Ultimate Alaska Photo Expedition

Capture the Grandeur of the Last Frontier on Our Exclusive Small-Group Photo Safari

On a unique itinerary that gets you deeper into more remote places, document the untamed wilderness and wildlife of Alaska with professional photographer guides. Fly over the backcountry of Denali National Park where caribou, grizzlies, Dall sheep, wolves and moose roam the tundra, and the peaks of the Alaska Range set the stage for peerless photography from our wilderness lodge. Cruise the icy waters of Kenai Fjords National Park, capturing calving glaciers and abundant marine life like whales, otters, and puffins. Our singular adventure also includes the ultimate Alaska wildlife photo trophy: brown bears! Depending on seasonal timing, you'll fly either to Lake Clark National Park to stay among the bears at Nat Hab's private Alaska Bear Camp, or to Katmai National Park to capture action shots of the famous fishing bears at Brooks Falls. On this rare Alaska photo safari, every moment is a masterpiece, waiting to be captured.

Trip Highlights

Close-Up Encounters with Alaska's Brown Bears

Capture action shots of brown bears browsing, playing, foraging and fishing—quintessential Alaskan images—on a fly-in expedition to the wild Bear Coast

Wilderness Photography in the Denali Backcountry

Enjoy a thrilling bush plane flight over glacier-fed rivers, ice-crowned peaks and roving wildlife to reach our remote lodge deep within the wilds of Denali

Capture Icebergs & Marine Life in Kenai Fjords

From our secluded beachfront lodge on private Fox Island, explore Kenai Fjords by chartered yacht to photograph glaciers, puffins, humpbacks, orcas and sea otters

Ultimate Alaska Photo Expedition Itineraries

Capture the Grandeur of the Last Frontier on Our Exclusive Small-Group Photo Safari

June 2027 — Nat Hab's Bear Camp (12 Days)

Includes three nights in Denali and two nights at Alaska Bear Camp for bear photography in Lake Clark National Park

Epic photography opportunities await on a grand-slam itinerary featuring a fly-in backcountry lodge accessed by helicopter in Denali; glaciers, icebergs and marine life in Kenai Fjords; a scenic ride in an Alaska Railroad dome car; and brown bear encounters at Nat Hab's private fly-in Bear Camp in Lake Clark National Park. All inclusions are the same as our Brooks Falls itinerary with the exception of where bear viewing takes place.

2027 July & September — Brooks Falls (12 Days)

Includes three nights in Denali and two nights in King Salmon for brown bear photography in the Brooks Falls area.

This consummate Alaska photo safari showcases the best of the Last Frontier: wilderness photography from a backcountry lodge in Denali with flightseeing in the park by private bush plane, glaciers and marine life in Kenai Fjords, an Alaska Railroad dome car train journey, and floatplane access to Katmai National Park for iconic shots of fishing brown bears. All inclusions are the same as on our Alaska Bear Camp itinerary with the exception of our bear photography location.

June 2027 — Nat Hab's Bear Camp (12 Days)

Ultimate Alaska Photo Expedition

Itinerary at a Glance

Day 1	Fairbanks
Day 2	Fairbanks / Denali National Park
Days 3–4	Denali National Park
Day 5	Denali / Anchorage
Day 6	Seward / Fox Island
Day 7	Kenai Fjords National Park
Day 8	Fox Island / Seward / Homer
Day 9	Inspiration Ridge Preserve / Lake Clark National Park
Day 10	Lake Clark National Park
Day 11	Lake Clark / Homer
Day 12	Homer

Day 1

Fairbanks

Gather in Alaska's Interior before your Denali and Lake Clark photo expedition

- Begin in Fairbanks, gateway to Alaska's vast northern wilderness
- Join your Photo Expedition Leader for a welcome dinner

Our grand Alaska photography adventure begins in Fairbanks, Alaska's "Golden Heart City." Capital of the vast Interior, Fairbanks retains its frontier flavor with pioneer saloons, paddlewheelers and outlying mining camps. Fairbanks is also home to the flagship campus of the University of Alaska system, where the famous Geophysical Institute is headquartered, leading research in the study of permafrost, earthquakes, sea ice and the aurora borealis. Meet your Expedition Leader at a welcome dinner this evening, who offers an orientation to all the photo opportunities to come.

Day 2

Fairbanks / Denali National Park

Travel deep into Denali to a wilderness camp beneath North America's highest peak

- Ride a camp bus along the park road into Denali's remote backcountry
- Watch for moose, caribou, Dall sheep and grizzlies along the way
- Reach Camp Denali, the only lodge inside the park with views of Denali from the property

This morning, we follow the Nenana River south to Denali National Park. At 6 million acres—larger than the state of Massachusetts—Denali is one of the world's great wilderness preserves. The park's namesake is the highest peak in North America, towering 20,310 feet over alpine tundra and taiga that provide habitat for abundant wildlife. The mountain's name—Denali—means "The High One" in the Athabascan language. Our destination is Camp Denali, a wilderness outpost at the end of the 92-mile-long park road. At the park entrance, board a camp bus to make the journey into the remote backcountry, driving through boreal forest into open expanses of tundra below the peaks of the Alaska Range. Crossing the tangled veins of glacier-fed rivers through broad valleys, look for wildlife along the edge of the road and on the braided river bars —we could see moose, caribou, Dall sheep, grizzlies and occasionally wolves—"Alaska's Big Five."

Once we reach Camp Denali, settle in to our individual cabins for a three-night wilderness immersion, enveloped by the beauty and silence of wild country on a scale most people will never encounter in their lifetime. It's the only accommodation inside the national park with a view of Denali from the premises, and the chance to stay here is a rare experience very few visitors to Alaska are privileged to have.

Days 3–4

Denali National Park

Photograph Denali at dawn beneath soft pink alpenglow

- Explore alpine ridgelines and tundra vistas on guided photo hikes
- Capture wildlife and sweeping views across the park's remote interior
- Photograph Denali's reflection from a canoe on Wonder Lake

With views of the mighty mountain directly from Camp Denali, enjoy extended time in an unparalleled setting for photographers, with flexibility to adjust our timing around weather, lighting and wildlife sightings. Early risers may be rewarded with mirror reflections of Denali from kettle ponds just steps from their cabin. At dawn, sunrise may illumine the mountain's face with pink alpenglow, rewarding photographers ready with long exposures, big glass and patience. Each day, choose from a variety of guided photography outings tailored to personal interests and skill level. Led by naturalist guides with deep regional knowledge—and attuned to the needs of photographers—hikes prioritize access to ridgelines, high-elevation vistas, sweeping tundra compositions, and wildlife corridors. Scout the tundra ponds for birdlife, or paddle a canoe on Wonder Lake for the iconic postcard shot of Denali's massive white hulk rising behind. Expect a slower pace, time to set up for bracketed shots, and ample opportunities to explore everything from wide-angle landscapes to macro details like arctic moss, lichen and dainty wildflowers. Wildlife encounters may include caribou, moose, ptarmigan, or even bears.

As we explore, learn about the natural and cultural history of our environs, including the wildlife that thrives here, the Athabascan people who lived off this land for 10,000 years, and the pioneers who mined for gold in nearby Kantishna at the turn of the 20th century. Return to the lodge by late afternoon for a photo review, optional editing session, or one-on-one technique coaching. After dinner, consider heading back out—this far north, golden hour in summer can linger well past 10 pm, and soft twilight may offer a last chance to catch Denali peeking from the clouds.

Ready to Book? Call an Adventure Specialist at 800-543-8917

Day 5

Denali / Anchorage

Fly past Denali's glaciers and the wild valleys of the Alaska Range

- Depart the backcountry by private bush plane along Denali's icy flanks
- Look for wildlife roaming the glacier-fed valleys below
- Cross Broad Pass on the drive south to Anchorage and Cook Inlet

After a final morning of activities, depart Camp Denali via private chartered bush plane for dramatic flightseeing en route to the park entrance. Weather permitting, we'll get stunning views of the icy flanks of Denali at close range, and we may spy wildlife roaming the tundra below. Then we board a spacious mini bus for our journey south across the Alaska Range to Anchorage. Our route climbs above tree line over Broad Pass, then descends to follow the Susitna River through thick stands of birch, balsam poplar, willow and spruce. Eventually, we reach Anchorage on Cook Inlet, backdropped by the glacier-capped peaks of the Chugach Range. With a population of just under 300,000, Anchorage is Alaska's largest city and its primary commerce and transportation hub.

Day 6

Seward / Fox Island

Ride the Alaska Railroad to a private island in Kenai Fjords

- Travel by glass-domed railcar along Turnagain Arm and through the Kenai Mountains
- Cross Resurrection Bay by boat to secluded Fox Island
- Kayak along the island's coast, watching for marine wildlife

Rise early today to travel the most scenic section of the historic Alaska Railroad. Built in the early 20th century, the state-owned railroad's mainline is 470 miles long, connecting Seward in the south with Fairbanks up north. From our dome car, enjoy a classic train journey along Turnagain Arm as we look for beluga whales, and keep an eye out for tidal bores that create waves big enough for local surfers to ride! We skirt the ice-clad peaks and lush glacial valleys of the Chugach Range, harboring the northernmost temperate rainforest in North America, then turn south to follow the rail corridor winding through the Kenai Mountains–Turnagain Arm National Heritage Area, a designation that recognizes the area's unique cultural, geographic and historical features. Once we cross Moose Pass, the rail line drops back to the coast, ending at the fishing town and port of Seward on Resurrection Bay.

In Seward's small boat harbor, expect to photograph charming sea otters bobbing among the yachts and docks. Here, we board a boat for Kenai Fjords Wilderness Lodge on private Fox Island, on the edge of Kenai Fjords National Park. Our isolated location, fronting a wild pebble beach backdropped by steep forested mountains, reveals a pristine side of Alaska most visitors miss. The Kenai Fjords region offers prime sea kayaking, and an optional paddling excursion late this afternoon may reveal some of the area's prolific marine life.

Day 7

Kenai Fjords National Park

Photograph whales, seabird cliffs and tidewater glaciers

- Explore Kenai Fjords by private boat in search of humpbacks, orcas and sea otters
- Photograph puffins, bald eagles and other seabirds along the rugged coast
- Approach a tidewater glacier, watching for ice calving from its blue face

Iconic images of Alaska are on display today from our private chartered boat as we explore a marine realm where vestiges of the Ice Age linger. Our small vessel allows us to approach wildlife at close range, and Kenai Fjords National Park provides excellent opportunities for photographing humpback whales, orcas, Dall's porpoise, sea lions, sea otters and puffins. Weave among islands and rocky cliffs where seabirds nest, and zoom in on bald eagles in the treetops. Jagged glaciers wind from the mountain heights to the sea, and we may capture shots of icebergs calving with a crash from a glacier's towering blue face. After our all-day outing, return to our secluded lodge on Fox Island for another night of peace and solitude in the coastal wilderness.

Ready to Book? Call an Adventure Specialist at 800-543-8917

Day 8

Fox Island / Seward / Homer

Cross the Kenai Peninsula from Resurrection Bay to Kachemak Bay

- Return by private boat from Fox Island to Seward
- Travel past salmon rivers, mountain ranges and Cook Inlet on the road to Homer
- Explore the galleries, shops and working waterfront of the Homer Spit

After a last morning on serene Fox Island, board our private boat for the return journey up Resurrection Bay to the historic harbor town of Seward. From Seward, head south on a spectacular drive to Homer. The mountain ranges of the Kenai Peninsula rise one after another, sourcing some of Alaska's richest salmon rivers. Homer is known as “the End of the Road” in Alaska, and we follow it all the way down to the harbor on the Homer Spit. Homer is renowned as the Halibut Fishing Capital of the World, and we may get photos of fishing crews unloading their catch—the biggest halibut can be eight feet long and up to 500 pounds! While halibut are one of Alaska’s most valuable fisheries, Homer also offers excellent fishing for several salmon species, lingcod and rockfish. We’ve got some free time to wander the spit, a long, narrow strip of land that juts into Kachemak Bay. The spit is where we find most of Homer’s shops, art galleries, seafood restaurants and beaches, and our hotel lies at the very tip of it: Land’s End, overlooking and island-studded marine realm that's home not only to coveted sport fish but also sea otters, seals, porpoises, sea lions, orcas, whales, bald eagles and puffins.

Day 9

Inspiration Ridge Preserve / Lake Clark National Park

Fly across Cook Inlet to Nat Hab’s private brown bear camp

- Explore the forests and meadows of Inspiration Ridge Preserve with a guide
- Travel by private charter to a remote camp surrounded by Lake Clark National Park
- Photograph brown bears grazing on sedge and digging for clams along Chinitna Bay

Accessible only on a privately guided walk, Inspiration Ridge Preserve offers a multitude of nature photography subjects. This mosaic of forests, peat bogs, meadows, ponds and creeks comprises 700 acres of critical wildlife habitat for a host of species, including a visiting summer population of sandhill cranes. Other wildlife here include moose, brown and black bears, lynx, muskrat, swifts and eagles. The Center for Alaskan Coastal Studies manages the preserve, and one of its staff will join us this morning to interpret all we experience. Along our path high above Homer below, photograph a stunning panorama of Kachemak Bay and the Kenai Mountains, wander through dense spruce canopies and fields of magenta fireweed, and learn about ongoing monitoring projects and research partnerships.

Then, is it possible to say we’ve saved the best for last? Well, it all depends on how you weigh the wonders of Alaska, but our brown bear adventures begin this afternoon and will surely be a highlight of your photo safari. Board our chartered flight across Cook Inlet to reach Nat Hab's Alaska Bear Camp, where we spend the next two nights. The views from our private bush plane are stunning as we pass snow-clad volcanoes and jagged glaciers winding down from vast icefields. The terrain below, where the Aleutian and Alaska ranges meet, comprises some of the world's most critical brown bear habitat. Look for bears in the meadows and along the shoreline as we come in for a landing, taxiing down the beach along Chinitna Bay.

Bear Camp is located on a historic homestead, a private 15-acre inholding of coastal land surrounded by Lake Clark National Park and Preserve. These 4 million protected acres of wilderness are the ancestral homelands of the Dena'ina people, preserving an intact ecosystem at the headwaters of the largest sockeye salmon fishery in the world. Accessible only by plane or boat, Bear Camp offers an unparalleled immersion in pristine brown bear habitat. From our comfortable new cabins, we have immediate access to some of the best, most consistent bear viewing opportunities anywhere in Alaska, due to the season-long availability of food. In late spring, protein-rich sedge grass supports rapid growth, and bears are often seen browsing in the meadow behind camp, as well as digging clams from the beach. Accustomed to our non-threatening presence, they see us humans merely as part of the scenery, allowing us to move safely in their midst on guided outings, at times photographing them from just a few yards away.

Ready to Book? Call an Adventure Specialist at 800-543-8917

Day 10

Lake Clark National Park

Photograph coastal brown bears at close range beneath the peaks of Lake Clark

- Capture bears from Bear Camp's two elevated viewing platforms
- Watch and listen as bears forage, rest and interact nearby
- Frame sheer-sided peaks rising above the green valley floor

There's simply no wildlife encounter to match being among giant brown bears in their wild home. From Bear Camp's two viewing platforms, one elevated for a territorial view, capture shots of bears nearby and at a distance. We often see them right from camp, surrounded by electrified wires that ensure our safety on site. Against a backdrop of sheer-sided peaks rising above the lush valley floor, the bears are sometimes near enough that we can hear them chewing their food and communicating with one another in woofs, purrs and growls. Alaska's brown bears—the coastal version of the interior grizzly bear (which is the same species, *Ursus arctos*)—are the largest land predators in North America. Adult males can weigh up to 1,500 pounds!

While the bear activity we are able to photograph varies according to seasonal conditions, there's always something interesting going on. And while bears are usually plentiful right in the vicinity of camp, we also go into adjacent Lake Clark National Park for added variety. At every turn, we explore the area in the careful company of our seasoned bear naturalists who offer thorough coaching in respectful "bear etiquette," as well as sensitive photography approaches. Our low-impact presence ensures that we never disturb the bears, and they in turn grant us comfortable access to photograph them as they go about their daily routines. After each exciting day, gather in the dining tent for dinner. Fresh local fare is always on the menu, including wild-caught Alaskan salmon.

Day 11

Lake Clark / Homer

Spend a final morning photographing Chinitna Bay's brown bears

- Photograph bears along the tidal flats and sedge meadows near camp
- Return to Homer by chartered bush plane
- Gather for a farewell dinner on the Homer Spit

We have one last chance this morning to seek photos of bears, admiring their majesty and whimsy alike. Few nature photographers have such an encounter with the raw beauty and profound silence of a landscape this size—these elements alone would make for a life-transforming experience. But the chance to watch Alaskan brown bears, incomparable icons of the wild, on their turf, their terms...it's a wonder to have bears welcome us into their world. We depart as ambassadors for the bears, our time among them leaving an indelible mark on us, inspiring us to do all we can to protect them.

After lunch, it's time to leave Bear Camp behind as we board our chartered bush plane to return to Homer, where we spend our final night at the tip of the spit. There may be time to stroll the beach, capture a few more trophy halibut photos at the harbor, or wander the shops and galleries nearby, before our farewell dinner in view of Kachemak Bay.

Day 12

Homer

Depart Homer after your Alaska photo expedition

- Transfer to the airport for homeward flights or an extension

Our epic Alaska photography expedition comes to a close today. Transfer to the Homer airport for homeward flights, or ongoing travel for those who have booked extensions.

Our isolated location, fronting a wild pebble beach backdropped by steep forested mountains, reveals a pristine side of Alaska most visitors miss. The Kenai Fjords region offers prime sea kayaking, and an optional paddling excursion late this afternoon may reveal some of the area's prolific marine life.

Day 7

Kenai Fjords National Park

Photograph whales, seabird cliffs and tidewater glaciers

- Explore Kenai Fjords by private boat in search of humpbacks, orcas and sea otters
- Photograph puffins, bald eagles and other seabirds along the rugged coast
- Approach a tidewater glacier, watching for ice calving from its blue face

Iconic images of Alaska are on display today from our private chartered boat as we explore a marine realm where vestiges of the Ice Age linger. Our small vessel allows us to approach wildlife at close range, and Kenai Fjords National Park provides excellent opportunities for photographing humpback whales, orcas, Dall's porpoise, sea lions, sea otters and puffins. Weave among islands and rocky cliffs where seabirds nest, and zoom in on bald eagles in the treetops. Jagged glaciers wind from the mountain heights to the sea, and we may capture shots of icebergs calving with a crash from a glacier's towering blue face. After our all-day outing, return to our secluded lodge on Fox Island for another night of peace and solitude in the coastal wilderness.

Ready to Book? Call an Adventure Specialist at 800-543-8917

Day 8

Fox Island / Seward / Homer

Cross the Kenai Peninsula from Resurrection Bay to Kachemak Bay

- Return by private boat from Fox Island to Seward
- Travel past salmon rivers, mountain ranges and Cook Inlet on the road to Homer
- Explore the galleries, shops and working waterfront of the Homer Spit

After a last morning on serene Fox Island, board our private boat for the return journey up Resurrection Bay to the historic harbor town of Seward. From Seward, head south on a spectacular drive to Homer. The mountain ranges of the Kenai Peninsula rise one after another, sourcing some of Alaska's richest salmon rivers. Homer is known as “the End of the Road” in Alaska, and we follow it all the way down to the harbor on the Homer Spit. Homer is renowned as the Halibut Fishing Capital of the World, and we may get photos of fishing crews unloading their catch—the biggest halibut can be eight feet long and up to 500 pounds! While halibut are one of Alaska’s most valuable fisheries, Homer also offers excellent fishing for several salmon species, lingcod and rockfish. We’ve got some free time to wander the spit, a long, narrow strip of land that juts into Kachemak Bay. The spit is where we find most of Homer’s shops, art galleries, seafood restaurants and beaches, and our hotel lies at the very tip of it: Land’s End, overlooking and island-studded marine realm that's home not only to coveted sport fish but also sea otters, seals, porpoises, sea lions, orcas, whales, bald eagles and puffins.

Day 9

Inspiration Ridge Preserve / King Salmon

Walk above Kachemak Bay before flying into Alaska’s brown bear country

- Explore the forests and meadows of Inspiration Ridge Preserve with a guide
- Fly by private charter across Cook Inlet to King Salmon
- Learn about brown bear biology and behavior from your Photo Expedition Leader

Accessible only on a privately guided walk, Inspiration Ridge Preserve offers a multitude of nature photography subjects. This mosaic of forests, peat bogs, meadows, ponds and creeks comprises 700 acres of critical wildlife habitat for a host of species, including a visiting summer population of sandhill cranes. Other wildlife here include moose, brown and black bears, lynx, muskrat, swifts and eagles. The Center for Alaskan Coastal Studies manages the preserve, and one of its staff will join us to interpret all we experience. Along our path high above Homer below, photograph a stunning panorama of Kachemak Bay and the Kenai Mountains, wander through dense spruce canopies and fields of magenta fireweed, and learn about ongoing monitoring projects and research partnerships.

Then, is it possible to say we’ve saved the best for last? Well, it all depends on how you weigh the wonders of Alaska, but our brown bear adventures begin this afternoon and will surely be a highlight of your trip. After lunch, board a chartered flight from Homer across Cook Inlet to King Salmon at the head of the Alaska Peninsula, then transfer to our classic Alaskan lodge on the Naknek River. This cozy wood-beamed lodge offers a comfortable base for wilderness bear viewing in nearby Katmai National Park. Once we get settled in, reconvene for a presentation by our Expedition Leader on bear biology and behavior, to prepare us for the adventures ahead tomorrow. This evening, enjoy dinner featuring Alaskan specialties in the lodge dining room.

Ready to Book? Call an Adventure Specialist at 800-543-8917

Day 10

King Salmon / Katmai National Park

Photograph brown bears fishing for salmon at Brooks Falls

- Fly by floatplane into the wild interior of Katmai National Park
- Capture bears catching salmon as they leap through the rushing falls
- Explore habitat that supports one of the world's largest protected brown bear populations

After a hearty breakfast, depart early for the nearby floatplane base where we board our short flight to Katmai National Park with access to world-renowned Brooks Falls, one of the best places to photograph brown bears in their natural habitat. Katmai is home to the world's largest population of these enormous omnivores, with some 2,200 individuals inside the park. As many bear populations around the world decline, Katmai's 4 million acres of wilderness provides some of the last pristine habitat to sustain them.

Within Katmai's protected bounds, bears live largely undisturbed, and visitors have unparalleled photography opportunities. After a safety briefing and orientation to bear etiquette, walk with our Expedition Leader to platforms built over world-famous Brooks Falls, where we get a close-up view of one of the world's most iconic wildlife spectacles: bears standing in the rushing whitewater, jaws gaping, trying to catch the salmon that leap up the falls once spawning season starts. July departures offer a good chance to see fishing bears, since this is when the salmon are running, but photo opportunities are excellent in August and September, too, with even more (and fatter!) bears in the vicinity, wandering up and down the Brooks River. We break for lunch at Brooks Lodge, an easy walk from the falls, then shuttle back to King Salmon by floatplane or water taxi late in the day to enjoy a night in 'rustic luxury' at our riverfront lodge.

Day 11

Katmai / Homer

Return to Brooks Falls for more time photographing brown bears

- Photograph bears fishing, resting and interacting along the river
- Fly by floatplane to King Salmon, then continue to Homer
- Gather with your Photo Expedition Leader for a farewell dinner

Another day of exhilarating brown bear photography awaits in the vicinity of Brooks Falls before we return by floatplane once more to King Salmon, then fly back to Homer in the early evening. Tonight we celebrate our adventures at a farewell dinner on the top of the Homer Spit, hosted by our Expedition Leader.

Day 12

Homer

Depart Homer after your Alaska photo expedition

- Transfer to the airport for homeward flights or an extension

Our epic Alaska photo safari comes to a close today as we transfer to the Homer airport for homeward flights, or ongoing travel for those who have booked extensions.

Ultimate Alaska Photo Expedition Accommodations

Capture the Grandeur of the Last Frontier on Our Exclusive Small-Group Photo Safari

Camp Denali

A secluded 1952 wilderness lodge with rustic cabins deep in the heart of Denali National Park, featuring direct mountain views, gourmet meals and extensive wildlife viewing around the clock.

The Wildbirch Hotel

Wildbirch brings contemporary Alaskan character to downtown Anchorage, with local art, comfortable rooms, Cook Inlet views and a convenient location near the city's restaurants, shops and attractions.

Kenai Fjords Wilderness Lodge

Accessed via a scenic boat ride from Seward on Resurrection Bay, this remote outpost on private Fox Island offers total tranquility in eight waterfront log cabins surrounded by Kenai Fjords National Park.

Nat Hab's Alaska Bear Camp

Nat Hab's fly-in camp, on a private inholding in Lake Clark National Park, is a sustainable base for exploring pristine brown bear habitat, providing remote wilderness accommodations that are low on impact yet high on comfort.

Odyssey Lodge

This contemporary luxury retreat on Kachemak Bay, accessible only via boat from Homer, features bay view cabins and treehouse suites with expansive water and mountain views.

King Salmon Lodge

This wilderness lodge offers rustic luxury on the Naknek River, with log and stone accents, a cozy fireplace and Alaskan meals—just a short floatplane ride to world-famous bear viewing in Katmai National Park.

Land's End Resort

At the end of the road on the Kenai Peninsula, on the tip of the famous Homer Spit, our beachfront rooms have expansive views of Kachemak Bay and the Kenai Mountains.

Springhill Suites Fairbanks

Located on the banks of the Chena River in downtown Fairbanks, the hotel features large studio-suite rooms and a host of amenities including a fitness center, heated indoor pool and whirlpool spa.

Photograph the Wild Heart of Alaska with Nat Hab

Ultimate Alaska Photo Expedition

Alaska boasts unrivaled vastness, epic landscapes and natural beauty. Yet many photographers find themselves confined to crowded visitor hubs, missing genuine wilderness encounters. Our approach is different. We lead you off the well-trodden tourist track, revealing insider photography spots and legendary wildlife. Join us for an immersive photography adventure, and come home with spectacular images of America's Last Frontier!

1 **The Optimal Alaska Photo Itinerary**

For over 30 years, we've meticulously crafted our itinerary to maximize your opportunities to witness and photograph Alaska's renowned wildlife. From the iconic brown bears of Lake Clark National Park & Katmai's Brooks Falls, known for their agile salmon-catching skills, to the captivating marine life of Kenai Fjords, our flagship Alaska adventure promises unrivaled wildlife encounters.

2 **Cover More Terrain for More Photo Opportunities**

You want to say you've been to Alaska and have the pictures to prove it. To really capture the largest state in the US, you'll need to cover a lot of ground. Our exclusive itinerary traverses more than 2,000 linear miles via floatplane, train, boat and minibus, all with the strategic goal of maximizing our photographic time and opportunities.

3 **Fly to the Denali Backcountry via Private Chartered Bush Plane**

Board a private bush plane at the Denali park entrance to fly 90 miles to our backcountry lodge, tucked deep in the far reaches of the national park. Revel in exhilarating vistas of tundra, peaks and wildlife below, with the chance—weather permitting—to fly close to the icy flanks of Denali itself. With the park road closed on an extended basis due to a major landslide, we have exclusive access by air to areas out of reach by road, a privilege few will experience.

4 **Walk in the Footsteps of Ansel Adams**

Capture the timeless beauty of Wonder Lake in Denali, mirroring the iconic shots of Ansel Adams. Immersed in pristine wilderness, you'll frame the majestic peaks and reflective waters, echoing Adams' legendary compositions and eternalizing your own unique perspectives on this breathtaking landscape.

5 **Best Place for in the World Bear Photography**

Few comprehensive Alaska photo tours offer bear viewing to the Alaska Peninsula's Bear Coast, which boasts the highest concentration of brown bears in North America. While summer conditions can vary, we assure optimal viewing during peak bear season, In June, bears are most abundant at Lake Clark National Park, along the verdant coast of the Cook Inlet at Nat Hab's private Alaska Bear Camp. While in July and August they can be found fishing for salmon in the iconic Brooks Falls at Katmai National Park. These exclusive experiences are unattainable via cruise or bus tours!

Ready to Book? Call an Adventure Specialist at 800-543-8917

6 **Cruise Kenai Fjords Aboard Our Private Chartered Boat**

Embark on an exclusive voyage aboard a private charter boat, focusing on glaciers, icebergs, whales, seals, sea lions, otters, and the abundant birdlife within Kenai Fjords National Park. Avoiding the crowded deck of an excursion boat or a cruise ship carrying thousands, you'll get the best chance to photograph magnificent whales breaking the surface and the vibrant presence of puffins in flight.

7 **Stay on a Private Island with the Sea at Your Doorstep**

Experience the ultimate in seclusion as you overnight at a private beachfront lodge on tranquil Fox Island in Kenai Fjords. Here, amid the untouched Alaskan wilderness, discover genuine solitude with myriad photo opportunities right out your front door.

8 **Shoot Alongside a Photography Pro Who Is Also an Expert Naturalist**

Every Nat Hab Photo Expedition is led by a supremely qualified naturalist and accomplished photographer. With a keen eye for wildlife behavior, optimal lighting, and exclusive opportunities, your expedition leader ensures every moment is optimized for stunning photography. Capture the essence of Alaska's wilderness alongside a guide who not only knows the land intimately, but also understands how to translate its beauty into captivating images.

9 **Our Quality-Value Guarantee Ensures Your Superior Alaska Experience**

With Natural Habitat Adventures, you receive our exclusive guarantee, which clearly states that we will meet the lofty expectations we set in our promotional materials. To our knowledge, this is the most ambitious guarantee made by any adventure travel company. **Read our important promise.**

10 **Feel Good About Your Carbon-Neutral Journey**

We care deeply about our planet, and as a nature photographer, we know you do too. When you travel with us, the carbon emissions from your trip are 100% offset—including your round-trip flights from home. Natural Habitat Adventures has been the world's first carbon-neutral travel company since 2007.

11 **Nat Hab is WWF's Travel Partner**

Because of our commitment to environmentally friendly photography travel, as well as the exceptional quality of our adventures, World Wildlife Fund—the world's leading environmental conservation organization—has named Natural Habitat Adventures as its worldwide travel partner, a designation that makes us very proud!

Included

Trip price includes: Accommodations, services of Nat Hab's professional Expedition Leader(s), local guides and lodge staff, all meals from dinner on Day 1 through breakfast on the final day, dome car train from Anchorage to Seward, private full-day boat charter in Kenai Fjords National Park, some gratuities, airport transfers on Day 1 and the final day, all activities and entrance fees, all taxes, permits and service fees. For Bear Camp departures, access to rain jackets, rubber boots, mosquito nets, Swarovski binoculars, scopes and tripods while at Camp.

Not Included

Travel to and from the start and end point of your trip, alcoholic beverages, some gratuities, passport and visa fees (if any), optional activities, items of a personal nature (phone calls, laundry, etc.), airline baggage fees, airport and departure taxes (if any), required medical evacuation insurance, optional travel protection insurance.

Internal air: Chartered flights between Homer and King Salmon or Homer and Bear Camp (this will be listed separately on our invoicing).

Physical Requirements

The minimum age for this trip is 12 years old.

Important Information About This Trip

This trip ventures far afield from the typical Alaska tour circuit where large motorcoaches move long lines of cruise clients to crowded destinations. A couple of details you should be aware of: Power is available at Denali Backcountry Lodge, Kenai Fjords Wilderness Lodge on Fox Island, and at Bear Camp or King Salmon Lodge.

A prime focus of our Alaska adventure is bears, which, naturally, should be treated with caution. At Brooks Falls and in Lake Clark National Park, thousands of visitors have traveled here to view bears over the past 50+ years and, to our knowledge, there has never been a bear attack. But we never know exactly what bears are thinking, so we ask our travelers to consider this and pay close attention to the rules set forth by the park rangers.

Ready to Book? Call an Adventure Specialist at 800-543-8917

Mandatory Insurance

Since the areas we travel to are remote and wild (that's why we go there!), we require that all guests have, at minimum, medical evacuation insurance for this program. This is for the safety of all guests. We require that your chosen independent insurance plan includes at least $250,000 in medical evacuation coverage.

To protect your investment and to provide peace of mind while you travel, we also strongly recommend purchasing comprehensive travel insurance. Plans may cover everything from medical treatment to trip cancellations and delays and lost luggage. Please contact our office if you would like more information about the medical evacuation and comprehensive travel insurance policies we offer by calling 800-543-8917.

Getting There & Getting Home

This trip begins in Fairbanks, Alaska, and ends in Homer, Alaska. **You must arrive in Fairbanks by 4 pm on Day 1** in order to attend an orientation and welcome dinner at 5:30 pm. Because weather in Alaska can be unpredictable—especially for travelers making same-day flight connections—we strongly recommend arriving in Fairbanks prior to Day 1 to allow a buffer for any delays. For guests who come in early, recommended hotels will be included in your pre-departure materials. If you plan to arrive on Day 1, please ensure your flight arrives by the required time.

You may depart from Homer at any time on the final day.

Our Natural Habitat Adventures Nat Hab Air Team can best assist with your travel reservations, as our staff is familiar with the specific requirements of this program and can help arrange the most efficient itinerary. Please call us at 800-543-8917. While we offer the best available rates to us on airfare and additional nights accommodations, you may occasionally find special web rates or lower fares online.

Ultimate Alaska Photo Expedition Extensions

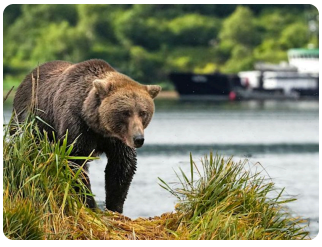

Capture the Grandeur of the Last Frontier on Our Exclusive Small-Group Photo Safari

Nat Hab's Alaska Bear Camp

A secluded immersion with brown bears in the wilderness of Lake Clark National Park—enjoy total privacy and comfort at our deluxe fly-in wilderness camp accessed via chartered bush plane from Homer.

$9495 (+air)

Alaska's Grizzly Ship: Kodiak to Katmai

An exclusive small-ship adventure to view giant brown bears—the world's largest "coastal grizzlies"—up close! Walk the shores as bears dig for clams, forage for sedges and pursue salmon in season in tidal streams.

$11995 (+air)
