing the order.
- The supplier is responsible for the transport packaging, marking, and labeling for the commissioned mode of transport.

ATTENTION:

If the shipment of goods does not originate from the supplier's originally commissioned country, it is mandatory for the supplier to consult the relevant Siemens unit to ensure the use of the nominated transport service provider for that country.

Non-compliance with this transport control for the shipment of goods will result in the ordering Siemens unit invoicing the additional costs incurred for freight and administrative expenses.
