INDUSTRY EXPERT SESSIONS
Friday, March 20, 2020
Theater 2

These unique sessions provide exhibiting companies the opportunity to:

● Present new research findings on products
● Detail products
● Conduct demonstrations
● Highlight new products

These sessions are solely promotional and are not eligible for continuing medical education credit.

Location: Exhibit Hall
10:30 AM - 11:15 AM
Title: Advancing to Systemics: Considerations for the Post-Topical Patient
Description:
This is an unbranded program in which Dr. Lawrence Green will be discussing the unmet needs for psoriasis patients, challenges of topical-only treatment and considerations for transitioning patients from a topical to a systemic therapy.
Hosted by: Amgen

11:45 AM - 12:30 AM
Title: Amzeeq™ (minocycline) topical foam, 4%: A New and Emerging Treatment Option
Description:
Come learn about the clinical efficacy, safety, and tolerability of Amzeeq, the first and only topical minocycline, and how it may be able to help your appropriate patients.
Hosted by: Foamix Pharmaceuticals

2:00 PM - 2:45 PM
Title: A Review of Taltz Clinical Data
Description:
“This presentation includes a clinical overview of disease manifestations, clinical efficacy, and safety outputs from relevant pivotal trials. The facilitator will provide clinical insights and be available for a live Q&A session following the presentation.”
Hosted by: Lilly USA, LLC
INDUSTRY EXPERT SESSIONS
Saturday, March 21, 2020
Theater 2

These unique sessions provide exhibiting companies the opportunity to:

● Present new research findings on products
● Detail products
● Conduct demonstrations
● Highlight new products

These sessions are solely promotional and are not eligible for continuing medical education credit.

Location: Exhibit Hall

11:00 AM - 11:45 AM
Title: Understanding Blastic Plasmacytoid Dendritic Cell Neoplasm (BPDCN): Evolving molecular insights & diagnosis of an aggressive malignancy
Description: Blastic Plasmacytoid Dendritic Cell Neoplasm (BPDCN) is an aggressive hematologic malignancy that often presents with skin lesions, placing dermatologists and dermatology practitioners at the forefront of diagnosis. This session will provide an overview of the clinical characteristics and evolving diagnostic algorithms for BPDCN.
Hosted by: Stemline Therapeutics

12:30 PM - 1:15 PM
Title: Are Your Topical Patients Ready to Progress to the Next Step? An Oral Treatment for Moderate to Severe Plaque Psoriasis
Description: Dr. Gary Goldenberg will be presenting a current oral, non-biologic treatment option in moderate to severe plaque psoriasis.
Hosted by: Amgen

2:00 PM - 2:45 PM
Title: An Innovative Topical Retinoid for Treatment of Acne
Description: 52% of people with facial acne also have truncal acne. No topical therapy has been studied specifically for truncal acne until now. Learn about an innovative, new, retinoid, that is indicated for the topical treatment of acne vulgaris in patients 9 years of age and older.
Hosted by: Galderma Laboratories, LP
