PRESIDENT-ELECT CANDIDATES HAVE AGREED TO ABIDE BY THE FOLLOWING EXCERPT FROM THE ADMINISTRATIVE REGULATION ON CODE FOR INTERACTIONS WITH COMPANIES

Direct Financial Relationship⁸: A Direct Financial Relationship is a relationship held by an individual that results in wages, consulting fees, honoraria, or other compensation (in cash, in stock options, or in kind), whether paid to the individual or to another entity at the direction of the individual, for the individual's services or expertise. As used in this Code, the term Direct Financial Relationship does not mean stock ownership or intellectual property licensing arrangements. See Principle 1.4 for additional clarification of the meaning of Direct Financial Relationship.

⁸ **Definition:** A Direct Financial Relationship is a compensated relationship held by an individual that should generate an IRS Form W-2, 1099 or equivalent income report. Key Society Leaders (including the President, President-Elect, Immediate Past President, the Secretary-Treasurer, Assistant Secretary-Treasurer, the chief executive officer of a Society's membership organization, and the Editor(s)-in-Chief of Society Journal(s)) may provide uncompensated service to for-profit health care products companies ("Companies") and accept reasonable travel reimbursement in connection with those services. Key Society Leaders may accept research support as long as grant money is paid to the institution (e.g., academic medical center) or practice where the research is conducted, not to the individual. Exception may be made in certain circumstances for provision of consultant or investigator expertise related to protocol development and/or safety monitoring or any other consulting work related to one's own past, current or potential research studies as long as the activities are not related to marketing or promotional efforts. In this event, the Secretary-Treasurer must be provided with background information and approval must be provided in advance for an exception to the policy. In these circumstances, compensation to the individual may not exceed \$10,000/company/year. Verifying 1099 forms must be submitted to the Secretary-Treasurer when received. **This exception may not be applied to the President, who shall remain free from any and all direct financial relationships during his/her term of office.**

ARTICLE XVII Amendments

Section 2. Other Proposals

Any proposed amendment to these bylaws or to the articles of incorporation of this corporation which shall not have been approved by the Board of Directors by a two-thirds vote may be adopted by a two-thirds vote of the members voting thereon through an electronic and/or mail or other written ballot conducted pursuant to Article V, Section 5, of these bylaws, provided that any such proposed amendment shall have been presented to the Secretary-Treasurer at the preceding annual membership meeting in a petition subscribed by at least ~~two and one-half~~ ten percent (2.5~~10~~10%) of the voting members of the Academy and identifying no more than three signatories authorized to speak and act for all petitioners, and provided further that written notice of any such proposed amendment shall have been given to each member eligible to vote thereon.

BOARD STATEMENT REGARDING THE PROPOSED AAD & AADA BYLAWS AMENDMENTS

In 2020, the Board of Directors tasked the Bylaws Committee to review aspects of our AAD and AADA bylaws to bring them in line with an organization the size and scope of the Academy, which has grown to over 15,000 voting members from 10,252 voting members in 2000 when the existing bylaws amendment was established.

Among the recommended updates are changes to the minimum number of voting members needed to call a special meeting as well as to bring forward a petition to change the bylaws. The Bylaws Committee recommended, and the Board agreed that 10% was a reasonable percentage to require for these situations and would reflect the interest and will of a significant portion of the voting membership.

Another proposed change to the bylaws focuses on term limits for directors, including the Advisory Board chair, and officers. The proposed changes prohibit a director or an officer from being considered for an office they have already held unless that individual is filling an unanticipated vacancy to complete the term of another officer or director who departed before the end of their term. In such a case, that service would not be counted towards this limitation. This change is intended to assure leadership opportunities and diversity of perspectives on the Academy's Board.

The rest of the proposed edits are technical edits to streamline the bylaws.

The Board is asking for your **yes** vote on the proposed bylaws amendments.

STATEMENT IN SUPPORT OF THE PROPOSED BYLAWS AMENDMENTS

I agree with the amendments to our bylaws. These changes will better keep our organization fresh, and vibrant. They will minimize the tendency for AAD officers benefiting personally to greater degree than the members they serve.

AAD PROPOSED BYLAWS AMENDMENT AND STATEMENTS IN SUPPORT OF OR OPPOSITION TO

STATEMENT IN OPPOSITION TO THE PROPOSED BYLAWS AMENDMENTS

I stand strongly opposed to the significant portion of the suggested Bylaws changes for 2021. Under the guise of housekeeping changes of language and without introductory comment as to why the Board finds the substantive portion of the Bylaws should be changed, the Bylaws committee and the Board have embarked on an unusual misdirection towards the membership.

Altering the requirement for requesting a special meeting from its present 50 members to well over 1500 voting members (i.e. "10%") is an unrealistic and oppressive burden to place on the membership in an organization for whom traditionally only 27–32% of voting members choose to vote to select new officers and two-thirds of the majority votes cast are able to change Bylaws (when even 50% of them deign to vote) and less than 1.75% (250) voting members are considered enough to constitute a quorum. If there is a valid explained reason for a change it should be similarly limited to 250 voting members only, which is a reasonable number to achieve by petition. Members in small numbers need to be heard as representative lest the perception of undemocratic elitist self-perpetuating control of the AAD become fixed as it is in the ABD.

Gary J. Brauner, MD, FAAD
Cresskill, NJ

STATEMENT IN SUPPORT OF THE PROPOSED BYLAWS AMENDMENTS

I agree with proposed amendments for both AAD and AADA bylaws.

RESPONSE TO THE QUESTION POSED BY THE NOMINATING COMMITTEE

Of the five (5) stated priorities of the Academy, which ones are most important to you and how would you advance them?

The priorities expressed in the Academy's five (5) strategic goals dovetail nicely with the main planks in my platform for president. They are **(1) Excellence in dermatologic care** through education and advocacy, **(2) Access** to dermatologic care, **(3) Data driven** transformation of care, **(4) Unity** of the specialty, and **(5) Support for board-certified dermatologists leading** care teams. Our 5 strategic goals are important in that they will help us to keep focus on maintaining the AAD's premier position of leadership in the areas of science, patient care, and advocacy. Promotion of these ideas will make sure the public values the expertise of our members. Our patient-centered mission must be evidence-based, compassionate, and respected.

Of these priorities, one stands out as exceptionally important in light of the challenges presented by the pandemic. **Unity** of our specialty is my top priority. Our member-centered mission must remain inclusive, responsible, valuable, and, most importantly, enjoyable. If elected, I pledge to work hard to make sure the AAD focuses on unity while also offering the highest level of educational experiences, advocacy, practice protection, and collegiality.

RESPONSE TO THE QUESTION POSED BY THE NOMINATING COMMITTEE

Of the five (5) stated priorities of the Academy, which ones are most important to you and how would you advance them?

I am honored to be nominated for President of the Academy. I bring a unique set of competencies, talents, viewpoints and experiences to the position. I have traveled a great distance traversing the disparities of poverty and inequality. As I gained a sure footing through grit, determination and relentless drive, I learned to listen, sought to understand and forged common bonds with those of different perspectives, views and life experience. This foundation informs my view of how to advance the Academy's priorities to meet today's challenges and changing needs.

Unity of the Specialty is the foundational and most important pillar of our 5 stated Academy priorities. As dermatologists, we are the individual threads that form the rich tapestry of the Academy. Weaving together incongruent textures poses innumerable challenges – but challenges that we can overcome. As Vice President, I increased dialogue between young physicians and the Academy by conceiving of and implementing a series of Young Physician Forums. Building upon that experience, I will continue to host forums to listen and to discuss our differences and our shared goals, without vitriol or the anonymity of social networks. The goal is to facilitate **inclusion** and belonging, and to overcome the division in our organization.

As a solo private practitioner, I have encountered the frustrations of mounting costs from governmental regulations, the loss of my patients to lesser trained non-physicians, and arbitrary payer decreased reimbursements. Based on this experience, I will work to eliminate external threats to our practices.

I envision expanding Academy **advocacy** by rallying our patients nationwide to engage with us on critical issues and to encourage them to call, email and tweet their legislators to preserve their physician's practice domains. This transformation will require us to strategically and innovatively enhance the effectiveness of the Academy's D.C. office and coordinate with grassroots efforts at the state level. I will also guide strategic modifications and innovative expansion of our **communications** campaigns to educate the public about the benefits of receiving care from board-certified dermatologists and their teams.

I will lead an initiative to explore how we can increase the **scope of practice** of dermatology. Using the model of hand surgeons who extended their scope to include surgical interventions of the elbow and shoulder, I ask **provocatively should we** integrate interventions involving the dental unit for our aesthetic patients; expand and utilize our knowledge of treating inflammatory dermatoses to now treat systemic inflammatory diseases like asthma or hypercholesterolemia; or extend our expertise to include the musculoskeletal system and anatomical structures including feet and hands?

Our common ground is that each of us loves our specialty and honors our duty of care for our patients. To be clear, we are at an inflection point as an Academy and as individual dermatologists. Together, let's think differently and creatively to change the narrative of dermatology from one of a defensive posture to one of forward leaning transformation. I look forward to leading a united and inclusive Academy to new levels of innovation, science and success.

RESPONSE TO THE QUESTION POSED BY THE NOMINATING COMMITTEE

How would you advance the priorities of the Academy and the president?

It would be a tremendous honor and privilege as Vice President to serve the President and members of the American Academy of Dermatology (AAD). I view my role as Vice President as supportive to the initiatives of the President and help them carry out the many missions of the AAD. Additionally, depending on the cycle of choosing the Assistant Secretary-Treasurer, and the less often, the Editor of the Journal of the American Academy of Dermatology, the AAD Vice President may serve to lead the committee to find the best candidates to present to the AAD's Board of Directors. Furthermore, as the AAD members truly are the heart and soul of the AAD, critical to my role as Vice President would be to assure that the Academy and the President understand the issues that are most critical to the members of the AAD. The AAD is an exceedingly large and complex organization. As a Department Chair, I have worked in a large organization. I have learned to balance the many needs of those I serve including patients, the faculty, residents, students, School and University administrators, alumni, as well as my local and the national dermatology communities. Being skilled at satisfying various parties and their desires, while focusing on the all-important AAD missions will be a critical asset to this job. I will bring to the Vice Presidency the energy and enthusiasm that will help advance the many missions of the AAD and the initiatives of the President.

RESPONSE TO THE QUESTION POSED BY THE NOMINATING COMMITTEE

How would you advance the priorities of the Academy and the president?

My candidacy for Vice President-Elect of the American Academy of Dermatology is predicated on my commitment to the broad-spectrum of interests in the Academy and to the verities of inclusive leadership-inclusive in gender, race, generation, and sub-specialty. The current environment dictates that we engage our members in order to meet our challenges.

The rate of change in the healthcare environment is occurring at an alarming rate. There are multiple and ever-increasing proposed changes in the regulatory framework, serious and debilitating changes between the insurance companies and our members with respect to reimbursements, and destabilizing changes in the ownership structure of practices that have a profound impact on young dermatologists. However, we can concentrate our efforts on managing these continuing changes with efficiency and education. This will require a leadership that is dedicated, experienced, flexible, responsive, and thoughtful.

Because all elected leadership positions within the Academy are fugacious, it is very important that members who are elected to these positions understand the Academy and its membership and can work in a cohesive team environment dedicated to the Academy's goals and priorities as promulgated by the President. The function of the Vice President is to assist the Board, Executive Committee and management in formulating and executing policies, to provide a supporting role to the President in managing the strategic plan and acting as an Ambassador for the Academy.

I believe that my broad experience, commitment to the Academy and Panglossian outlook for our specialty have uniquely prepared me to undertake this role.

RESPONSE TO THE QUESTION POSED BY THE NOMINATING COMMITTEE

What is your primary reason for running for the Academy Board?

Advocacy. Our patients and our profession require that we continue to fight for what we, as an organization, believe to be in the best interest of our patients and the protection of our profession. The complexities of our health care systems, the increases in cost, the changing structure of our practices all require the input and leadership of our organization. My involvement over many years at the state level and my active commitment to our national legislative conference and the AADA have propelled me to continue my efforts by contributing to our national organization. It would be an honor and a privilege to serve on the board for our members and our patients.

RESPONSE TO THE QUESTION POSED BY THE NOMINATING COMMITTEE

What is your primary reason for running for the Academy Board?

I want to serve the Dermatology community. My mentors inspired me to be an active part of the Academy. The future of the specialty needs a strong voice for general dermatologists in private practice on the Board of Directors. I co-founded my practice after Hurricane Katrina 15 years ago. I practice medical, cosmetic, laser, pediatric, and surgical dermatology daily. I have experienced all of the professional, business, staffing, insurance, health policy, and life balance issues faced by so many in our specialty. I am a third-generation physician who is open, results focused, and experienced in leadership. The Academy needs proven leadership that represents all aspects of our field. We need to come together as a unified specialty to strengthen dermatology for generations to come.

RESPONSE TO THE QUESTION POSED BY THE NOMINATING COMMITTEE

What is your primary reason for running for the Academy Board?

I prefer not to find fault or protest but to roll up my sleeves and assist in improving any situation. It has been my pleasure to hold several leadership positions in the AAD, ACGME, ABMS, WDS, ASDP, ISDP, APD, ABP, and ABD. These experiences have provided me with a solid knowledge of organization structure, bylaws, and allowed me to build a strong network with leaders in dermatology and dermatopathology, positioning me to bring representation of this portion of the membership to the board.

In addition, it was my fortune to participate in the AAD Academic Dermatology Leadership Program at a formative time in my career. AAD has invested in my skills and if given the chance, I hope to provide a return on that investment.

RESPONSE TO THE QUESTION POSED BY THE NOMINATING COMMITTEE

What is your primary reason for running for the Academy Board?

I care about our specialty. The AAD is a critical caretaker and advocate for our members, patients, and our place in the house of medicine. The AAD's mission is to promote excellence in patient care through "education, research, and advocacy." I believe in this mission. I am running for the Board because I feel a responsibility to give back to the specialty that has given me so much, and my experiences will help serve our diverse membership. The global pandemic has amplified the need for clearheaded leadership, and I would relish the opportunity to give back to dermatology.

RESPONSE TO THE BALLOT QUESTION

What leadership qualities are most important for officers of the American Academy of Dermatology to possess?

Trust, openness to differences, and vision are among the most important qualities for officers of the Academy to possess.

Academy leaders earn the trust of the membership through integrity, transparency, and effective communication.

Officers that are open to and even embrace differences of opinion are particularly effective in understanding the diverse needs of the specialty and finding points of alignment that can move the organization forward.

Academy leaders with a clear and compelling vision are able to engage and inspire membership. Such a leader can garner broad support for forward-thinking and innovative strategies that help to secure the long-term success of the organization and our specialty.

If given the opportunity to serve, I would be committed to applying these qualities to my position.

RESPONSE TO THE BALLOT QUESTION

What leadership qualities are most important for officers of the American Academy of Dermatology to possess?

Officers of the American Academy of Dermatology need to embody the vision and core values of our organization. They need the intelligence, self-confidence, determination, and communication skills to lead our organization to be "recognized as the leading authority for the highest quality and compassionate dermatologic care." In their professional, organizational, and personal activities they must reflect evidence of the Academy's stated values of "patient-first, member-centric, lifelong learning, visionary leadership, professionalism, unity, and scientifically-founded." We live in an era of accelerating change. So, among these qualities, it is especially important to have demonstrated abilities in building trust and leading change. This will require particular strengths in identifying and taking advantage of new opportunities; creating a positive and high-performance culture; and outstanding listening and communication skills.

EXCERPT – NOMINATION AND ELECTION PROCEDURES

9. Election Period

The term “Election Period” as used in this Administrative Regulation is defined as that time between the date of identification of slated candidates by the Nominating Committee and the deadline date for receipt of ballots. This term is distinct from the term “election cycle” used in the Academy bylaws. (Article VI, Section 3 (a)).

10. Ballot and Ballot Book

- The ballot and ballot book shall be sent or otherwise be made available to all eligible voters.
- The ballot book shall be posted to the Academy Website, as soon as practicable after the announcement of the slate of candidates, but no later than the next business day after the Annual Business Meeting. Subject to the terms of Paragraph 6 of this Administrative Regulation, the ballot book shall be accompanied by each candidate’s photograph, curriculum vitae, and answers to questions formulated by the Nominating Committee.
- The ballot and ballot book will be mailed to eligible voters who do not have an email address on file with the Academy. Eligible voters with an email address on file with the Academy will receive an email with an embedded link to the online ballot, ballot book and Academy Election webpage. These members will be able to vote online without their member ID and secure access code. Members may also access the online ballot and ballot book through the Academy Election Webpage.
- Upon request, eligible voters will be sent a PDF of the ballot book via email. Eligible voters also have the option to print the online ballot, complete it and mail it to the election vendor. Eligible voters may also ask to receive a mailed ballot and ballot book for future elections.

- The Academy will make every effort to assure that candidates for office do not receive inadvertent additional publicity through the reporting of Academy activities in official publications or through the day-to-day program or administrative functions in which a candidate may be involved. This rule does not preclude sitting officers and directors from performing their official duties. Notwithstanding the foregoing, candidate images may appear on non-electioneering promotional materials and videos for Academy events or programs or those produced by external parties. In addition, the names of candidates who:
 - are recipients of Academy awards may be published in Academy Annual Meeting publications and such candidates may receive their awards at ceremonies held during the Annual meeting (as long as no mention is made of the individual’s candidacy or the election);
 - are speakers at the AAD/A programs may have their names listed along with the other speakers for that session and any promotional materials disseminated for that session without reference to their candidacy, but also without special mention (unless they are the featured speaker); and

(See 9)
- The Academy will inform the membership of the official authorized and recommended election activities identified herein by publishing an excerpt of this Administrative Regulation on election activities in *Dermatology World* in the earliest issue after the date that candidates are announced, in any issue which includes candidate position statements, in the issue that is mailed closest to the date on which the ballots are mailed, and by including the summary in the election voting packets.

13. Authorized Election Activities by Slated Candidates Following Slate Announcement

- The two (2) president-elect candidates will record a three (3) minute interview via video chat.
- Optional Letter
Each candidate may submit to the Academy one optional letter authored by the candidate in support of his/her candidacy in the below specified format. Once all letters for a specific position have been received and approved, (by or before the deadline), they will be posted collectively to the Academy’s election website and will remain there throughout the election period. Membership will be notified via e-mail and fax alerts of such posting. These alerts will have a link that will take members directly to the candidate election materials. Candidates may disseminate their approved optional letter by email or post it to social media sites and may include a link to the AAD election website. Candidates who wish to disseminate their optional letter by mail to Academy members who have not provided e-mail or fax numbers are personally responsible for doing so and for all associated expenses. The Academy will provide the names and addresses of those Academy members who do not have e-mail addresses or fax numbers to candidates for a one-time use upon request.

Candidates may disseminate the official Academy announcement with links to the Academy election website in their authorized communications to Academy members under this Administrative Regulation.

The optional letter:

- must be formatted on the candidate’s letterhead or plain paper, which shall be
- 8 ½” x 11” page must be typewritten in a 12-point font
- may include one photograph in black and white or color that shall be no larger than 2” (wide) x 3” (high)
- must not include hyperlink(s)
- Candidates must forward a copy of their optional letter to the Academy office for review by the Chair of the AHTF on Election Oversight and/or the Secretary-Treasurer, no later than the Friday prior to the opening of the Academy’s Annual Meeting to be disseminated to the membership.

The version of the optional letter submitted by the candidate to the Academy for posting on the Website and dissemination must be in final form. No changes to the optional letter will be allowed after it is submitted to the Academy by the candidate. The Academy will not be responsible for errors in the final version of the optional letter submitted by the candidate.

- Once the official slate of candidates is announced, candidates, and other individual members are permitted to engage in the dissemination of letters, emails, or other forms of written or electronic communications, including the slated candidate approved optional letter, in support of their candidacies or the candidates. These individuals may not be current or incoming AAD officers or directors, or members of the Nominating Committee or Ad Hoc Task Force on Election Oversight. Candidate(s) who are also current sitting AAD officers or directors may disseminate written communications in support of their own candidacy in addition to their one optional letter. They may not send communications in support of other candidates. Such communications may not criticize, defame¹, or denigrate other candidates and must be consistent with the Academy’s Code of Medical Ethics for Dermatologists, including the responsibility that Academy members treat each other with mutual respect in their communications with each other. Candidates cannot fund communications by others or request others to finance the cost of such communications.

Slated candidates may include links in their communications to the Academy election webpage containing their optional letter (see Section 13. b) or video (see Section 13. i - j).

Individual members, other than candidates writing on their own behalf, may not send out communications in support of candidates using letterhead with the branded name or logo of a group or organization, as defined in Section 13.h.

Current and incoming AAD officers and directors may socially introduce² an individual candidate while attending the AAD Annual meeting but may not actively campaign for³ them. During the nomination period, potential nominees and candidates may not engage in any such election-related communications other than direct, one-on-one, personal communications with friends and colleagues until the official slate of candidates is announced by the Academy.

To ensure all candidates for the same position are invited, these invitations should be directed to the Academy’s Executive Office at candidates@aad.org. At these sessions, candidates’ presentations should focus on their views regarding relevant Academy policy.
- Candidates may participate in social media discussions. However, when responding to questions on issues that are of relevance to their candidacy, candidates are strongly encouraged to refer their responses back to the Academy’s social media election site. In no circumstances may candidates criticize, defame or denigrate other candidates in their social media discussions.
- Candidates may give educational, scientific, or clinical presentations or interviews at dermatologic meetings or in related publications. However, presentations in these circumstances may not contain any political or electioneering content, and the candidates must refrain from mentioning their candidacy, other candidates, or the election. Other similar presentations or interviews may also be permitted as long as they contain no reference to the current election.

- g. Distribution by candidates of flyers, gifts, trinkets, pins, ribbons, balloons, and other similar items in support of the candidate is prohibited.
- h. Members and groups or organizations are encouraged to submit questions to the Nominating Committee for possible selection for response from candidates in the ballot book. Groups or organizations may encourage their members or employed, affiliated, or subscribing dermatologists to vote in the Academy election and may publish or otherwise disseminate the official list of slated candidates to their members or employed, affiliated, or subscribing dermatologists and provide links to the candidates' materials on the Academy election website, but groups or organizations are strongly discouraged from disseminating letters, emails, or other forms of written or electronic communications endorsing, campaigning for, or otherwise supporting particular candidates or identifying them as members, employees, affiliates, or subscribers of their groups or organizations. Candidates may not solicit and should affirmatively discourage endorsements or other support of their candidacies from groups or organizations.

For purposes of this Section 13.h., "groups" or "organizations" include formal or informal groups or organizations with three (3) or more members or employed, affiliated, or subscribing dermatologists who are AAD voting members, including but not limited to, national, state or local dermatology or other medical societies; dermatology departments in academic medical centers, medical clinics, or hospitals; dermatology practices (regardless of type of ownership); or social media groups, or other for profit or non-profit corporate entity that meets the requirements of this section.

- i. **President-Elect Candidates Presentation**
President-Elect candidates have the option of giving a (5) five-minute presentation at the Annual Business Meeting. This presentation must be submitted in final written format to the Executive Office no later than (5) five days prior to the Annual Meeting. Candidates should indicate the format they will use to give their presentation i.e., PowerPoint, teleprompter. The final version of each President-Elect Candidate's presentation will be posted to the Academy Website as submitted. President-elect Candidates are encouraged to participate in a rehearsal that is held at the Annual Meeting. During rehearsal, speeches will be timed to ensure they are within the five-minute time limit. There will be a warning light at the podium to notify the candidates during their live speeches when they have thirty seconds remaining in their five-minute time limit. In fairness to both candidates, the microphone will be shut off at or very shortly after the time limit has elapsed. Each President-elect candidate's five-minute videotaped speech will be posted to the Academy's election Website together.

- j. **Slated Candidate Videotaped Statement**
Slated Candidates for the position of Vice President-elect, Director and Nominating Committee member representative are encouraged to participate in a videotaped statement to be recorded no later than the Friday prior to the opening of the Annual Meeting. This is in addition to, and not in place of the optional candidate letter.

The content of the videotaped statement will be the decision of the individual candidate. Candidates are responsible for assuring that the statement is done in a professional manner, i.e., no dancing, music, dogs doing tricks, etc. and will fit into the time limits listed below. Candidates are encouraged to rehearse their statements.

The time that has been allotted for the candidate videotaped statement is as follows:

Director	45 Seconds
Nominating Committee Member Representative	30 Seconds

- k. Candidates will be asked to complete a questionnaire on the election process prior to the announcement of the final results of the election.

14. Authorized Election Activities by Director Write-in Candidates following Slate Announcement

- a. Unsuccessful nominees who wish to be a Director write-in candidate, have been vetted by the Nominating Committee, and are a Fellow in good standing with the Academy, are required to submit their name in writing to the American Academy of Dermatology, attention Secretary-Treasurer, by a designated date that is ten (10) days prior to the opening of the election. Such individuals will be eligible to run as a Director write-in candidate, subject to the same background checks as conducted for short-listed Director candidates. Based on the results of such additional vetting, written approval by the Secretary-Treasurer will be granted after the Academy's official slate of candidates is announced.
- b. Director Write-in candidates are also subject to the rules outlined in Paragraph 13. c through 13. h and k, including without limitation the restriction on any election-related communications in support of their candidacy prior to the announcement of the official slate of candidates.
- c. Director Write-in candidates' electronic Disclosure Statements of Potential Conflict of Interest, photograph, curriculum vitae and the answer to the Nominating Committee question will be posted to the Academy Website for viewing by the membership on a webpage linked off of the Academy's official slated candidate's webpage.
- d. Director Write-in candidates will be invited to participate on the candidate briefing call; their names will not appear in the ballot book.
- e. Director write-in candidates shall receive a distinctive ribbon identifying them as such to wear at the Annual meeting.

15. Ballot Return Date

To be valid and in accordance with Paragraph 17 of this Administrative Regulation, ballots:

- a. must be submitted online or sent directly to the independent election service designated therein.

- b. must be received or electronically posted by a date designated therein, which date shall be within two weeks of the opening date of the election.
- c. must not contain write-in votes for Officers and Nominating Committee member representative positions.
- d. may contain a vote for one (1) eligible Director write-in candidate.
- e. may not exceed four (4) votes for Directors inclusive of one (1) Director write-in candidate.

16. Announcement of Election Results

Successful candidates shall be announced as soon as practicable after the ballot return date.

17. Official Election Candidate Results

The official results of each election certified by the independent election service are kept on file at the Academy office. Each candidate may verbally receive their numerical results of the election in which the individual was a candidate by contacting the Secretary-Treasurer or Assistant Secretary-Treasurer. An unsuccessful Director candidate, from the current election period, may verbally request the numerical result of the Director elected to the fourth seat. The Secretary-Treasurer or Assistant Secretary-Treasurer may verbally provide the numerical result without identifying the elected Director by name.

18. Assumption of Office⁴

Successful candidates shall assume office at the conclusion of the Annual Meeting following the election.

19. Manner of Notice and Announcement

Notice(s) and Announcement(s) required by this Administrative Regulation shall be in writing and, unless otherwise specified by the Academy Bylaws or this Administrative Regulation, may be affected by publication in an official Academy or Association publication, by United States mail, or by facsimile, or electronic transmission.

20. Ad Hoc Task Force on Election Oversight

An ad hoc task force will be appointed each year prior to the Call for Nominations, to monitor the Academy's election process and election activities. The ad hoc task force will be chaired by the Immediate Past President holding office when slated candidates are announced, and will be further comprised of the President, Secretary-Treasurer or Assistant Secretary-Treasurer, and the following individuals appointed by the President: a past member of the Board of Directors, a recent past member of the Nominating Committee, a member of the Advisory Board, and a recent unsuccessful candidate. The president may appoint up to two (2) additional members at his/her discretion. Members asked to serve on the AHTF on Election Oversight should not accept the appointment if they anticipate becoming a candidate in the upcoming election. Upon acceptance of the AHTF appointment, the member must remain neutral throughout their term, which includes, but is not limited to, the nominating process and Election Period. The AHTF members are restricted from submitting nominations, supporting nominees, writing letters or speaking in support of any nominee, potential candidate, slated candidate or write-in candidate running for office.

The Ad Hoc Task Force on Election Oversight will report any recommendations for sanctions to the Board of Directors. At the end of the election process, the Ad Hoc Task Force will present a formal report to the Board of Directors and include any recommendations that it may have for revisions to existing regulations.

21. Member and Candidate Sanctions for Failure to Comply with Regulations

The Ad Hoc Task Force on Election Oversight is responsible for addressing inappropriate communications and works with the member, individual, slated or write-in candidate(s) to resolve the issue. The Ad Hoc Task Force has the authority to block a member's or candidate's access to the AAD Election Connection! Should further review or sanctions be required, the Ad Hoc Task Force will refer the issue to the Board of Directors or the Professionalism and Ethics Committee. Candidates or other members may not file a complaint with the Professionalism and Ethics Committee based on an alleged violation of this Administrative Regulation unless the Ad Hoc Task Force has first found that such violation occurred and that referral to the Professionalism and Ethics Committee is appropriate. The foregoing does not prevent candidates and other members from filing complaints directly with the Professionalism and Ethics Committee based on election-related conduct that they believe violates the Administrative Regulation on Code of Medical Ethics for Dermatologists for a reason other than a violation of this administrative regulation.

Slated and write-in candidate(s), who are found, by a majority vote of the Board of Directors, to be in violation of the above regulations may, at the Board's discretion, be subject to sanctions, including but not limited to, removal from the ballot and/or nullification of votes received.

The Board of Directors retains discretion to alter the dates within this administrative regulation to accommodate special circumstances.

¹ Definition of **written and oral defamation**: The act of making and publishing (to one or more third parties) untrue statements of fact about another which damages his/her reputation. If the defamatory statement is printed or broadcast over the media, including social media, it is libel and, if only oral, it is slander. The following are examples of what constitutes a social introduction and of possible campaign activities. ² **Socially introduce** – A member encounters a candidate while attending a function (social or otherwise) at the annual meeting. The encounter happens at unpredictable times and locations i.e., before/after a session or meeting, dinners, receptions, etc. The member is allowed to casually introduce the candidate. ³ **Campaign for** – When a candidate and member prepare a plan of action so they can attend as many of the same functions together. The member would then introduce the candidate to many colleagues (at each function) and ask for their vote or remind them to vote. A candidate could also stand by an elevator/escalator or in a busy area of the convention center for an extended period-of-time with a member who introduces him/her while asking for their vote or reminding them to vote. ⁴ **The fiduciary obligations** of elected officers and directors generally apply when they officially take office at the end of the Annual Meeting following their election. However, these individuals must abide by the fiduciary obligations of officers and directors during the year following their election and before they formally take office to the extent that they are involved in any Board of Directors meetings, activities, or decisions, particularly with respect to confidential information.
