

Renewable Energy Certificate Information

This offer meets CT's 2024 minimum of 37% mandatory renewable energy certificate requirements.

All suppliers must purchase a minimum amount of renewable energy certificates* from generating sources based on the amount of electricity the supplier sells in Connecticut to meet the state's Renewable Portfolio Standards (RPS).

The certificates must be from these sources:

Class I 28% - solar,

hydroelectric, wind and Fuel Cell

Class II 4% - trash-to-energy sources

Class III 5% - Combined Heat and Power facilities, energy efficiency projects.

Learn more about CT's RPS requirements at [CT RPS](#)

[Overview](#).

Voluntary Renewable Offer

This offer provides an additional 63% of renewable energy certificates on top of the state-required minimum.

Suppliers can purchase energy certificates supported by 63% of usage not already supporting the minimum required certificates (the gray portion of the chart above) through Voluntary Renewable Offer (VRO) products. Selection of this VRO product means that your usage supports the purchase of [63%] of certificates in addition to the state-required minimum certificates described above.

These certificates come from [TYPE (wind, etc.) and STATE(s)/RTOs (if PJM control area, must indicate that this includes portions of Delaware, District of Columbia, Ohio, Illinois, Indiana, Michigan, Maryland, North Carolina, New Jersey, Pennsylvania, West Virginia or Virginia)].

** All certificates represent the attributes of renewable generation sources as defined in Connecticut statute. To learn more about renewable certificates visit [EnergizeCT](#). The supplier's purchase of these certificates DOES NOT mean that the specific electricity that you are buying through this offer comes from the renewable sources indicated on this Label. Please refer to the next page (generation source information) to see the makeup of the electricity delivered.*

For information about the certificates that are supported through this offer visit www.shellenergy.com. You can also contact CT's Public Utility Regulatory Authority at 800-382-4586 or pura.information@ct.gov.
