Tanzania’s Great Migration & Ngorongoro Crater

Encounter Epic African Wildlife on This Coveted Safari to the Serengeti & Beyond

On Africa's Great Plains, the pulse beat of the planet reverberates. Our Land Cruiser is a tiny island in a vast, grassy sea, its idle drowned out by waves of pounding hooves. Wildebeest and zebra flow in a living current across the Serengeti as lion and cheetah follow in their wake, finely tuned hunting machines ready to stalk and take down the weakest members of the herds. From our private mobile camp stationed in the center of the world's greatest ancient migration route, we are subsumed in a primal spectacle as the drama of predator and prey unfolds. Witness it in rare seclusion, immersed in the wonder of one of the world's truly epic wildlife events. And of course, no Tanzania safari is complete without a descent into the famed Ngorongoro Crater. The largest unbroken caldera on Earth, the crater is home to nearly 30,000 animals sustained within its walls.

Trip Highlights

Itineraries Designed Around the Migration

Our route is adjusted seasonally for proximity to the herds, maximizing your chance to witness Africa’s most dramatic wildlife phenomenon at close range

Private Serengeti Camps Far from Crowds

Enjoy unparalleled seclusion, comfort and vintage atmosphere at Nat Hab's own private camps, including our luxury mobile camp near the migration route

Explore the Wildlife Haven of Ngorongoro Crater

In addition to the migration, experience an exhilarating safari in Ngorongoro Crater, the world's largest unbroken caldera, home to 30,000 animals

Tanzania's Great Migration & Ngorongoro Crater Itineraries

Encounter Epic African Wildlife on This Coveted Safari to the Serengeti & Beyond

December–February Itinerary

10-day Southern Serengeti route, when the herds are more stationary during the season when zebra and wildebeest are giving birth.

July–October Itinerary

10-day Northern Serengeti route, when the herds are heading into the Maasai Mara and back, and dramatic river crossings may occur.

December–February Itinerary

Tanzania's Great Migration & Ngorongoro Crater

Itinerary at a Glance

Day 1	Arusha
Day 2	Ngorongoro Highlands
Day 3	Ngorongoro Crater
Days 4–6	Southern Serengeti
Days 7–9	East-Central Serengeti
Day 10	Arusha

Day 1

Arusha

Arrive beneath Mount Meru before your Tanzania safari

- Settle into a 1905 colonial farmhouse surrounded by lush gardens and birdlife
- Sip a sundowner with views toward Mount Kilimanjaro, then join your Expedition Leader for a welcome dinner

Arrive at Kilimanjaro Airport and transfer via our electric vehicle to a peaceful country lodge at the base of Mount Meru. Relax amid the ambience of a 1905 colonial farmhouse and lush gardens, surrounded by mature native forest where colobus and Sykes' monkeys play in the trees. If time permits, take a swim in the pool or enjoy a restorative massage in the open-air tent, serenaded by birdsong. As the afternoon wanes, sip a sundowner on the terrace in view of Mount Kilimanjaro before gathering for a welcome dinner this evening.

Ready to Book? Call an Adventure Specialist at 800-543-8917

Day 2

Ngorongoro Highlands

Explore Tanzania’s coffee-growing highlands

- Travel through rolling hills, farms and villages in Tanzania’s coffee country
- Settle into an elegant lodge surrounded by lush gardens
- Join a coffee plantation tour, or relax with a swim or massage before dinner

We depart this morning for our lodge in the Ngorongoro Highlands, a verdant expanse of wild bush and agricultural land comprising the heart of Tanzania's coffee country. The three-hour drive offers beautiful views of the rural countryside, with rolling hills, farms and small villages along the way. At Karatu, a rural town near the Ngorongoro Crater and gateway to Tanzania’s wildlife-rich highlands, we visit a local primary school supported by Nat Hab’s philanthropy program where we meet the children and learn how our tourism dollars contribute to their education.

This afternoon, arrive at our elegant lodge where you may wish to take an optional tour of a coffee plantation—this is prime terrain for growing some of Africa’s finest beans in the moisture-laden, high-altitude cloud forest. Or choose to relax in the lodge’s lush garden, perhaps enjoying a swim or a massage before dinner.

Day 3

Ngorongoro Crater

Witness Africa’s densest concentration of wildlife in Ngorongoro Crater

- Descend into the world’s largest unbroken caldera
- Watch for elephants, lions, flamingos and other crater wildlife
- Look for rare black rhinos on the open plains

Leave very early this morning for one of Africa’s consummate safari experiences: a journey into the massive caldera that is the Ngorongoro Crater. We climb to the rim, then drop down the steep wall to the 100-square-mile crater floor. One of the Seven Natural Wonders of Africa, Ngorongoro Crater is the largest unbroken caldera on Earth—the center of a huge ancient volcano that scientists believe may have been larger than Mount Kilimanjaro. Twelve miles across and 2,000 feet deep, the crater is home to some 30,000 animals that live year-round inside its walls, attracted to its perpetual water sources.

Here in this veritable Eden, a wide variety of wildlife thrives within an ecosystem of abundant resources. Along with many mammals, flocks of pink flamingos cover the soda lakes, while large land birds like ostrich and kory bustard roam the grassy plain. Because of the crater's permanent supply of fresh water, it sustains the densest concentration of wildlife in Africa. Common sightings include elephant, buffalo, hippo, giraffe, zebra, blue wildebeest, eland, gazelle and waterbuck, while lion and hyena are abundant predators. A glimpse of the rare black rhinoceros is a special prize. Late this afternoon, we exit the crater and return to our lodge.

Ready to Book? Call an Adventure Specialist at 800-543-8917

Days 4–6

Southern Serengeti

Follow the Great Migration across the southern Serengeti

- Stay at Nat Hab's private mobile camp along a major migration corridor
- Watch vast herds of wildebeest and zebras cross the plains
- Search for lions, cheetahs and hyenas shadowing the herds

Fly this morning to Nat Hab's private mobile camp in the southern Serengeti, the legendary savanna whose name derives from a Maasai word meaning "endless plains." Each season, we place our Migration Camp in an area the herds are known to frequent. The days of heavy canvas hunting camps set for the likes of Roosevelt and Hemingway were nearly over until photo safaris gained popularity in the 1970s. Our camp is redolent with that vintage atmosphere, with candlelight dinners and nothing between you and the night sounds of the bush but the walls of your tent.

While home to a profusion of wildlife year-round, there is nothing like the Serengeti during the phenomenon of the Great Migration. We spend three days among the sea of mammals, following them in 4x4 vehicles with pop-top roofs that offer superb photography access. During the annual short rains, some 2 million wildebeest trek from Kenya's Maasai Mara to the southern Serengeti and back again, in search of new grass. They migrate with hundreds of thousands of zebra, whose superior vision serves as an early-warning system for predators. Gazelle and other antelope accompany the huge herds as well.

We are in the region during the time when zebra and wildebeest are giving birth, and the herds may be mostly stationary. The majority of baby wildebeest are born during a single 3-week window, after most zebra young have emerged, and we'll hope to see infants (though timing on the calf drop is weather-dependent). Predators seek out the most vulnerable members of the herds, and we may witness a lion seize a sick wildebeest or a cheetah overtaking a newborn that has become separated from its mother. Leopard, hyena and jackal also prey on the migrating herds while vultures hang in the air, waiting to feast on carrion. While the spectacle is at times grim, its primal drama is a wonder to behold.

Days 7–9

East-Central Serengeti

Search for big cats among the Serengeti's granite kopjes

- Fly to Seronera and begin exploring the eastern Serengeti
- Look for lions, cheetahs and leopards among the kopjes
- Take in sweeping savanna views from Nat Hab's secluded Serengeti East Camp

Embark on a full-day game drive across the vast grasslands to our private camp in the Eastern Serengeti. Along the way, we'll pass the iconic Gol Kopjes, rugged rocky outcrops rising from the plains, known as "islands in a sea of grass." From the base of our exclusive bush camp surrounded by open range and kopjes, we take multiple game drives each day. Our private camp offers fabulous wildlife viewing in diverse habitats, particularly of the abundant feline predators that live and hunt in this area. It also provides exceptional seclusion away from crowds. From canvas tents shaded by giant acacia trees, survey 360-degree views of wildlife traversing the savanna, with more thrilling encounters in store on game drives.

Day 10

Arusha

Conclude your Tanzania safari beneath Mount Meru

- Fly to Arusha for a farewell lunch at Ngare Sero Lodge
- Relax in a day room before evening flights from Kilimanjaro International Airport

This morning we fly back to Arusha and transfer to Ngare Sero Lodge at the base of Mount Meru, where a farewell lunch is served on arrival. Day rooms await in this peaceful setting, offering a chance to relax and refresh. Transfer to Kilimanjaro Airport for international departures this evening.

Days 4–6

Northern Serengeti

Follow the Great Migration across the northern Serengeti

- Fly to the northern Serengeti's sweeping golden plains and stay at Nat Hab's private Migration Camp
- Watch wildebeest and zebra herds move across the savanna
- Search for lions and cheetahs shadowing the migration

Early this morning, depart for our flight to the northern Serengeti. This legendary savanna derives its name from a Maasai word meaning "endless plains," and the vista of golden grasslands stretching to the horizon under a blue bowl of sky provides an iconic image of East Africa. Our destination is Nat Hab's private Migration Camp, our base for a three-day immersion in Africa's Great Migration. In accord with the herds' seasonal movements, we locate our mobile camp in the northern Serengeti from July through October. This deluxe tented outpost rests within one of the main movement corridors for more than 2 million wildebeest, zebra and gazelle that make this annual trek, plus an accompanying cast of predators. Each year, the herds follow an ancient circuit covering 1,800 miles from Kenya's Maasai Mara to the southern Serengeti and back again. On daily game drives, witness this remarkable spectacle as the enormous herds traverse the savanna while big cats and hyenas steal behind. We may behold stunning scenes of predator-prey interaction as a lion takes down a sick animal or a cheetah snatches an infant. The spectacle can be grim, but it is a wonder to behold.

The days of heavy canvas hunting camps set for the likes of Roosevelt and Hemingway were nearly over until photo safaris gained popularity in the 1970s, and our secluded camp, with its walk-in canvas tents and crackling campfire, is redolent with that vintage atmosphere. Yet despite our remote location, we enjoy impressive luxuries, including candlelight dinners served under a canopy of stars.

Days 7–9

East-Central Serengeti

Search for big cats among the Serengeti's granite kopjes

- Fly to Seronera and set out on a wildlife drive
- Look for lions, cheetahs and leopards among the kopjes
- Take in panoramic plains views from Nat Hab's secluded Serengeti East Camp

Fly this morning to Seronera within Serengeti National Park. Meeting our safari vehicles and drivers, we set out on a wildlife drive and afterward arrive at our exclusive bush camp surrounded by open range and kopjes, rugged rocky outcrops rising from the plains, known as "islands in a sea of grass."

Our private camp offers fabulous wildlife viewing in diverse habitats, particularly of the abundant feline predators that live and hunt in this area. It also provides exceptional seclusion away from crowds. From canvas tents shaded by giant acacia trees, survey 360-degree views of wildlife traversing the savanna, with more thrilling encounters in store on game drives.

Day 10

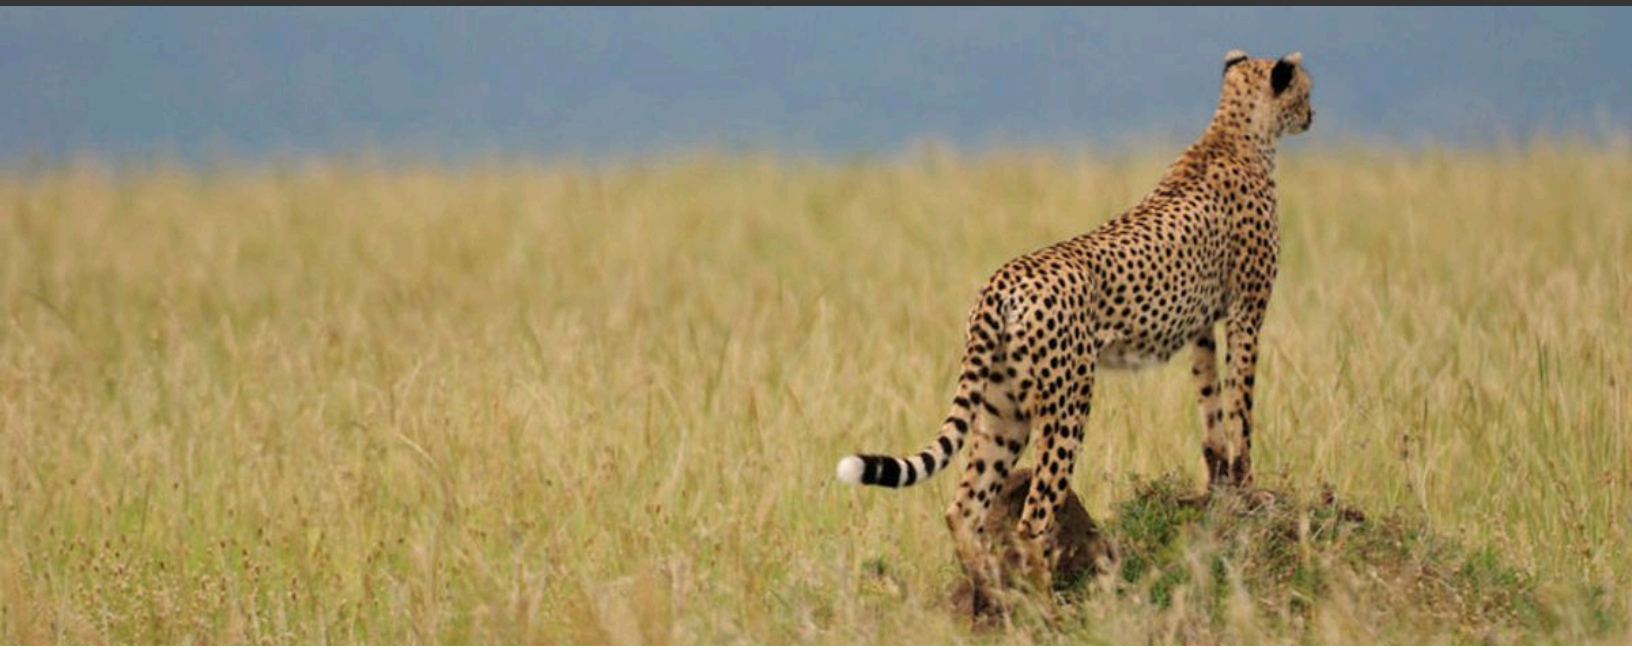

Arusha

Conclude your Tanzania safari beneath Mount Meru

- Fly to Arusha at the base of Mount Meru
- Gather for a farewell lunch at Ngare Sero Lodge

This morning we fly back to Arusha and transfer to Ngare Sero Lodge at the base of Mount Meru, where a farewell lunch is served on arrival. Day rooms await in this peaceful setting, offering a chance to relax and refresh. Transfer to Kilimanjaro Airport for international departures this evening.

Tanzania’s Great Migration & Ngorongoro Crater Accommodations

Encounter Epic African Wildlife on This Coveted Safari to the Serengeti & Beyond

Nat Hab's Migration Camp

Our own deluxe mobile tented camp is set seasonally for proximity to the flow of wildebeest and zebra herds through the Serengeti, optimizing the chance to witness the migration at close range.

Nat Hab's Serengeti East Camp

Located in a remote sector of the eastern Serengeti where solitude (and big cats!) reign, our mobile safari camp takes bush comfort to a new level, with seven canvas safari tents surrounded by rich wildlife habitat.

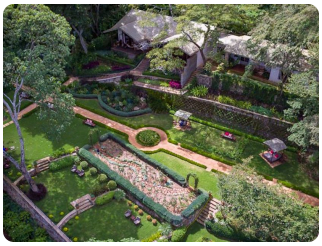

Ngare Sero Mountain Lodge

Ten spacious period-style suites front a sprawling lawn and lush gardens surrounding a 1905 German farmhouse, transformed from a colonial home into a tranquil lodge at the foot of Mount Meru.

Plantation Lodge

This elegant, owner-run lodge is set amid tall trees and lavish gardens filled with tropical plants and exotic birds, providing gracious hospitality in an oasis-like setting surrounded by coffee plantations.

Gibb's Farm

A historic coffee estate turned luxury ecolodge near Ngorongoro Crater, offering elegant cottages, farm-to-table dining, lush gardens and deep-rooted sustainability in Tanzania’s highlands.

For detailed descriptions, visit nathab.com/africa/tanzania-migration/accommodations.

Compare Migration Safaris...Here's Why Ours is Better!

Tanzania's Great Migration & Ngorongoro Crater

No wildlife event on the planet rivals Africa's Great Migration for sheer drama. Twice each year the huge herds make a great circuit across the Serengeti Plains, following the grass that sprouts with the seasonal rains. To witness the migration is on many a wildlife lover's bucket list, and a coveted experience for nature photographers. But it's crucial to do it right—because all Tanzania migration safaris are not the same!

1 **An Itinerary Designed for Optimal Migration Viewing**

Many companies operate the same standard "migration" tour year-round, driving the entire northern circuit of Tanzania with no concern to be in a particular place at a time that jibes with the arrival of the herds. We focus on the best time to see the animals, then build our safari itinerary and dates around that, attempting to time our presence for peak viewing. What's more, we spend three full days amid the migration, for optimal photo prospects.

2 **We're Involved from Beginning to End**

We construct every component of your safari, then ensure that you are personally guided from start to finish by a highly trained Nat Hab Safari Expedition Leader, so you can have the utmost confidence in the quality and safety of our operations. Our oversight is meticulous, because our reputation depends on your safari's success.

3 **Fly from Arusha to the Serengeti to Maximize Time with Wildlife**

Many companies drive you both ways to and from the Serengeti from Arusha. We fly you in to make more time for what you've come to Africa for: watching wildlife on safari!

4 **Our Private Mobile Migration Camp Gets You Close to the Herds**

Rather than using crowded lodges where vehicles depart each morning in large numbers, often surrounding the same animals all at once, we insist on the smallest luxury bush camps located in isolated places where wildlife is prolific. In particular, our own private Migration Camp allows us flexibility to pursue wildlife where concentrations are greatest, rather than utilizing larger accommodations that are nowhere near the migration.

5 **Coveted Early Morning Access to Ngorongoro Crater**

We've designed our itinerary to make sure we are at the gate to enter Ngorongoro Crater the moment the reserve opens early in the morning. Our timing ensures a full day on safari in the crater, with an early arrival to beat the crowds. With expedited access to wildlife viewing on the crater floor early in the morning, we'll be there when many animals are most active.

6 **Small Groups for Intimate Wildlife Encounters**

A small group is essential for optimal wildlife viewing and photography. We generally have the smallest group sizes in the safari industry. We take a maximum of 12 on this trip, divided into multiple vehicles within radio contact to track the migration. Small groups mean we get closer to the herds, get better photos, and enjoy more personalized interaction with our Expedition Leader and local trackers and guides.

Ready to Book? Call an Adventure Specialist at 800-543-8917

7 **A Window Seat for Every Traveler**

Every guest is guaranteed a window seat. We know how important unimpeded views are when you've come all this way to see and photograph the migration. That's why we split our group into separate top-of-the-line 4x4 safari vehicles, so no one is stuck in a middle seat. With just six guests per vehicle, each traveler gets an open side view with plenty of room.

8 **Extra Luggage Allowance**

Most airlines and safari companies in East Africa strictly limit luggage to 33 pounds per guest, including carry-on bags, with even the highest priced trips typically having this limitation. We have arranged a special luggage allowance of 44 pounds per guest, making it easier to travel comfortably without leaving behind essential items you need. This makes a big difference!

9 **The World's Finest Safari Guides**

Natural Habitat Adventures is known worldwide for employing the finest naturalist guides on the planet! In Tanzania, rather relying only on less-qualified local camp guides, our own Safari Expedition Leaders are the most highly trained guides in Africa, renowned for providing exceptional service. With you from beginning to end, our Expedition Leaders average approximately 15 years' guiding experience. Their training is further enhanced by the resources of WWF's premier scientists. **See Expedition Leader bios** and traveler comments regarding the quality of our leaders.

10 **Our Quality-Value Guarantee Ensures Your Superior Safari Experience**

Natural Habitat Adventures offers an exclusive guarantee, which states that we will meet the lofty expectations we set forth in our promotional materials. To our knowledge, this is the most ambitious guarantee made by any adventure travel company. **Read our important promise.**

11 **Feel Good About Your Carbon-Neutral Journey**

We care deeply about our planet, as we know you do. When you travel with us, the carbon emissions from your trip are 100% offset—including your round-trip flights from home. Natural Habitat Adventures has been the world's first carbon-neutral travel company since 2007.

See https://www.nathab.com/africa/tanzania-migration/dates-fees for the latest pricing details.

Included

Trip price includes: Accommodations, services of Nat Hab's professional Expedition Leader(s), local guides and camp staff, all meals from dinner on Day 1 through lunch on final day, some alcoholic beverages, some gratuities, airport transfers on Day 1 and final day, all activities and entrance fees, all taxes, permits and service fees.

Not Included

Travel to and from start and end point of trip, premium alcoholic beverages, some gratuities, passport and visa fees, optional activities, items of a personal nature (phone calls, souvenirs, etc.), airport and departure taxes, optional travel insurance, and required medical evacuation insurance.

Internal air: All light aircraft flights within the itinerary (this will be listed separately on our invoicing).

Ready to Book? Call an Adventure Specialist at 800-543-8917

Mandatory Insurance

Since the areas we travel to on this trip are remote and wild (that's why we go there!), we require medical evacuation insurance for our guests' safety. If you decline the medical evacuation insurance coverage offered by Natural Habitat, we request that you send us documentation of the independent coverage you have selected. We will add the cost of a medical evacuation policy to your tour invoice until you provide our office with proof of coverage including your insurance company's name, contact number and your individual policy number. Thank you for understanding that our policy exists exclusively in the interest of our guests' safety.

Getting There & Getting Home

This trip begins and ends in Arusha, Tanzania. Because this is a long international journey, **we recommend that you arrive at least one night prior to Day 1** to rest from your travels and begin the trip refreshed. For guests who come in early, recommended hotels will be included in your pre-departure materials. You must arrive in Arusha by 5 pm on Day 1 in order to attend the 7 pm welcome dinner.

You may depart Arusha anytime after 5 pm on the final day.

Our Natural Habitat Adventures Travel Desk can best assist with your travel reservations, as our staff is familiar with the specific requirements of this program and can help arrange the most efficient itinerary. Please call us at 800-543-8917. While we offer the best available rates to us on airfare and additional nights' accommodations, you may occasionally find special web rates or lower fares online.

Tanzania's Great Migration & Ngorongoro Crater Extensions

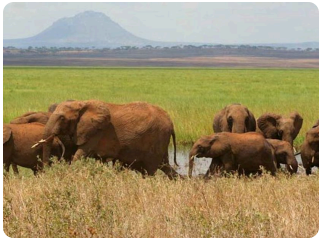

Encounter Epic African Wildlife on This Coveted Safari to the Serengeti & Beyond

Extra Day in Arusha

Arusha is the jumping-off point for safaris to Tanzania's famous national parks—a lively city with a temperate climate at the foot of Mount Meru.

$695

Tarangire National Park

Less-visited Tarangire, the "Baobab Capital of the World," is home to these giant ancient trees, huge elephant herds and some of Africa's densest wildlife populations.

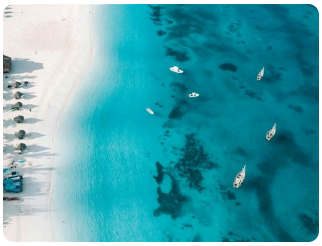

$3295

Maasai Mara Extension

Experience wild Africa in Kenya's Maasai Mara, a vast mosaic of savannas and acacia-dotted plains on an exclusive Big Five safari from private mobile camps far from crowds.

$5995

Zanzibar Extension

Discover a serene oasis with white sand beaches and clear waters in this Indian Ocean archipelago celebrated for natural beauty, history and culture.

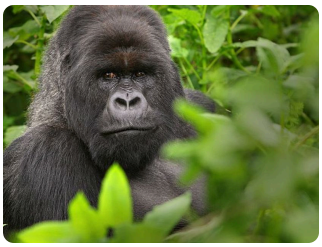

$2095

Uganda Mountain Gorilla Extension

On a 5-day safari extension in the rainforests of Uganda, track endangered mountain gorillas on one of the world's most moving and heartwarming wildlife adventures.

$3995 (+air/permits)

Rwanda Mountain Gorilla Extension

Track endangered mountain gorillas, hike through the rainforest with expert guides and spend rare moments with a habituated family troop.

$4995 (+permits)

Madagascar Explorer

Look for rare and endemic flora and fauna on a compact itinerary revealing a mix of contrasting ecosystems—primary rainforest, pristine beaches, ancient baobabs and coastal mangroves

$11995 (+air)
