# Agent Report Options Reference Sheet

Bright offers several agent specific report options that you can access directly from Search.

## View multiple listings at a glance

**Agent One-Line**
Perfect for scanning and narrowing down potential listings. Customize based on your local needs.

**Agent Gallery**
Showcases a list of potential properties for your client to consider. Includes a large photo with key listing details on only a small portion of a printed page.

**Agent Thumbnail**
Get a quick view of a property while scanning through multiple listings. The smaller photo allows for at-a-glance information without overwhelming a printed page.

---

## Get a printable overview on a specific property

**Agent Short**
Ideal when you want to see and share key information about a listing on a single printed page or in a PDF format.

**Agent Synopsis**
Provides you with a brief overview of a property while highlighting notable changes and relevant features your client may want to know such as Waterfront/Water Access, Mobile Home or Green Features.

**Agent One-Page**
Offers you a short summary about a listing as provided by the listing agent. It is broken out into easy-to-follow sections such as room information, features, remarks, showing and listing office information, compensation and other listing details.

**Agent Custom w/ Tabs**
A great report to use when you want to customize the information you want to print to show your clients. This report lets you select if you want Room Information as well as full or truncated Remarks to be printed with your listing information.

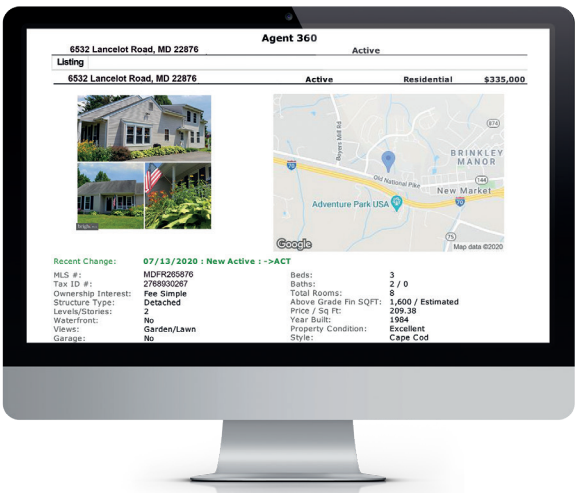

## Gather extensive details and information about a specific property

### Agent Full

Provides you with all of the details about a listing. The report also includes a snapshot on the local market activity (web version), Open House and Tour information.

### Agent 360

Gives you a truly comprehensive report about a property. You can switch from the Public Records information to the most recent listing to compare details and choose the information you'd like to print.

## Review property history and public records information

### History-Listing

Great for getting a quick glance on the listing status history for a specific listing.

### History-Property

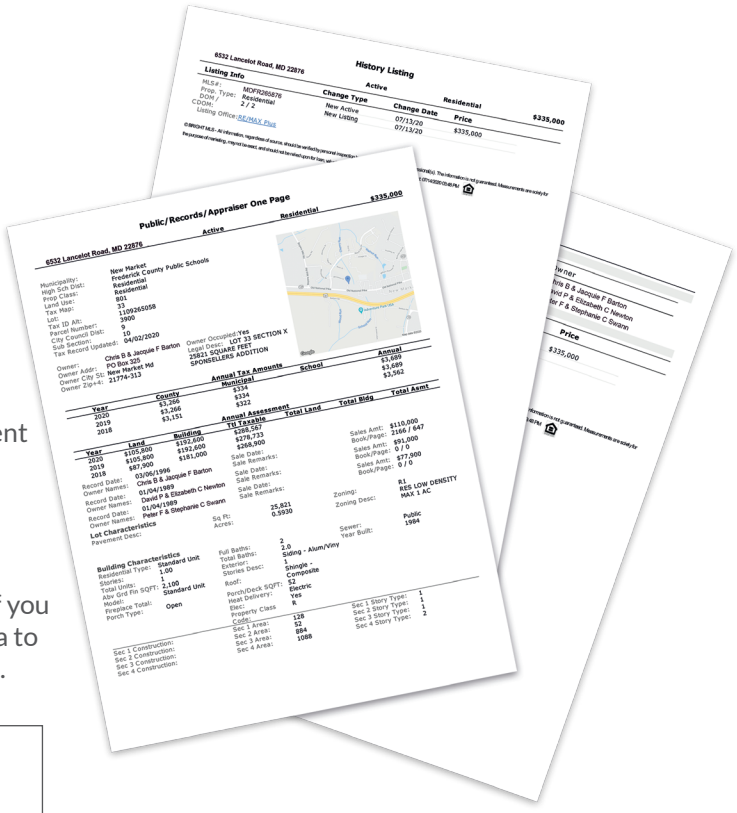

Useful when you want to evaluate a property's sale, ownership, and full listing history.

### Public Records/Appraiser One Page

Gives you a summarized report of public records data, key building/lot characteristics, tax amounts, and the assessment for a particular property of interest.

### Public Records Custom w/ Tabs

Provides you the flexibility to view and customize the information you want printed. This report lets you select if you want to include Annual Tax Amounts and Assessments data to be printed with your property's public records information.
