

Animal Tracks - Sponge Feet

Equipment

- Animal Track Template
- Cardboard
- Sponges
- Ribbon (or String)
- Paint
- Sissors
- Glue
- Paint

1

First, print out your desired animal tracks. Then, cut out two rectangle pieces of cardboard, making sure it's bigger than your little one's foot

2

Using the printable animal foot template, draw around the template onto the sponge, then cut out the animal track.

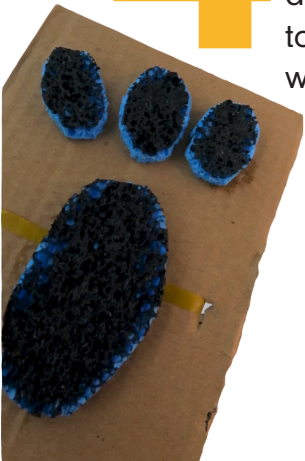

3

Next, make two vertical incisions into each piece, then thread through some ribbon so the two ends are on top of the foot.

4

Now stick on your pieces to the cardboard once the glue has dried, tie the footprints to your little ones feet with the ribbon.

5

Paint the bottom of their footprints in a paint colour of their choice.

6

Finally, roll out a piece of long paper and let them walk up and down leaving colourful footprints in their tracks.
