2022 manual entry reporting options

to avoid the penalty for small practices without an EHR:

Option A	Option B
<ul style="list-style-type: none"> • <i>Exempt for PI category (Small practices automatically exempt for PI category-- No application needed).</i> AND • <i>Exempt for Cost category (You will need to apply and be approved for the EUC for the cost category).</i> AND • <i>Report up to 6 quality measures which sum is at least 30 points. (Quality score can be up to 56 points in order to get maximum incentive).</i> AND • <i>Attest to one high weighted (or two medium weighted) Improvement Activity for 90 consecutive days in the performance year.</i> 	<ul style="list-style-type: none"> • <i>Exempt for PI category (small practices automatically exempt for PI category--No application needed)</i> AND • <i>Report 6 quality measures which sum is at least 60 points.</i> AND • <i>Attest to one high weighted (or two medium weighted) Improvement Activity for 90 consecutive days in the performance year</i>

Promoting Interoperability Category

(PI category is for practices utilizing 2015 Certified EHR. CMS is automatically reweighing the Promoting Interoperability category to 0% for small practices regardless of whether they choose to participate as individuals or a group)

I am a small practice who is eligible to have the automatic reweighing for the PI category.

I have an EHR and will be reporting the PI category through DataDerm.

Cost Category

(The cost category is calculated by CMS. In order to avoid the penalty, you will need to apply for the EUC and be exempt for Cost category)

I can attest I have been approved for EUC cost category for 2022.

(Please provide copy of Cost exempt approval letter. If you are submitting as a group, your approval letter needs to be for your group. If you are submitting individually then your approval letter needs to be for a single provider)

Improvement Activity Category

The maximum number of points for the IA category is 15. If you report additional IAs than the recommended below, your IA category will be capped at 15 points.

My practice will be attesting to the following IA(s) for a minimum of 90 consecutive days:

(Small practice—15 or less providers: One high-weighted IA or two medium-weighted to fulfil the maximum points for IA category. Large practice—16 or more providers: two-high weighted IAs or four medium-weighted IAs to fulfil the maximum points for IA category)

Option A example: sum of your quality measures to equal at least 30

Selected measures: AAD 13, AAD 14, MIPS 138, MIPS 137, AAD 8, AAD 10

7 points (AAD 13)+ 7 points (AAD 14)+ 7 points (MIPS 138)+ 10 points (MIPS 137)+ 3 points (AAD 8)+ 3 points (AAD 10)
 = 37 max sum selected measures

Approved plan for quality measures **37 max sum of quality measures > sum of 30 for quality measures**

**** note this is not the final quality score as the weight and any bonus points will be added**

Option B example: sum of your quality measures to equal to 60

Selected measures: AAD 6, AAD 7, AAD 12, MIPS 410, MIPS 176, MIPS 137

10 points (AAD 6)+ 10 points (AAD 7)+ 10 points (AAD 12)+ 10 points (MIPS 410)+ 10 points (MIPS 176)+ 10 points (MIPS 137)
 = 60 max sum selected measures

Approved plan for quality measures **60 max sum of quality measures = sum of 60 for quality measures**

**** note this is not the final quality score as the weight and any bonus points will be added**
