**SIEMENS**

# Simple and Secure Connectivity

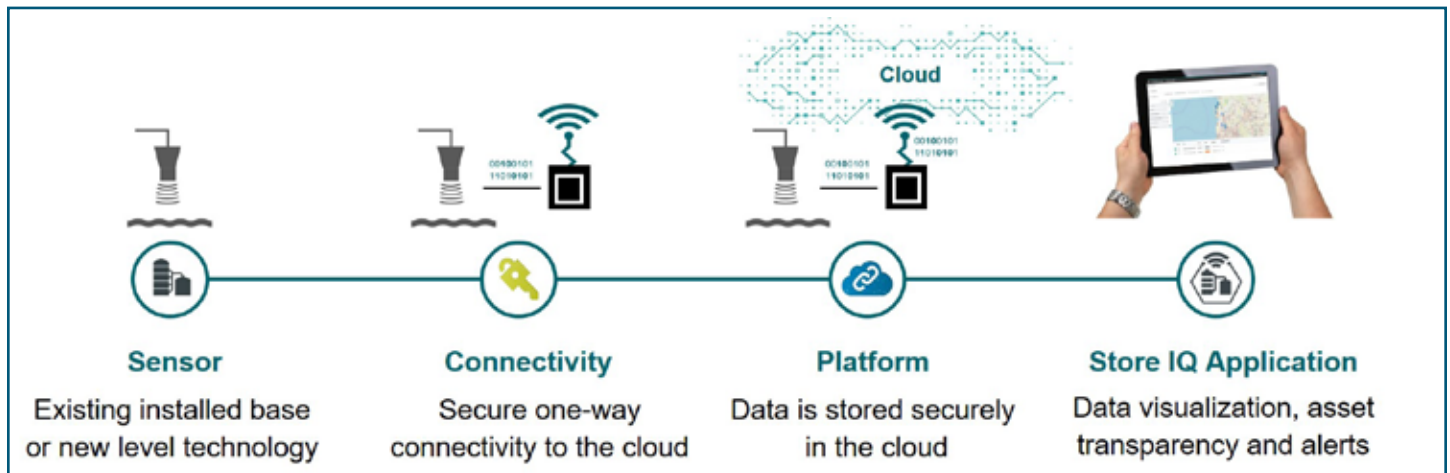

## Smart level Monitoring Solution

Siemens level Monitoring solution is designed around the measurement requirements of tank farms and silos. By using the Siemens store IQ application, you can monitor the status of assets, confirm inventory levels and coordinate delivery and retrieval of material on the phones, tablets or PC's of designated users. To get started contact the Engineered Instrument Solutions Team (EIS) by sending an email request to: [eis.solutions.us@siemens.com](mailto:eis.solutions.us@siemens.com)

From your sensor to your finger tips

Keep an eye on any part of your operation

## Typical Level Measurement Applications

- Tanks
- Silos
- Totes
- Bunkers
- Hoppers

## Advantages & Benefits

- Reduction in operation / maintenance cost
- Improved operator safety
- Accessibility to remote process variables
- User configurable alarms and notifications
- Backup of all monitored data in cloud
