

Animate Your Name

Combine Different Ideas

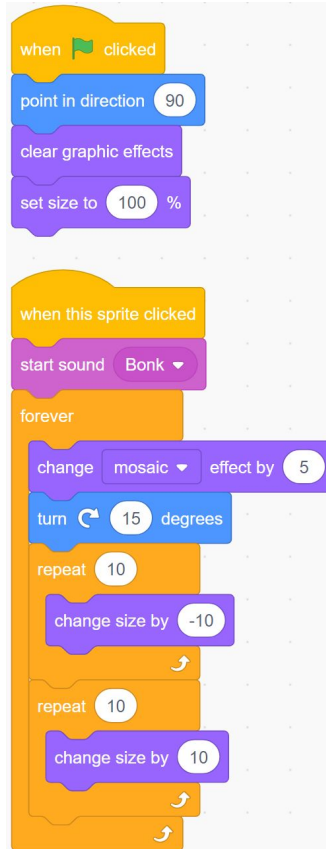

The image displays a Scratch project titled "JARED" in a web browser. The project features a stage with a cityscape background and a large green letter "J" on the left. The code is organized into three main sections:

- When Green Flag Clicked:**
  - clear graphic effects
  - set score to 100 %
  - go to x: -151 y: 51
- When Key Pressed (J):**
  - start sound: J
  - change color: effect by 25
  - change opacity: effect by 25
- When Key Pressed (A):**
  - repeat 10 times:
    - change size by 10
- When Key Pressed (R):**
  - repeat 10 times:
    - change size by -10
- When Key Pressed (E):**
  - glide 1 secs to random position

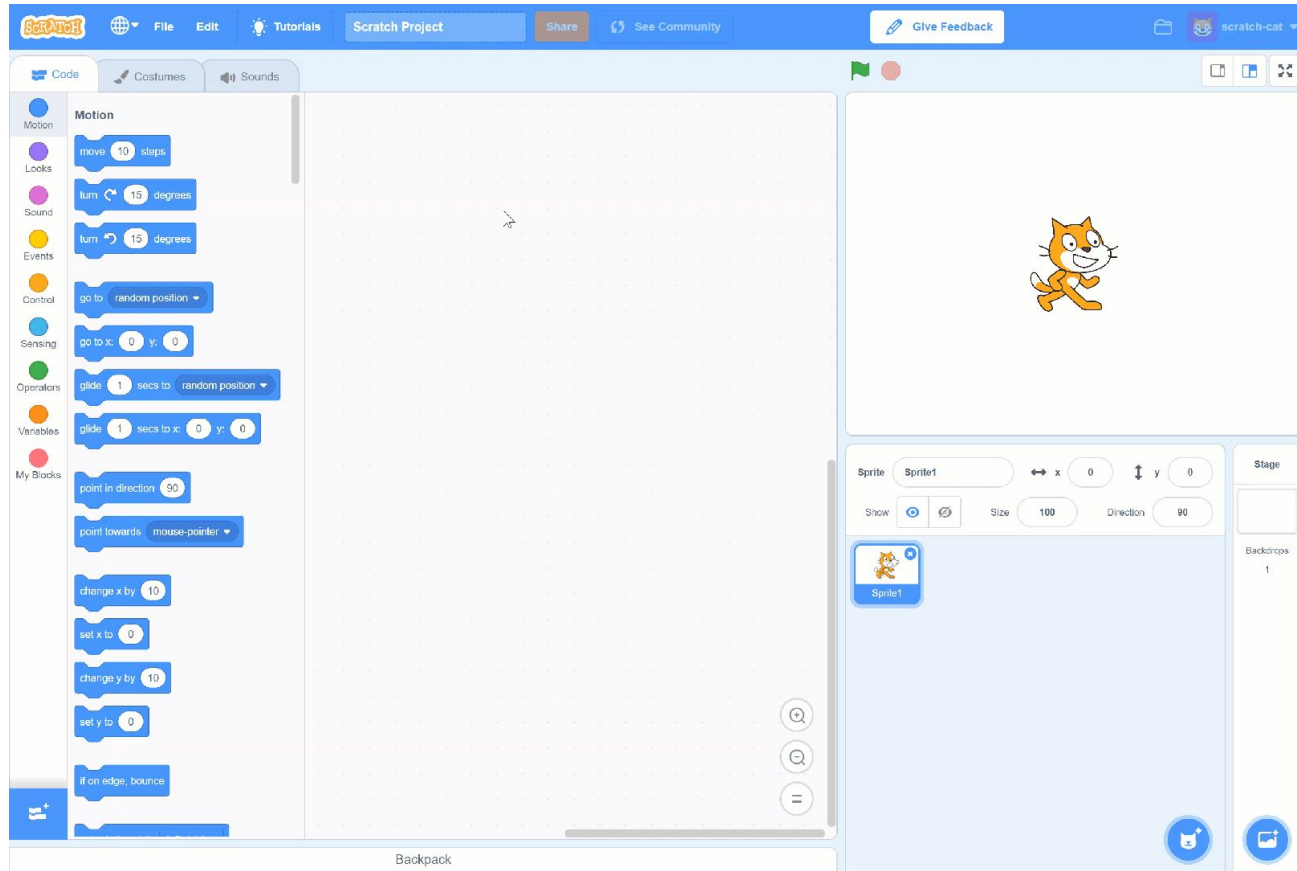

On the right side of the browser, there is a video feed of a person with a shaved head wearing a purple shirt, with their hand raised. Above the video is a social media-style interface showing the name "JARED" and a grid of icons representing different characters or items.

# Combine code to see what happens

1. What happens when you combine different ideas together?

# Use the tutorial button for more ideas and tips

Now, Coding is Elementary.
