## Message from the CEO

We are pleased to see continued growth in reported revenue for two of our three business segments, Wine and Distribution. Wine benefitted from strengthened portfolios and increased demand, while Distribution benefitted from strong demand. For the third business segment, Spirits, reported revenue was nearly flat during the quarter.

A large part of Easter sales occurred in Q1 this year, affecting Q2 negatively. Reported revenue growth was $4.0^{1}$ percent compared to Q2 last year, while organic growth was 3.6 percent.

Wine. The wine businesses in Sweden and Norway had strong growth during Q2. Wine benefitted from having a stronger portfolio with lighter wines adapted to the warm summer weather and new popular reds. This led to increased market shares in growing markets in both Sweden and Norway. Very unfavourable exchange rates, especially for the SEK versus EUR, reduced profitability.

Spirits. Revenues in Denmark and Germany were down during the quarter, partly due to destocking and weak development in consumer off-take in Germany, and a generally weak Danish spirits market. Organic sales in Norway declined slightly more than the market, while sales in the Duty Free Travel Retail-channel increased significantly.

Distribution. The progress continued in Q2. The main reasons are new customers, more volume from existing customers and wider demand among existing customers. Personnel and operating costs increased, mainly because of increased volume and peaks due to favourable weather.

## Operating revenue per

Adj. EBITDA pr segment ${ }^{1,2}$

[^1]
## Highlights Q2 2018

OVERALL PERFORMANCE

- Operating revenue for Q2 2018 was 673.2 MNOK, compared to 647.4 MNOK in Q2 last year (+4.0 percent) ${ }^{3}$, in a quarter that last year included Easter. Operating revenue increased for the Wine and Distribution segments, but was flat for the Spirits segment. Organic growth for Q2 was 3.6 percent.
- Adjusted EBITDA for Q2 was 61.6 MNOK, compared to 71.1 MNOK Q2 last year (-13.4 percent). The lower margin was mainly due to negative currency effects in Wine, higher personnel costs in Distribution, and unfavourable mix in Spirits.

## BUSINESS SEGMENTS

- Wine revenues amounted to 436.2 MNOK, compared to 417.9 MNOK in Q2 last year (+4.4 percent). Organic growth was 7.2 percent. Adjusted EBITDA margin was 10.1 percent for Q2 2018, compared to 10.8 percent in Q2 last year. Higher shares and demand increased revenue; unfavourable FX hampered profits.
- Spirits revenues amounted to 194.6 MNOK, compared to 195.4 MNOK in Q2 last year (-0.4 percent). Organic revenue was negative 6.4 percent $^{4}$. Adjusted EBITDA margin was 9.1 percent for Q2, compared to 14.0 percent in Q2 last year. Lower sales and unfavourable market and product mix reduced margins.
- Distribution revenues amounted to 77.6 MNOK compared to 70.8 MNOK in Q2 last year (+9.5 percent). Adjusted EBITDA for Q2 2018 was 4.3 MNOK, compared to 3.8 MNOK in Q2 2017 (+13.2 percent). Higher personell and external distribution costs reduced the EBITDA-impact of the incremental revenues.

## OUTLOOK

- Over the next years, Arcus ASA is well positioned to meet the financial targets outlined at the IPO.
- In the short term, we are taking action to mitigate the profit impact of lower sales, unfavourable mix and negative currency impacts

More details on outlook is provided in the half-year review

[^2]
## Half-year review

This half-year review presents highlights only. Additional details are available in the Group's interim report for Q1 and the review of Q2 results in this report. The interim reporting does not include all information that is normally prepared in a full annual financial statement, and should also be read in conjunction with the Group's annual financial statement as at 31.12.2017.

## FINANCIAL RESULTS

Operating revenue for the first half year was 1230.2 MNOK vs. 1 140.9 MNOK (+7,8\%) in the same period last year. Organic growth was 5.1 percent in the period with the Wine and Distribution business seeing solid growth, while the Spirits segment was down. Reported operating revenue was helped by the impact from the Vanlig and Hot n'Sweet acquisitions and stronger EUR, but hampered by the weakness of the SEK vs. the NOK.

Adjusted EBITDA for the first half year was 83.7 MNOK vs 92.4 MNOK for the same period last year. Acquisitions and the positive development of the Wine and Distribution business contributed positively to the results, but lower Spirits margins had a negative effect. Wine margins were negatively impacted by the weak SEK vs. EUR, and Spirits margins were reduced by inventory revaluation, increased A\&P and other costs connected with strategic initiatives.

## CASH FLOW AND FINANCIAL POSITION

Reported net cash flow from operations before tax YTD was 16.8 MNOK vs. -35.4 last year, with similar levels of EBITDA. Cash flow from operations was boosted by the receipt of an overdue receivable from Vinmonopolet ( 50 MNOK ) that had a due date
in the last weekend of 2017 and was paid on the first banking day in 2018.

## OUTLOOK

Arcus ASA operates in non-cyclical wine and spirits markets with moderate and steady growth, but with some variations between the different categories, countries and seasons. Tender wins, new products, operational efficiency improvements in Arcus' three business segments and minor bolt-on acquisitions will contribute to profitable growth going forward. Over the next years, Arcus ASA is well positioned to meet the financial targets outlined at the IPO.

In the short term, we are taking action to mitigate the profit impact of lower sales and unfavourable mix in the Spirits segment by reducing costs in the current year, focusing on items that will have the low impact on sales. In addition, on the Wine segment, we maintain our strategy of compensating for unfavourable currency impacts by adjusting consumer prices. The first opportunity to adjust prices in Sweden and Norway is September 1.

## LONG-TERM FINANCIAL TARGETS

As communicated in connection with the IPO, Arcus targets organic revenue growth in the level of 3-5 percent p.a. (including minor bolt-on acquisitions), as well as EBITDA growth of 6-9 percent p.a. over the next three to five years.

## SEASONAL VARIATIONS

The business of Arcus is seasonal. Sales of wine and spirits increase during national festivals and holidays, in particular Easter and Christmas. Q4 is normally the strongest quarter in terms of income as well as operating profit due to Christmas and New Year's Eve.

## DECLARATION BY THE BOARD OF DIRECTORS

The Board of Directors and Chief Executive Officer confirm, to the best of our knowledge, that the unaudited, condensed financial statements for the period 1 January to 30 June 2018 including notes, have been prepared in accordance with IAS 34 - Interim Financial Reporting, as determined by the EU and Norwegian Additional Requirements in the Securities Trading Act. It is also stated that the information in the condensed financial statement, provides a fair view of the business, and the Group's assets, liabilities, financial position and overall results.

## OPERATING REVENUE

Total operating revenue for Wine was 436.2 MNOK for the second quarter, compared to 417.9 MNOK in Q2 last year. Reported growth was 4.4 percent, while organic growth was 7.2 percent as weaker SEK vs. NOK reduced reported revenues.

Across all markets, Q2 sales were positively affected by the warm weather, but April sales were lower than last year due to Easter in Q1 this year.

In Sweden, Arcus' sales at Systembolaget increased more than the market growth of 4.3 percent, resulting in increased market shares. A portfolio well positioned within the growing categories of lighter products, together with increased marketing, more than compensated for lower sales of red wine bestsellers.

In Norway, sales at Vinmonopolet grew by 0.3 percent. Arcus' sales was driven by a strengthened portfolio adjusted towards the increased demand for lighter categories such as white wine, sparkling and rosé, leading to increased market shares in the period.

In Finland, the increased alcohol tax on wine and Easter in Q1 this year, led to a decline in sales at Alko. Arcus' sales to Alko in the period decreased slightly more than the decline in overall sales out of Alko.

Own wine brands experienced further growth and increased distribution in Sweden, Finland and in the Duty Free Travel Retail-channel.

## EBITDA

The adjusted EBITDA-margin for Wine was 10.1 percent in the second quarter compared to 10.8 percent in the same period last year.
Price adjustments in Norway and stable indirect costs compensated partly for the stronger EUR and higher sales of new products with typically lower margins.

## WINE

Arcus is the largest importer of wine in Norway, the second largest in Sweden, and the third largest in Finland. Arcus imports and markets agency wines, as well as Arcus brands.

## Spirits: Flat revenue, lower margins

## OPERATING REVENUE

Total operating revenue for Spirits first quarter 2018 was 155.7 MNOK, compared to 159.6 MNOK for the same period last year, a decline of 2.1 percent. Organic growth was negative 6.4 percent ${ }^{1}$, acquisitions contributed 7.4 MNOK in the period and there was a negative currency effect of 0.5 MNOK.

Organic revenues declined in all markets except Duty Free Travel Retail. The decrease was small in Norway, Sweden and Finland, with larger declines in Germany and Denmark.

In the Nordic monopoly markets, a large part of the Easter sales occurred in Q2 last year and in Q1 this year, with negative effect on sales in the quarter. In Norway, organic sales in the quarter decreased slightly more than the market. Organic sales were fairly flat in Sweden and Finland.

Revenues in Denmark were down, driven by a weak spirits market, although Arcus continued to take market share in the aquavit market.

Sales to Germany were significantly lower than last year. May 1st, Arcus' importer in Germany, Eggers \& Franke, was acquired by Rotkäppchen Mumm. This has led to continued and significant destocking in the quarter. In addition, the consumer offtake was also
lower than last year. Sales in the Duty Free Travel Retail-channel increased significantly, with a positive sales development in almost all product categories.

## EBITDA

The adjusted EBITDA margin for Spirits was 9.1 percent for Q2 2018, compared to 14.0 percent Q2 2017.

The main reasons for the lower margin in the quarter were the decline in organic sales, a negative market mix, a higher share of the revenue coming from low margin internal wine bottling services, negative currency effects, and a reduction in the internal transfer price for wine bottling services. Gains from M\&A contributed positively in the quarter.

## SPIRITS

Arcus is a global leader in aquavit with brands such as Gammel Opland, Linie, Løiten and Aalborg. Other important categories are bitter (Gammel Dansk), vodka (Vikingfjord, Kalinka, Amundsen and Dworek) and cognac (Braastad). Key markets are Norway, Denmark, Sweden, Finland, Germany and Duty Free Travel Retail (DFTR). Arcus brands are produced and bottled at Gjelleråsen, outside Oslo.

## VOLUME

Distributed volume in the second quarter was 12.4 million liters, an increase of 0.9 million liters from the same quarter last year. This equals an increase of 7.5 percent, while Vinmonopolet's total volume in the second quarter declined by 2.9 percent. The volume growth was driven by new customers, and growth for existing customers.

By the end of the second quarter, Distribution had a market share of 47.6 percent of volume delivered to Vinmonopolet, compared to 43.9 percent same period last year. Volume in the horeca-channel had double-digit growth.

## OPERATING REVENUE

Operating revenue increased by 9.5 percent to 77.6 MNOK in the quarter, compared to 70.8 MNOK in the same period last year. Higher volumes and
increased demand for storage and other services were driving this positive development.

## EBITDA

Adjusted EBITDA in the fourth quarter was 4.3 MNOK, compared to 3.8 MNOK same quarter last year. Increased volumes in May and June led to higher use of overtime and temps, as well as higher external distribution costs. This cost increase reduced the positive EBITDA-impact of higher revenues.

## DISTRIBUTION

Vectura is the leading integrated logistics service provider for alcoholic beverages in Norway. Vectura serves both Arcus-Gruppen AS and external customers. Vectura is located next to Arcus' production facility at Gjelleråsen, outside Oslo.

# Financial position and other <br> information 

## CASH FLOW AND FINANCIAL POSITION

Reported net cash flow from operations before tax in Q2 2018 was 35.1 MNOK, compared to 50.0 MNOK in Q2 2017 (-14.9 MNOK), driven mainly by lower adjusted EBITDA compared to the corresponding quarter last year.

Cash flow from operations in Q2 was negatively impacted by higher net working capital at the end of the quarter versus the level at the end of Q1. This increase in net working capital, which occurs every year in Q2, is due to inventory build-up related to production smoothing.

Net interest bearing debt was 952.4 MNOK, compared to 922.4 MNOK as at the end of Q2 2017. A lower opening cash position and slightly lower cash flow during the quarter increased net debt compared to last year, while lower SEK/NOK currency rate reduced the NOK-value of the SEKdenominated long-term bank loan.

OTHER INFORMATION

## DIVIDEND

In Q2 2018, Arcus ASA paid a dividend of 113 MNOK to its shareholders, equal to 1.66 NOK per share. This corresponds to 60 percent of the profit for the year 2017, and is at the mid-range of the 50-70 percent dividend target. For 2016 the dividend per share was 1.47 NOK per share.

## PURCHASE OF NON-CONTROLLING INTEREST

Arcus aquired 10.1 percent of the shares of Symposium Wines AS. Arcus' shareholding in the company is 90.1 percent after the purchase.

## CANICA INCREASED ITS OWNERSHIP TO 40.03 PERCENT

Canica passed the threshold of $1 / 3$ ownership in Arcus ASA 12 June. On 5 July Canica put forward a mandatory offer to all Arcus' shareholders to buy their shares at 45 NOK each. The offer was valid until 2 August.

The Board of Directors (BoD) of Arcus, in line with its legal obligation, issued a statement on the offer. According the BoD's overall assessment, including Carnegie's fairness opinion, Canica's offer was not fair from a financial point of view. As a result, the Board did not recommend to the shareholders of Arcus to accept Canica's offer.

Canica received acceptances corresponding to approximately 6.63 per cent of the issued shares and votes in Arcus, increasing their ownership to 40.03 percent. Normally, crossing the 40 percent ownership threshold would trigger another mandatory offer. However, since Canica passed the threshold as a result of a previous mandatory offer, no new mandatory offer requirement was triggered.

If however at some point in time a shareholder passes the threshold of 50 percent ownership, a new mandatory offer has to be made.

In several of the Group's wine companies, there are non-controlling interests. For most of these non-controlling interests, there are put options associated, which the non-controlling interest can claim at a certain point of time in the future. Although the the Group does not have control of the shares at the end of the reporting period, the Group has neither control of the possible exercise of the put-option. Because of this, these non-controlling interests are recognized as though they are owned by the Group, but with partial presentation of the non-controlling interests. Partial presentation of non-controlling interests means that the non-controlling interests' share of the profit for the year is shown in the statement of income, whereas no non-controlling interests are stated in the equity. At period end, the non-controlling interests' share of the profit for the year, adjusted for the dividend distributed for the period, are reclassified from non-controlling interest to the majoritys share of equity.

The presented remaining non-controlling interest in the equity is non-controlling interests where there are no put-options associated.

## Notes

NOTE 1 ACCOUNTING PRINCIPLES
The Group's condensed interim financial statements are prepared according to IAS 34 Interim Financial Reporting. The interim reporting does not include all information that is normally prepared in a full annual financial statement, and should be read in conjunction with the Group's annual financial statement as at 31.12.2017.

The Board approved the consolidated financial statement for the year 2017 on March 15th 2018.
The accounting principles used in the Group's interim reporting are consistent with the principles presented in the approved financial statement for 2017, except for the adoption of new standards effective as of 1 January 2018. The Group has not early adopted any other standard that has been issued but is not yet effective.

## New accounting standards

IFRS 15 Revenue recognition
The Group applies from 2018 for the first time, IFRS 15 Revenue from contracts with customers. The nature and effect of these changes are disclosed in note 2 Revenues.

## IFRS 16 Leases

IFRS 16 Leases will replace the existing IFRS standards for leases from 1.1.2019. The accounting effects for the Group will be rather significant. Further information on how the new standard will affect the Group is presented under the chapter accounting policies in the Group's annual statement for 2017. There are no material changes in the estimated impact of accounting effects since the annual statement.

As of 30.06.2018, the following exchange rates have been used in translation of income and financial position figures from subsidiaries with functional currency other than NOK:

| Exchange rates |  | Year to date | Year end |
| :--- | :--- | :---: | :---: |

| SEK average rate | Income statement items | 9.4765 | 9.5737 |
| SEK closing rate | Balance sheet items | 9.8510 |  |
| DKK average rate | Income statement items | 0.9460 | 0.9566 |
| DKK closing rate | Balance sheet items | 0.9078 | 0.9896 |

## NOTE 2 REVENUES

## New accounting standard - IFRS 15 Revenue from contracts with customers

The new standard have been implemented as of January 12018 and establishes a five-step model to account for revenue arising from contracts with customers. As mentioned in the Annual Report, the Group's IFRS 15 analysis did not reveal significant changes from existing principles, hence there are no material effects of implementing the new standard as of January 12018.

A codensed presentation of the new accounting principles for IFRS 15 are presented in the following.

## Performance obligations and timing;

The Group's contracts with customers for the sale of wine and spirits and distribution services include one performance obligation, and the revenue are recognised at the point in time when control of the products are transferred to the customer, generally on delivery of the products.

## Variable and fixed considerations;

Some contracts include variable and fixed considerations like discounts, bonuses or other promotional allowances to customers. Such variable considerations are based on actual sales and expected discounts, and are accounted for in the same period where the sales actually happened.

## Presentation;

Until 2017, the Group has accounted for outgoing freight costs as reduced revenues. The new IFRS 15 concludes that the accounting of outgoing freight costs as reduced revenues or as a cost should be based on a consideration if the wine or spirits companies in practice are principals or agents regarding freightservices. The Group's considerations on this matter concluded that the wine and spirits companies are principals, as most contracts with customers include delivery on the customer's warehouse. Based on this, the Group has changed its accounting principle from 2018 regarding outgoing freight, from being accounted for as reduced revenues to being accounted for as cost of sales. The Gross Profit will be unchanged from this change of accounting principle, but revenues are increased with a corresponding increase in cost of sales.

NOTE; The changes of accounting principle from IFRS 15 has only been made at Group level. The segment reporting is still showing freight costs as reduced revenues, which corresponds with the Group's internal reporting.

The Group adopted IFRS 15 using the modified retrospective method of adoption. Below is a reconciliation which show the changes in Q2 and year to date 2018;

## NOTE 3 OTHER INCOME AND EXPENSES

Other income and expenses comprises significant positive and negative non-recurring items and restructuring costs. The main purpose of this item is to show these significant non-recurring and non-periodic items, so that the development and comparability of the ordinary items presented in the statement of income are more relevant for the activities.

Other income and expenses during Q2 are related mainly to reversal of a 10 MNOK provision for a legal dispute (positive effect) and the share matching incentive program (cost).

At the end of the period, liabilities measured at fair value, categorized at level 3 in the fair value hierarchy is related to putoptions held by non-controlling interests in wine companies in Norway and Sweden. The liabilities for these put-options are estimated on the basis of pricing mechanisms that underlie the shareholder agreements, discounted to the balance sheet date. The main parameters of price mechanisms share value development measured by EBIT (earnings) until the estimated due date, multiplied by a marketbased multiple. As a basis for EBIT, the Group's budgets and long term plans towards expected maturity date is used.

## NOTE 13 OTHER EVENTS

## Events after the close of Q2 2018

The group's largest owner, Canica passed the threshold of $1 / 3$ ownership in Arcus ASA 12 June. On 5 July Canica put forward a mandatory offer to all Arcus' shareholders to buy their shares at 45 NOK each. The offer was valid until 2 August. Canica received acceptances corresponding to approximately 6.63 per cent of the issued shares and votes in Arcus, increasing their ownership to 40,01 percent. More information is provided in the section "Financial position and other information".

No significant other events have occurred between the close of quarter and the date on which Arcus's interim financial statements for Q2 2018 were approved. This applies to events that would have provided knowledge of factors present at the close of Q2 2018, or events concerning matters that have arisen since the close of Q2 2018.

## Alternative Performance Measures (APM)

In the discussion of the reported operating results, financial position, cash flows and notes, the Group refers to certain alternative performance measures (APM), which are not defined by generally accepted accounting principles (GAAP) such as IFRS.

Arcus ASA management makes regular use of these alternative performance measures and is of the opinion that this information, along with comparable GAAP measures, is useful to investors who wish to evaluate the company's operating performance, ability to repay debt and capability to pursue new business opportunities. Such alternative performance measures should not be viewed in isolation or as an alternative to the equivalent GAAP measure.

## Gross Profit

Gross profit is defined by Arcus ASA as total operating revenue minus the cost of goods sold.
Gross margin $=$ Gross profit $/$ Total revenue

## Other income and expenses

To provide more information in the Group's consolidated income statement, significant positive and negative non-recurring items and restructuring costs are separated out to a separate line in the statement of income called other income and expenses. Other income and expenses are presented net on this income statement line. See also detailed specifications of what these items include in note 3 relating to the individual line items.

## EBITDA and EBITDA Adjusted

EBITDA is defined by Arcus ASA as operating profit before depreciation, write down and amortisation
EBITDA adjusted is defined by Arcus ASA as operating profit before depreciation, amortisation and other income and expenses.

EBITDA-margin $=$ EBITDA/Total operating revenue
EBITDA-margin adjusted = EBITDA adjusted /Total operating revenue
