Ultimate Gorilla Safari

Our Premier Primate Trip to Uganda & Rwanda for Gorillas, Chimpanzees & Golden Monkeys

To trek into the rainforest and sit with a family of mountain gorillas, catching the gaze of a huge silverback at close range, seeing them devour leaves stripped from branches, watching babies cling to their mothers, laughing at animated youngsters playing in the trees...it's a profound experience for a wildlife lover. And to capture these rare moments in photographs lets you relive the wonder in enduring images. Our extended time with endangered gorillas is the centerpiece of this primate-focused safari that also includes the chimpanzees of Uganda's Kibale Forest and golden monkeys in Volcanoes National Park in neighboring Rwanda. Many of our guests say they are never the same after these encounters...and your visit may be a life-changing experience for these species as well, as conservation tourism is the main hope for protecting their future.

Trip Highlights

Four Separate Gorilla Treks in Uganda & Rwanda

Four different gorilla-tracking expeditions —two each in Uganda and Rwanda— maximize your time with the last of the world's endangered mountain gorillas

A Total Primate Immersion, with Chimpanzees & More

Look for golden monkeys and complete the primate experience in Kibale National Park, home to wild chimpanzees and colobus monkeys

Land & River Safaris in Murchison Falls National Park

Explore Murchison Falls National Park, Lake Albert and the Victoria Nile, where plains game, predators, hippos, crocodiles and birds abound

Day 1

Entebbe

Gather on Lake Victoria before your primate safari

- Settle into a boutique hotel amid Entebbe's lush tropical gardens
- Search for rare shoebills on an optional canoe excursion through the Mabamba Bay wetlands
- Join your Expedition Leader for a welcome dinner and preview of the safari ahead

Arrive in Entebbe, where you are met and transferred to our hotel. Guests who arrive by 12 PM may opt for an included tour with your Expedition Leader this afternoon to Mabamba Bay swamp, a massive wetland on the edge of Lake Victoria that offers an excellent introduction to Uganda's rich biodiversity. The vast marsh is one of Uganda's top birdwatching hotspots and a globally significant Important Bird Area (IBA). It's also one of the most reliable places in Africa for a prize sighting of the rare shoebill stork. Mabamba Bay is a major breeding site for this prehistoric species, found here in one of the highest concentrations in the world. Exploring the narrow, papyrus-lined channels by traditional wooden canoe, keep an eye out for other top draws among the marsh's 300 bird species, including papyrus gonolek, malachite kingfisher, and the brightly colored African swamphen. Later this evening, join your Expedition Leader and fellow adventurers for a welcome dinner and orientation.

Day 2

Murchison Falls National Park

Fly to Nat Hab's private Murchison Bush Camp for first access to the park

- Enter Uganda's largest national park, spanning nearly 1,500 square miles of the Albertine Rift Valley
- Stay at an eight-tent camp set seasonally in a remote, wildlife-rich area
- Head into the park before guests staying at outlying lodges

Fly today by chartered light aircraft to Murchison Falls National Park, which covers almost 1,500 square miles of wild terrain at the northern end of the Albertine Rift Valley. Diverse habitats—including savanna, acacia forest, Borassus palm forest, riverine woodlands and papyrus swamp—support a wide variety of wildlife. The park is bisected by the Victoria Nile, a turbulent stretch of whitewater forced through a narrow gap to plunge 140 feet over a sheer wall, creating a thunderous roar. While Murchison Falls is the most powerful waterfall in the world, the calm stretch of river below offers superb wildlife viewing, with elephant, giraffe, buffalo, hippo and Nile crocodile frequently in view. Boat launch trips to the base of the falls and Lake Albert Delta offer fine birdwatching, with a chance to see rare shoebill storks—a coveted sighting that draws birders to Uganda for this reason alone. The 1951 film *The African Queen*, starring Humphrey Bogart and Katharine Hepburn, was filmed on Lake Albert and the Nile River within the park. Other notable figures who have visited here include Theodore Roosevelt, Winston Churchill and Ernest Hemingway.

Spend the next three nights in peaceful seclusion at Nat Hab's private Murchison Bush Camp in the heart of this wildlife mecca. With just eight tents, the low-impact camp is set seasonally in a remote area with unsurpassed proximity for wildlife viewing—our location permits us to be first into the park each morning, far sooner than guests staying at outlying lodges. Enjoy total solitude and the safari ambience of a bygone era, with canvas tents and lantern-lit dining.

Ready to Book? Call an Adventure Specialist at 800-543-8917

Day 3

Murchison Falls National Park

Search for wildlife across savannas and papyrus wetlands

- Look for Rothschild's giraffes, elephants, lions and other wildlife on safari
- Cruise privately through the Lake Albert Delta
- Watch for African fish eagles, shoebills and abundant wetland birds

Murchison Falls National Park is Uganda's richest wildlife enclave, with 144 mammal species including chimpanzees and Rothschild's giraffe, Uganda's largest population of Nile crocodiles among its 51 reptile species, and 550 bird species including shoebills, dwarf kingfisher, Goliath heron, great blue turaco and winged gray warbler. We scout for a wide variety of animals today, first on a morning game drive that could include sightings of buffalo, elephant, giraffe, Uganda kob, Jackson's hartebeest, oribi, lion, leopard and side-striped jackal, and more.

This afternoon, take a private cruise in the Lake Albert Delta, where the Victoria Nile enters this swampy wetland as a sluggish stream, threading its way among small islands in a series of tributaries. The alluvial marsh is a designated Important Bird Area and one of the best birding locations in Africa, especially for aquatic birds—keep an eye out for African fish eagles among the 75+ species of waterbirds found here. In the distance, the mountain ranges of the Congo rise in undulating forested ridges on the horizon.

Day 4

Budongo Forest Reserve / Top of Murchison Falls

Track wild chimpanzees in Budongo's ancient mahogany forest

- Follow expert local guides through habitat shared by approximately 600 chimpanzees
- Learn about one of Africa's longest-running chimpanzee research sites
- Watch the Nile surge through a 23-foot-wide gorge at the top of Murchison Falls

This morning, we head into Budongo Forest Reserve to go chimpanzee trekking. Located on the escarpment east of Lake Albert, this semi-deciduous tropical rainforest is noted for its large chimp population of approximately 600 individuals, and its native mahogany trees, with some old-growth specimens as tall as 200 feet still standing. The forest is also home to 360 bird species, some of which are endemic to this localized region, including the yellow-footed flycatcher. Research on Budongo's chimpanzees began in the early 1960s, with the establishment of a forest reserve that later became the Budongo Conservation Field Station. Among a trio of pioneer researchers here in the 1960s was Jane Goodall.

This afternoon, we make an exciting visit to the top of Murchison Falls, where the Nile surges through a narrow cleft just 23 feet wide before plunging dramatically over the escarpment. From this vantage point, we witness the immense power of the river as it crashes into the gorge below, creating the thunderous spectacle that defines Murchison Falls.

Days 5–6

Murchison Falls / Kibale National Park

Cruise beneath the falls and track Kibale's primates

- Approach the foaming Devil's Cauldron by private boat
- Fly above Uganda's verdant highlands to Kibale National Park
- Track chimpanzees and other primates with expert local guides

This morning, another private boat cruise takes us in search of wildlife along the river channels. In addition to the excitement of seeing scores of hippos and crocodiles, we also have good chances to spot elephants, giraffe, baboons, warthogs, and of course, countless beautiful birds. Our voyage includes a journey to the base of Murchison Falls with a view into the Devil's Cauldron, the foaming chaos created by the turbulent Nile River as it plummets over the cliff. We also pass the spot where Hemingway's plane crashed when the celebrated author visited Uganda in 1954.

After our cruise, transfer to the airstrip for a scenic flight over Uganda's verdant highlands to reach Kibale National Park. This equatorial rainforest reserve is home to one of the world's most important primate populations, including 1,300 chimpanzees. We go in search of them with local trackers who help us spot chimps and monkeys, with plenty of unhurried time to observe their entertaining antics. Beyond our chimpanzee trek, we explore more of Kibale's natural diversity, with the chance to see up to a hundred different bird species on a wetland sanctuary walk. An optional hike to one of the crater lakes near our lodge offers magnificent views from the rim. After each full and exhilarating day, settle in to the comfort of our thatched cottages at Ndali Lodge overlooking the ancient crater.

Ready to Book? Call an Adventure Specialist at 800-543-8917

Day 7

Kihihi / Bwindi Impenetrable National Park

Enter Bwindi, rainforest realm of the mountain gorillas

- Fly to Kihihi, gateway to Bwindi Impenetrable National Park
- Enter the forest that shelters nearly half the world's mountain gorillas
- Look for rare Albertine Rift endemic birds beneath the rainforest canopy

Depart for the local airstrip this morning for our flight to Kihihi, gateway to Bwindi Impenetrable National Park and our gorilla-trekking base in the rainforest. The park, whose name references the dense, tangled forests it encompasses, is home to roughly half the world's remaining mountain gorillas. Though best known for its outstanding gorilla viewing, it also provides refuge to chimpanzees, monkeys, elephants and various small antelope. Bwindi is also a top Uganda birding destination, with 23 of Uganda's 24 Albertine Rift endemics, including threatened species such as African green broadbill and Shelley's crimson wing.

Days 8–9

Bwindi

Come face to face with wild mountain gorillas

- Follow expert trackers through Bwindi's UNESCO-listed rainforest
- Spend time observing habituated gorilla families at close range
- Learn how conservation and community partnerships are helping gorilla populations recover

Within the World Heritage Site that is Bwindi Impenetrable Forest, discover one of nature travel's peak experiences: a visit with wild gorillas in their natural habitat. Just over a thousand mountain gorillas remain in the world, and Bwindi is home to about 460—a population that is growing but still threatened by increasing human population and habitat loss in the surrounding area. Our safari includes two treks to spend time among the gorillas, often at very close range. Early in the morning, we head into the dense rainforest on a quest to locate one of the habituated family groups. Our local guides are expert trackers, reading signs of the gorillas' recent presence in the undergrowth. We can't predict how long it will take to locate them, but finally, we hear and see a gorilla family, watching enrapt as they sit among the trees, chewing leaves, babies clinging to mothers' backs, juveniles swinging from branches, and a big male silverback surveying it all. It's hard to tell who is more intrigued with the other, the gorillas or us!

If time permits later today, we may have an opportunity to visit a local community initiative, nonprofit or small business enterprise in the Bwindi area. These connections offer a glimpse into people's daily lives and the ways local communities are helping to further conservation in the region.

Day 10

Volcanoes National Park

Cross into Rwanda beneath the Virunga volcanoes

- Travel through villages and coffee plantations into Rwanda
- Enter the montane forests and steep volcanic terrain of Volcanoes National Park
- Stay at a boutique lodge minutes from the gorilla trekking headquarters

Leaving Bwindi, we descend to the Rift Valley floor, watching scenes of local life unfold along the way as we drive past villages and coffee plantations. Entering Rwanda, continue to Parc National des Volcans—Volcanoes National Park—named for the string of jungle-draped volcanoes inside its borders. The park is rich mosaic of montane ecosystems, with thick forests and steep-sided mountains rising to nearly 15,000 feet above sea level. Within the Virunga Range, the park is one of three areas where mountain gorillas reside. Our destination, Five Volcanoes, is a deluxe boutique lodge that provides an ideal gorilla trekking base for the next three nights. Set seamlessly into its lush surroundings with panoramic vistas of the mountains beyond, the lodge is just a short drive from the national park headquarters, where all gorilla trekking expeditions depart.

Ready to Book? Call an Adventure Specialist at 800-543-8917

Days 11–12

Volcanoes National Park

Observe mountain gorillas in the forests of the Virunga Mountains

- Follow expert trackers through the high-altitude forest
- Spend a full hour with a habituated gorilla family
- Walk in the footsteps of Dian Fossey’s pioneering gorilla research

After breakfast, we drive to park headquarters for a briefing from our guides. This area is where Dian Fossey made her groundbreaking studies on mountain gorillas before she was killed in 1985, and her grave is nearby. Several habituated gorilla families live in the park, and we learn how important our ecotourism presence is to their survival before trekking in search of them. We set out early each morning along paths into the forest, eventually leaving trails behind as our trackers follow signs that lead them to the gorillas' current location. The altitude is above 8,200 feet, so while our pace is unhurried, the hike is tiring, lasting from 30 minutes to several hours. But what a reward: our goal is a chance to sit with a specific gorilla family that has become accustomed to visitors and is nonchalant about human contact—and we enjoy a full hour in their presence.

Day 13

Volcanoes National Park / Kigali

Track endangered golden monkeys before departing Rwanda

- Search for golden monkeys moving through the forest canopy
- Visit the Kigali Genocide Memorial
- Transfer to the airport for departing flights

While gorillas are the highlight, even without them Volcanoes National Park would be fascinating. Its varied ecosystems shelter elephant, buffalo, giant forest hog, bush pig, bushbuck, duiker and spotted hyena, as well as a habituated group of endemic and highly endangered golden monkeys, which are our focus today. We spend the morning on a quest for these agile entertainers that swing through the forest canopy and delight us with their antics. Our environs are also home to 178 bird species, including at least 29 endemics found only in the Rwenzori and Virunga mountains. After our morning with the monkeys, depart for Rwanda’s capital of Kigali. Visit the Kigali Genocide Memorial, a deeply moving tribute to the 800,000 people killed in Rwanda's 1994 genocide. Our primate safari comes to a close as we transfer to the airport for departing flights.

Ultimate Gorilla Safari Accommodations

Our Premier Primate Trip to Uganda & Rwanda for Gorillas, Chimpanzees & Golden Monkeys

Hotel No. 5

This stylish boutique hotel tucked within Entebbe's leafy suburbs features luxurious accommodations surrounding a lush lawn, palm-studded gardens and shaded swimming pool.

Murchison Bush Camp

This exclusive mobile camp is private for Nat Hab guests, placed optimally for wildlife viewing and first entrance to Murchison Falls National Park, before visitors from outlying lodges arrive.

Ndali Lodge

Dramatically perched on the rim of an extinct volcano that has filled with water to become scenic Lake Nyinambuga, this thatched lodge enjoys panoramic views over the Rwenzori Mountains.

Buhoma Lodge

This inspiring ecolodge, with eight spacious chalets overlooking a rainforest panorama, provides an ideal location for gorilla treks into Bwindi Impenetrable National Park, which begin from the premises.

Five Volcanoes Boutique Hotel

Surrounded by lush gardens with views of the volcanic Rwenzori range, this new lodge offers deluxe accommodations near Volcanoes National Park, home to Rwanda's endangered mountain gorillas.

Kigali Serena Hotel

On one of Kigali's most attractive boulevards, this relaxed, elegant 5-star hotel has air conditioning, a pool, multiple restaurants and a friendly atmosphere. Newly renovated rooms showcase pan-African style.

For detailed descriptions, visit nathab.com/africa/uganda-rwanda-gorilla-safari/accommodations.

An Intimate Journey into the World of Mountain Gorillas

Ultimate Gorilla Safari

Few moments with wildlife are as riveting as those we experience on our Ultimate Gorilla Safari. To maximize our stirring interactions with gorillas and other primates, we've designed this wide-ranging safari to surpass what other companies typically offer. Take a look at all we've included to ensure the ultimate primate-viewing experience:

1 **You Won't Find a More In-Depth Primate Itinerary**

Many gorilla safaris give you just one day in the rainforest to track these reclusive animals. But we include *four separate gorilla tracking expeditions*—two days each in Uganda and Rwanda—to maximize your opportunities for incredible photos. Add wild chimpanzee tracking in Kibale and Budongo forests, plus a chance to see golden and colobus monkeys (and others), and you've got the most comprehensive primate safari Africa has to offer.

2 **Experience the Full Diversity of Africa's Wildlife**

While primates are our focus, we include other wildlife viewing as well, including a chance to see elephant, buffalo, zebra, giraffe, lion, leopard, crocodile, hippo and more. Our diverse itinerary features the best of both: primates *plus* general wildlife viewing on forest treks, 4x4 drives over the savanna, and private boat cruises.

3 **In-Depth Exploration of Murchison Falls National Park**

Witness the thunder of the Victoria Nile plunging over a sheer cliff at Murchison Falls, and make multiple safaris in the park to look for abundant wildlife, including some of the best birdwatching in Africa. What's more, our private bush camp offers immediate proximity to the park—we get there well before groups from the outlying lodges, where most other visitors stay.

4 **Two Private Boat Safaris**

Cruise the Victoria Nile and Lake Albert Delta by private boat, searching for abundant wildlife on the banks and in the water, and see the base of Murchison Falls where it creates a turbulent boil in the Devil's Cauldron.

5 **Comfortable Vehicles with a Window Seat for Every Traveler**

Get the best possible photos with a guaranteed window seat on board the highest-quality safari trucks. Our state-of-the-art vehicles have features such as multiple roof hatches to enhance viewing. There's no way around it—East Africa's mountainous regions have some pretty rough roads—so full 4-wheel-drive capacity with a top-quality suspension system is a key feature of our vehicles.

6 **Unique Accommodations Offer Character & Seclusion**

Where you stay on safari makes a big difference to your overall experience. That's our focus is small, intimate camps and lodges in nature. We choose our locations for their scenic settings and proximity to wildlife—in contrast to large lodges in busier areas where hundreds of tourists congregate.

Ready to Book? Call an Adventure Specialist at 800-543-8917

7 **Our Nat Hab Expedition Leader Accompanies You Throughout Your Safari**

We take pride in hiring the finest naturalist guides in Africa. In addition to their exceptional warmth and hospitality, our Expedition Leaders' in-depth training also includes resources and direction from WWF's premier scientists. Check out our **Expedition Leader bios** and traveler comments.

8 **Our Quality-Value Guarantee Ensures an Outstanding Safari**

With Natural Habitat Adventures, you receive our exclusive guarantee, which clearly states that we will meet the lofty expectations we set in our promotional materials. To our knowledge, this is the most ambitious guarantee made by any adventure travel company. **Read our important promise for yourself!**

9 **Feel Good About Your Carbon-Neutral Journey**

We care deeply about our planet, as we know you do. When you travel with us, the carbon emissions from your trip are 100% offset—including your round-trip flights from home. Natural Habitat Adventures has been the world's first carbon-neutral travel company since 2007.

10 **Natural Habitat Adventures is WWF's Travel Partner**

Because of our commitment to environmentally friendly travel, as well as the exceptional quality of our adventures, World Wildlife Fund—the world's leading environmental conservation organization—has named Natural Habitat Adventures as its worldwide travel partner, a designation that makes us exceedingly proud!

See https://www.nathab.com/africa/uganda-rwanda-gorilla-safari/dates-fees for the latest pricing details.

Included

- **Trip price includes:** Accommodations, services of Nat Hab's professional Expedition Leader(s), local guides, camp staff, gorilla trackers and porter, all meals from dinner on Day 1 to lunch on final day, some gratuities, airport transfers on Day 1 and final day, all activities and entrance fees, all taxes and service fees.
- **Permit fee includes:** Four mountain gorilla treks, two chimpanzee treks and a golden monkey trek.

Not Included

Travel to and from the start and end point of your trip, alcoholic beverages, some gratuities, passport and visa fees (if any), optional activities, items of a personal nature (phone calls, laundry, etc.), airline baggage fees, airport and departure taxes (if any), required medical evacuation insurance, optional travel protection insurance.

Important Information About This Trip

This trip is designed for those seeking exposure to the range of habitats of the mountain gorilla. NHA has been visiting gorillas in Africa since 1989, and this immersive itinerary, which features four separate gorilla treks, is the pinnacle of our primate trips. We ask our guests to understand that accommodations in this region are not, collectively, of the standard found in other more established safari countries. Some lodges are very luxurious while others are plain but clean and comfortable, yet all offer important proximity and access to wildlife.

Ready to Book? Call an Adventure Specialist at 800-543-8917

Mandatory Insurance

Since the areas we travel to on this trip are remote and wild (that's why we go there!), we require medical evacuation insurance for our guests' safety. If you decline the medical evacuation insurance coverage offered by Natural Habitat, we request that you send us documentation of the independent coverage you have selected. We will add the cost of a medical evacuation policy to your tour invoice until you provide our office with proof of coverage including your insurance company's name, contact number and your individual policy number. Thank you for understanding that our policy exists exclusively in the interest of our guests' safety.

Getting There & Getting Home

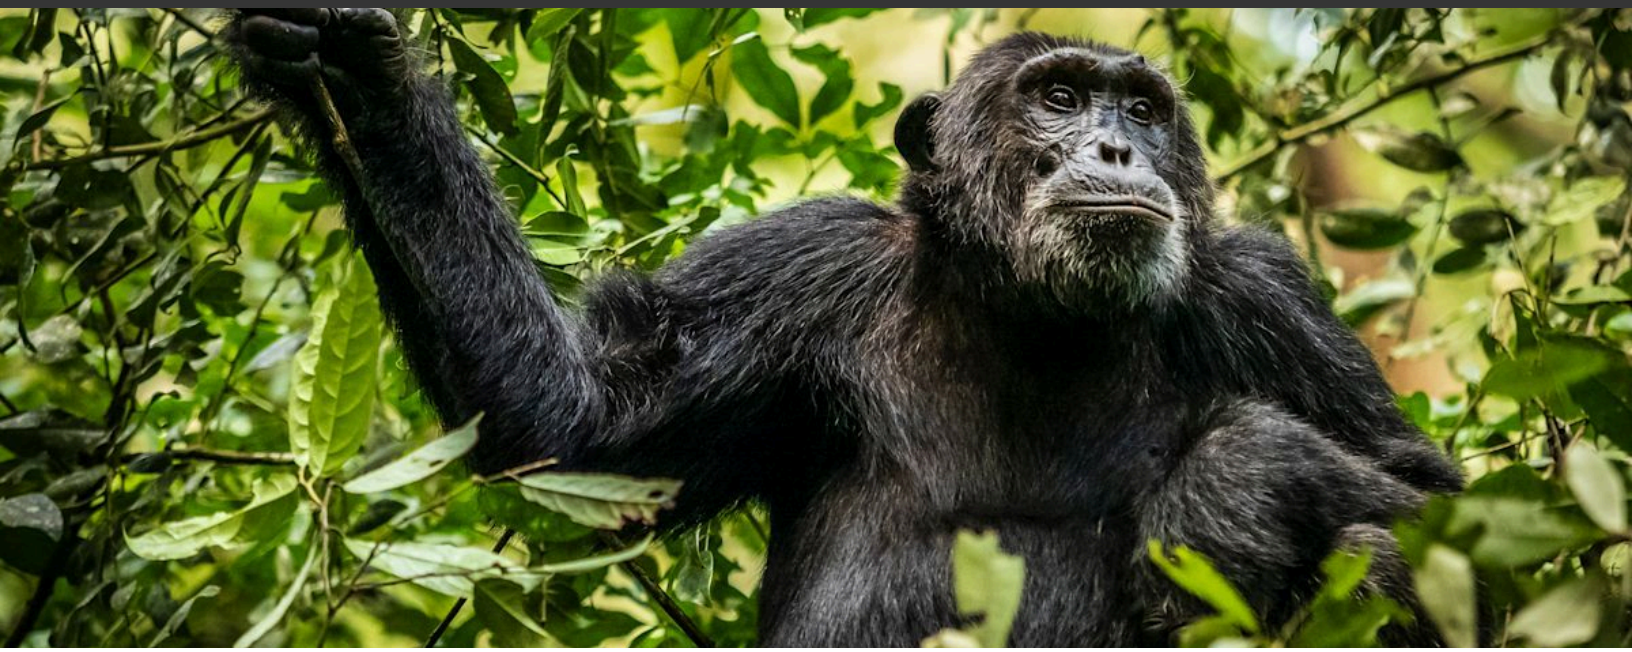

This trip begins in Entebbe, Uganda, and ends in Kigali, Rwanda. Because this is a long international journey, **we recommend that you arrive at least one night prior to Day 1** to rest from your travels and begin the trip refreshed. For guests who come in early, recommended hotels will be included in your pre-departure materials.

You must arrive in Entebbe by 5 pm on Day 1 in order to attend the 7 pm welcome dinner. Guests arriving by 12 pm will be able to join the optional Mabamba Swamp Tour.

You may depart Kigali anytime after 7 pm on the final day.

Our Natural Habitat Adventures Travel Desk can best assist with your travel reservations, as our staff is familiar with the specific requirements of this program and can help arrange the most efficient itinerary. Please call us at 800-543-8917. While we offer the best available rates to us on airfare and additional nights' accommodations, you may occasionally find special web rates or lower fares online.
