## Press Release

# REVO launches “REVO for Enterprise”

The new range of multi-risk solutions aims to simplify the protection of SMEs and professionals against a wide array of risks, including catastrophic events.

*Verona, 17 November 2025* - **REVO Insurance, the first Italian player specialized in specialty risks and parametric solutions, introduces REVO for Enterprise, the new line of multi-risk solutions** dedicated to companies and professionals seeking comprehensive and immediate protection. **The launch of the line starts with REVO for Microenterprise**, a product specifically designed for small businesses, combining simplicity, clarity and rapid activation.

The solution, already available, has been developed to **protect the corporate assets of microenterprises** – with turnover of up to 2 million euro and up to 9 employees – also in light of the obligation to insure against damage from catastrophic events, in force from 31 December 2025. In addition to the catastrophic component and to risks such as fire, third-party liability, theft and legal protection, REVO for Microenterprise offers **parametric assistance** in the event of earthquake or flood, ensuring **automatic and immediate payouts** with no need for a claim or loss adjustment. Other key strengths of the product include **catastrophic event** cover extended to **goods and furnishings**, **fire insurance on a first loss basis** with no average clause, and a dedicated channel designed to foster constant and effective communication between the Company and the distribution network.

“*With REVO for Microenterprise, we wanted to create a tool that truly supports those who run a business, every day,*” explains **Simone Lazzaro, Chief Underwriting Officer of REVO Insurance**. “*An intuitive solution, designed to make the most of everyone’s time: that of intermediaries, who can work independently and quickly, and that of entrepreneurs, who receive clear answers and protection tailored to their business activities.*”

Structured into **three plans with increasing levels of cover** – *Start, Boost and Over* – the design of this new solution is based on two main pillars: efficiency for intermediaries and simplicity for the end customer. For **intermediaries**, the **new** user-friendly **interface** of the **OverX** digital platform enables automatic quotation of the three plans, with direct policy issuance and **full operational autonomy**, without any need for referral to head office. For **entrepreneurs**, the experience is simple and immediate: the intermediary enters the **VAT number** and obtains a quote in just a few clicks, offering the client a fast, hassle-free solution with no red tape.

With REVO for Microenterprise, the Company takes a further step forward in its journey to make insurance more accessible, technology-driven and focused on strengthening the resilience of Italian SMEs and professionals.

**ABOUT REVO**

(REVO Insurance S.p.A. (www.revoinsurance.com) is an insurance company based in Italy, listed on the Euronext STAR Milan market and active in non-life insurance with a focus on specialty lines and parametric risks and mainly oriented on the SME sector. REVO Insurance is an innovative and cutting-edge player, with an entrepreneurial formula that leverages technological leadership to optimize and make the risk underwriting and claims management process more efficient and flexible – including through the use of blockchain technology – and with a strong ESG vocation as a key part of its strategic orientation.
