Pride of East Africa: Kenya & Tanzania

A Secluded Experience of East Africa's Renowned Wildlife Reserves—Plus the Migration!

Kenya and Tanzania: These storied names evoke a bygone era of safari romance and adventure—seas of golden grass swaying under a blue bowl of sky, great herds of migrating wildebeest and zebra traversing the savanna among rocky outcrops and lacy acacia trees, rhinos and elephants browsing on the plains, nights spent gazing into the flicker of a campfire under a sky strewn with stars. In the Serengeti and Maasai Mara, behold the timeless drama of predator and prey, the circle of life, unfolding rhythmically on one of Earth's last great wild stages. This experience of Africa at its most primal still exists and is waiting to be discovered once more on our in-depth Kenya and Tanzania safari. You'll find no more epic encounter with the wonders of East Africa, which seduce contemporary explorers as powerfully as they did their predecessors a century or more ago.

Trip Highlights

Four of Africa's Most Renowned Wildlife Destinations

An exhilarating itinerary designed seasonally around the Migration, including the Serengeti, Maasai Mara, Ol Pejeta and Namunyak Conservancy

Intimate Camps on Exclusive Private Reserves

Enjoy classic ambience, surprising luxuries and impeccable service at our small safari camps in remote locales, including private conservancies far from crowds

Internal Flights Maximize Your Time on Safari

We fly you between our remote bush camps so you can spend your time in nature watching wildlife, not wasting hours in transit on bumpy, dusty roads

Pride of East Africa: Kenya & Tanzania Itineraries

A Secluded Experience of East Africa's Renowned Wildlife Reserves—Plus the Migration!

June–October Itinerary

June–October safaris visit the northern Serengeti when the herds are heading into the Maasai Mara and back and dramatic river crossings may occur. This itinerary also includes our new Elephant Conservation Camp and Reteti Elephant Sanctuary in northern Kenya.

December–March Itinerary

December–March safaris visit the southern Serengeti when the herds are in a relatively stable position, to give birth and nurture their young. This safari also includes our new Elephant Conservation Camp and Reteti Elephant Sanctuary in northern Kenya.

June–October Itinerary

Pride of East Africa: Kenya & Tanzania

Itinerary at a Glance

Day 1	Nairobi
Days 2–4	Ol Pejeta Conservancy
Days 5–6	Namunyak Conservancy
Days 7–8	Olderkesi Conservancy
Days 9–11	Northern Serengeti
Days 12–13	East-Central Serengeti
Day 14	Arusha

Day 1

Nairobi

Begin your East African safari in Nairobi

- Settle into the House of Waine in Nairobi's leafy Karen neighborhood
- Meet your Expedition Leader over a welcome dinner and safari briefing

Our grand East Africa adventure begins in the traditional safari capital of Nairobi. From the airport, you are met and transferred to the House of Waine, located in the quiet residential suburb of Karen on the outskirts of the city. Originally built as a lavish private estate, the stately home surrounded by lush gardens is one of Nairobi's most elegant boutique hotels. This evening, learn about that lies ahead during a welcome dinner with our Expedition Leader.

Ready to Book? Call an Adventure Specialist at 800-543-8917

Days 2–4

Ol Pejeta Conservancy

Meet the world's rarest rhinos at Ol Pejeta Conservancy

- Visit the world's last two northern white rhinos with a conservation expert
- Search for the Big Five on day and night wildlife drives
- Explore Ol Pejeta beneath the snowcapped slopes of Mount Kenya

Fly north to the renowned Ol Pejeta Conservancy, located on the Laikipia Plateau in the shadow of Mount Kenya. A working cattle ranch established in the 1940s during Kenya's colonial days, Ol Pejeta set aside land for rhino conservation in 1988 and has become a highly regarded trailblazer for conservation innovation. Today it is the largest black rhino sanctuary in East Africa and home to the world's last two remaining northern white rhinos, a staunchly guarded pair of females that we visit in person. The conservancy is also home to the endangered Grevy's zebra and has some of Kenya's highest predator densities, yet it still manages a very successful livestock program. Ol Pejeta seeks to preserve the exceptional biodiversity within its 90,000 acres while supporting the people living on its borders, to ensure that wildlife conservation translates to better education, healthcare and infrastructure for the next generation of wildlife guardians. In 2014, Ol Pejeta achieved IUCN Green List status, one of only two conservancies in Africa to be so recognized. The Green List aims to define excellence in managing valuable natural areas.

Nat Hab's Rhino Camp inside the conservancy is the ideal base from which to explore this diverse wildlife haven that contains many of Kenya's endemic northern species. We'll hope to see the legendary Big Five and much more on day and night wildlife drives and guided walks against the backdrop of snowcapped Mount Kenya. At the end of each exhilarating foray into the bush, return to the comforts of our tented camp, redolent with the ambience of East Africa's classic safari era.

Days 5–6

Namunyak Conservancy

Experience community-led elephant conservation in Samburu country

- Fly by charter to the wild landscapes of Namunyak Conservancy
- Go behind the scenes at Reteti Elephant Sanctuary during calf feeding
- Search for reticulated giraffe, gerenuk and other northern Kenyan wildlife

A short chartered flight takes us to the Namunyak Community Conservancy in the heart of Kenya's northern frontier. Backdropped by the dramatic Mathews Range, this land is home to the Samburu people, semi-nomadic pastoralists who have raised livestock here for centuries while coexisting in harmony with the region's striking wildlife. Namunyak is one of Kenya's most pristine wilderness areas, serving as a critical refuge for many wildlife species, with important northern populations of reticulated giraffe, gerenuk, leopard, African wild dog, impala lion, greater kudu and many different birds. The conservancy is particularly important for elephants as they move seasonally between the Mathews Range and the Ngare Ndare Forest near Mount Kenya, a route they have used for decades.

Our base for exploration is Nat Hab's Elephant Conservation Camp, where seclusion, comfort and exceptional service are hallmarks of this exclusive experience. Our stay includes a private visit to Reteti Elephant Sanctuary, the world's first such enterprise owned by Indigenous community members. The sanctuary was designed to rescue and release orphaned and abandoned elephant calves while creating much-needed benefits for the local people that live alongside them—inspiring them to recognize the intrinsic value of nature and protecting local wildlife for its benefit to their own well-being.

We have the rare opportunity to go behind the scenes to meet the dedicated local caretakers and to witness firsthand how Reteti is transforming elephant conservation. Observe feeding time, learn the elephants' individual stories, and support a model of conservation that uplifts both wildlife and the surrounding Samburu community. We'll also take game drives and guided bush walks to look for roaming elephants and other wildlife, punctuated with peaceful interludes at camp. The entire experience offers a soulful connection to northern Kenya's people, animals and landscapes—one that few travelers are privileged to encounter, and one that will certainly ignite your own passion for conservation.

Ready to Book? Call an Adventure Specialist at 800-543-8917

Days 7–8

Olderkesi Conservancy

Explore the private Mara beyond the crowds

- Search for lions, elephants and abundant plains wildlife across a private conservancy
- Look for the Great Migration moving through an important wildlife corridor
- Enjoy guided walks, off-road safaris and night drives unavailable in the national reserve

Fly this morning to the Maasai Mara, one of Africa's most legendary wildlife realms. Secluded within the vast private conservancy that borders the Maasai Mara National Reserve, our isolated tented camp is surrounded by all the wonders of the Mara ecosystem without the crowds. With strict limits on guest numbers, the 7,000-acre Olderkesi Community Wildlife Conservancy offers the rare opportunity to experience the Mara's spectacular wildlife in peaceful seclusion, especially the wildebeest migration. The conservancy serves as a migration corridor for thousands of animals moving between the Maasai Mara National Reserve and the Loita Plains to the east. It is a successful model for how local people are integrating agricultural livelihoods with wildlife protection. By limiting development to certain areas and keeping vast tracts of collectively owned grazing land open and unfenced, Maasai landowners enable wildlife to move freely while also reducing human-wildlife conflict at their homesteads.

As a result, a multitude of species flourishes on the conservancy. Herds of antelope dot the rolling plains while stands of acacia trees shelter prolific birdlife. Rich volcanic soils nurture the grassy savanna where we find more lions per square mile than anywhere else in Kenya. Prolific herds of elephant, giraffe and zebra are also on view. Our activities make the most of our unrivaled access to this wide-open wild country. In addition to daily wildlife drives, enjoy guided bush walks, wilderness picnics, off-road safaris and night drives in search of nocturnal wildlife—exciting activities not permitted in the adjacent national reserve.

Days 9–11

Northern Serengeti

Follow the Great Migration across the northern Serengeti

- Stay in a private mobile camp along a major migration corridor
- Search for lions, cheetahs and other predators following the moving herds
- Track the migration in private 4x4s with the flexibility to follow the herds

Fly to Serengeti National Park, the Tanzanian side of the massive sea of grass that is the Mara-Serengeti ecosystem. Its reputation as one of the world's iconic nature destinations is well deserved, as staggering concentrations of hoofed game and prodigious predators engage in an ancient and epic struggle for survival. Nat Hab's private mobile camp provides a front-row view on all the action, as well as the romance of sleeping under canvas beneath starry African skies.

We spend three days in the remote northern reaches of the Serengeti, immersed in the phenomenon of the Great Migration. In accord with the animals' movement patterns, our mobile camp is placed in a main migration corridor traversed by more than 2 million wildebeest, zebra and gazelle, plus an accompanying cast of predators, on their annual 1,800-mile trek from Kenya's Maasai Mara to the southern Serengeti and back again. Witness this remarkable spectacle on daily game drives, where we may behold stunning scenes of predator-prey interaction as a lion takes down a sick wildebeest or a cheetah overtakes an infant antelope. We track the herds in private 4x4 vehicles, allowing for optimal mobility and proximity.

Our luxury mobile camp is placed where the wildlife is, yet we retreat to surprising comfort given the remoteness of our location. Walk-in canvas tents are reminiscent of the safari era of yesteryear, offering superb ambience and seclusion. Each evening, dine under a canopy of stars and share impressions of the day around a crackling campfire.

Ready to Book? Call an Adventure Specialist at 800-543-8917

Days
12–13

East-Central Serengeti

Search for big cats across the eastern Serengeti

- Explore former cheetah research country rich in lions and other predators
- Stay among granite kopjes where big cats rest and hunt
- Discover year-round wildlife where open plains meet acacia woodland

Fly to the eastern Serengeti today for a two-night stay at our exclusive bush camp. Surrounded by open range and kopjes—large granite outcrops that dot the plains—our private camp offers fabulous wildlife viewing in diverse habitats, particularly of the abundant feline predators that live and hunt in this area. It also provides exceptional privacy away from crowds. From canvas tents shaded by giant acacia trees, survey 360-degree views of wildlife traversing the savanna, with more thrilling encounters in store on game drives.

The surrounding environs are dotted with dramatic rocky outcrops, and the sunrise over these granite kopjes is glorious. Shaded by giant acacias, our camp lies where the short-grass plains meet acacia woodlands. The nearby Nyabogati River sustains year-round wildlife concentrations. From this secluded outpost we can expect unrivaled sightings of the big cats that are so plentiful in this area. Until recently, this area was set aside for scientific research into predators, especially cheetah, but today, we are able to enjoy that same access to this dense feline population. Such close encounters with the Serengeti's apex predators are sure to enthrall even the most seasoned safari traveler.

Day
14

Arusha

Savor one last afternoon beneath Mount Meru

- Gather for a farewell lunch at historic Ngare Sero Lodge
- Relax in a day room before your evening transfer to Kilimanjaro Airport

This morning we fly back to Arusha and transfer to Ngare Sero Lodge at the base of Mount Meru, where a farewell lunch is served on arrival. Day rooms await in this peaceful setting, offering a chance to relax and refresh before your transfer to Kilimanjaro Airport for international departures this evening.

Days 7–8

Olderkesi Conservancy

Explore a private corner of the Mara from Nat Hab's Mara East Camp

- Search for lions, elephants and abundant plains wildlife across an exclusive conservancy
- Enjoy guided walks, off-road safaris and night drives unavailable in the national reserve
- Learn how Maasai-led conservation protects migration corridors and wildlife habitat

Fly this morning to the Maasai Mara, one of Africa's most legendary wildlife realms. Secluded within the vast private conservancy that borders the Maasai Mara National Reserve, our isolated tented camp is surrounded by all the wonders of the Mara ecosystem without the crowds. With strict limits on guest numbers, the 7,000-acre Olderkesi Community Wildlife Conservancy offers the rare opportunity to experience the Mara's spectacular wildlife in peaceful seclusion, especially the wildebeest migration. The conservancy serves as a migration corridor for thousands of animals moving between the Maasai Mara National Reserve and the Loita Plains to the east. It is a successful model for how local people are integrating agricultural livelihoods with wildlife protection. By limiting development to certain areas and keeping vast tracts of collectively owned grazing land open and unfenced, Maasai landowners enable wildlife to move freely while also reducing human-wildlife conflict at their homesteads.

As a result, a multitude of species flourishes on the conservancy. Herds of antelope dot the rolling plains while stands of acacia trees shelter prolific birdlife. In addition to daily wildlife drives, enjoy guided bush walks, wilderness picnics, off-road safaris and night drives in search of nocturnal wildlife—exciting activities not permitted in the adjacent national reserve.

Days 9–10

East-Central Serengeti

Search for big cats from Nat Hab's secluded Serengeti East Camp

- Explore prime habitat for lions, cheetahs and leopards among granite kopjes and open plains
- Watch sunrise illuminate the rocky outcrops before morning wildlife drives
- Look for year-round wildlife where short-grass plains meet acacia woodland

Fly to the eastern Serengeti today for a two-night stay at our exclusive safari camp. Surrounded by open range and kopjes—large granite outcrops that dot the plains—our private bush camp offers fabulous wildlife viewing in diverse habitats, particularly of the abundant feline predators that live and hunt in this area. It also provides exceptional seclusion away from crowds. From canvas tents shaded by giant acacia trees, survey 360° views of wildlife traversing the savanna, with more thrilling encounters in store on game drives. The surrounding environs are dotted with dramatic rocky outcrops, and the sunrise over these granite kopjes is glorious. Our camp lies where the short-grass plains meet acacia woodlands. The nearby Nyabogati River sustains year-round wildlife concentrations. From this secluded outpost we can expect unrivaled sightings of the big cats that are so plentiful in this area. Until recently, this area was set aside for scientific research into predators, especially cheetah, but today, we are able to enjoy that same access to this dense feline population. Such close encounters with the Serengeti's apex predators are sure to enthrall even the most seasoned safari traveler.

Ready to Book? Call an Adventure Specialist at 800-543-8917

Days 11–13

Southern Serengeti

Follow the Great Migration from Nat Hab's private Migration Camp

- Search for vast herds of wildebeest, zebras and gazelles gathering on the plains
- Look for newborn wildebeest during the annual calving season
- Watch for lions, cheetahs, hyenas and other predators following the herds

Depart this morning for Nat Hab's private mobile camp in the southern Serengeti, with a game drive en route. Each season, we place our Migration Camp in an area the herds are known to frequent. The days of hunting camps set for the likes of Roosevelt and Hemingway were nearly over until photo safaris gained popularity in the 1970s. Our camp is redolent with that vintage atmosphere, with candlelight dinners presented under canvas and nothing between you and the night sounds of the bush but the walls of your tent.

While home to a profusion of wildlife year-round, there is nothing like the Serengeti during the phenomenon of the Great Migration. We spend three days among the sea of mammals, following them in open-sided 4x4 vehicles that offer superb photography access. During the annual short rains, some 2 million wildebeest trek from Kenya's Maasai Mara to the southern Serengeti and back again, in search of new grass. They migrate with hundreds of thousands of zebra, whose superior vision serves as an early-warning system for predators. Gazelle and other antelope accompany the huge herds as well.

We are in the region during the time when zebra and wildebeest are giving birth (typically in January and February), and the herds may be mostly stationary. The majority of baby wildebeest are born during a single 3-week window, after most zebra young have emerged, and we'll hope to see infants, though timing on the calf drop is weather-dependent. Predators seek out the most vulnerable members of the herds, and we may witness a lion seize a sick wildebeest or a cheetah overtaking a newborn that has become separated from its mother. Leopard, hyena and jackal also prey on the migrating herds while vultures hang in the air, waiting to feast on carrion. While the spectacle is at times grim, its primal drama is a wonder to behold.

Day 14

Arusha

Conclude your East Africa safari beneath Mount Meru

- Gather for a farewell lunch at historic Ngare Sero Lodge
- Relax in a day room before your evening transfer to Kilimanjaro International Airport

This morning we fly back to Arusha and transfer to Ngare Sero Lodge at the base of Mount Meru, where a farewell lunch is served on arrival. Day rooms await in this peaceful setting, offering a chance to relax and refresh. Transfer to Kilimanjaro Airport for international departures this evening.

Ready to Book? Call an Adventure Specialist at 800-543-8917

Pride of East Africa: Kenya & Tanzania Accommodations

A Secluded Experience of East Africa's Renowned Wildlife Reserves—Plus the Migration!

House of Waine

Set amid manicured gardens in the quiet residential suburb of Karen on the outskirts of Nairobi, the House of Waine, once a private estate, offers an appealing alternative to standardized city hotels.

Nat Hab's Rhino Camp–Ol Pejeta

Offering a romantic safari experience reminiscent of bygone days, our solar-powered mobile luxury camp offers a host of amenities, even in remote areas far from tourist crowds where wildlife viewing is best.

Nat Hab's Elephant Conservation Camp

A solar-powered luxury camp in Namunyak Wildlife Conservancy, positioned along elephant migration corridors and co-managed with the Samburu community on their ancestral lands.

Nat Hab's Mara East Camp—Private Mara Conservancy

Our solar-powered mobile tented camp on a private conservancy in the Maasai Mara offers the ultimate in proximity to wildlife without the crowds—plus night drives and bush walks not available in the national reserve.

Nat Hab's Serengeti East Camp

Located in a remote sector of the eastern Serengeti where solitude (and big cats!) reign, our mobile safari camp takes bush comfort to a new level, with seven canvas safari tents surrounded by rich wildlife habitat.

Nat Hab's Migration Camp

Our own deluxe mobile tented camp is set seasonally for proximity to the flow of wildebeest and zebra herds through the Serengeti, optimizing the chance to witness the migration at close range.

Ngare Sero Mountain Lodge

Ten spacious period-style suites front a sprawling lawn and lush gardens surrounding a 1905 German farmhouse, transformed from a colonial home into a tranquil lodge at the foot of Mount Meru.

For detailed descriptions, visit nathab.com/africa/ultimate-kenya-tanzania-safari/accommodations.

Our Pride of East Africa Safari Stands Above the Rest!

Pride of East Africa: Kenya & Tanzania

If you're making a once-in-a-lifetime trip to East Africa, keep these key elements in mind as you compare options. You won't find a superior safari that combines the best of Kenya and Tanzania.

1 **A Rare Secluded Experience, Away from Crowds**

There's no question East Africa draws a lot of safari travelers. The abundant wildlife in the famous national parks of Kenya and Tanzania makes them duly popular destinations. That's why we concentrate on private reserves where wildlife abounds but visitor numbers are strictly limited. We know you don't want to come all the way to East Africa to see a lion surrounded by 15 or 20 other safari vehicles. On exclusive private conservancies, we are mostly alone with the animals.

2 **An Itinerary Designed Around the Migration**

Many companies operate the same standard "migration safari" circuit year-round, with no concern for time-specific locations for the arrival of the herds. We focus on the best time to see the animals, then build our itineraries and dates around that, attempting to time our presence for peak viewing. An integral feature is our mobile base camps, strategically positioned for proximity to where wildlife is most prolific at that time.

3 **Exclusive Safari Activities on Private Reserves**

Most safaris stay within the main areas of the most popular national parks and reserves. In contrast, we choose remote small camps on private conservancies within the Maasai Mara and Serengeti ecosystems, away from big lodges and primary roads filled with vehicles. From these adjacent reserves, we have easy access to more remote sectors of the parks while also enjoying special privileges not allowed within their bounds, such as guided safari walks, off-road driving, and night drives in search of nocturnal wildlife.

4 **Meet the World's Last Two White Rhinos & Witness Conservation in Action**

Located on the Laikipia Plateau in the shadow of Mount Kenya, Ol Pejeta is a working cattle ranch, which first set aside land for rhino conservation in 1988. Today this 90,000-acre preserve is the largest black rhino sanctuary in East Africa and home to **Earth's last two northern white rhinos**. Visit this pair of females with their guards, and learn about groundbreaking science that's being done to save their species.

5 **A Rare Visit to Northern Kenya's Namunyak Conservancy & Elephant Sanctuary**

Namunyak, one of Kenya's most pristine wilderness areas, is a critical refuge for important northern populations of reticulated giraffe, gerenuk, leopard, African wild dog, impala, lion, greater kudu and many different birds. The conservancy is particularly important for elephants as they move seasonally between the Mathews Range and the Ngare Ndare Forest near Mount Kenya. Explore from Nat Hab's new Elephant Conservation Camp—including a private visit to Reteti Elephant Sanctuary.

6 **Small Groups Mean Better Wildlife Encounters**

We travel with a maximum of 12 guests. Many East African safaris take groups of 20 or more, packed into cramped mini-buses. Small groups mean we get closer to the herds, have better photo opportunities, and our experience is enriched by personalized interpretation from our Expedition Leaders as we watch the wildlife action side by side.

7 **Maximize Comfort & Time with Internal Flights**

Many safari companies transport you to and from the bush by vehicle—meaning long, dusty drives over rough roads. We've included flights wherever possible, maximizing time for what you have come to East Africa for: wildlife viewing on safari.

8 **Count on a Window Seat & Plenty of Space in Our Chartered Vehicles**

We limit the number in each safari vehicle to maximize comfort, and every traveler has a window seat for unimpeded views and photography—this is not the case with every safari operator.

9 **The World's Finest Safari Guides**

Natural Habitat Adventures is known worldwide for employing the finest naturalist guides on the planet. In Kenya and Tanzania, our own Expedition Leaders are with our groups from beginning to end. They are among the most highly trained guides in Africa, averaging more than 15 years' guiding experience and dedicated to sharing exceptional knowledge and highly personalized service. Their training is further enhanced with resources from WWF's top scientists. See **Expedition Leader bios** and traveler comments regarding the quality of our leaders.

10 **Our Quality-Value Guarantee Ensures Your Superior Safari Experience**

Natural Habitat Adventures offers an exclusive guarantee, which clearly states that we will meet the lofty expectations we set forth in our promotional materials. To our knowledge, this is the most ambitious guarantee made by any adventure travel company. **Read our important promise.**

11 **Feel Good About Your Carbon-Neutral Journey**

We care deeply about our planet, as we know you do. When you travel with us, the carbon emissions from your trip are 100% offset—including your round-trip flights from home. Natural Habitat Adventures has been the world's first carbon-neutral travel company since 2007.

Included

Trip price includes: Accommodations, services of Nat Hab's professional Expedition Leader(s), local guides and camp staff, all meals from dinner on Day 1 through lunch of final day, some alcoholic beverages, some gratuities, airport transfers on Day 1 and final day, all activities and entrance fees, all taxes, permits and service fees.

Not Included

Travel to and from the start and end point of your trip, some alcoholic beverages, some gratuities, passport and visa fees (if any), optional activities, items of a personal nature (phone calls, laundry and internet, etc.), airline baggage fees, airport and departure taxes (if any), required medical evacuation insurance, optional travel protection insurance.

Internal air: All light aircraft flights within the itinerary (this will be listed separately on our invoicing).

Important Information About This Trip

This comprehensive itinerary is designed to show travelers the very best wildlife destinations these two countries have to offer. To maximize our time on safari, the adventure will begin in Nairobi, Kenya and finish in Arusha, Tanzania with an internal flight and border crossing during the mid-point of our trip connecting these two wildlife gems.

Mandatory Insurance

Since the areas we travel to on this trip are remote and wild (that's why we go there!), we require medical evacuation insurance for our guests' safety. If you decline the medical evacuation insurance coverage offered by Natural Habitat, we request that you send us documentation of the independent coverage you have selected. We will add the cost of a medical evacuation policy to your tour invoice until you provide our office with proof of coverage including your insurance company's name, contact number and your individual policy number. Thank you for understanding that our policy exists exclusively in the interest of our guests' safety.

Getting There & Getting Home

This trip begins in Nairobi, Kenya, and ends in Arusha, Tanzania. Because this is a long international journey, **we recommend that you arrive at least one night prior to Day 1** to rest from your travels and begin the trip refreshed. For guests who come in early, recommended hotels will be included in your pre-departure materials. You must arrive in Nairobi by 5 pm on Day 1 in order to attend the 7 pm welcome dinner.

You may depart Arusha anytime after 5 pm on the final day.

Ready to Book? Call an Adventure Specialist at 800-543-8917

Our Natural Habitat Adventures Travel Desk can best assist with your travel reservations, as our staff is familiar with the specific requirements of this program and can help arrange the most efficient itinerary. Please call us at 800-543-8917. While we offer the best available rates to us on airfare and additional nights' accommodations, you may occasionally find special web rates or lower fares online.
