Over 30 dermatology related peer-reviewed publications
Over 20 dermatology related presentations

RESPONSE TO THE QUESTION POSED BY THE NOMINATING COMMITTEE

What is your primary reason for running for the Academy Board?

I have tremendous AAD experience to bring to the BOD. I've served the Academy in many capacities, chiefly serving on committees related to payment policy and practice advocacy for our members. Currently, I serve as the Chair of the Patient Access and Provider Relations Committee and see firsthand how our members struggle to navigate the current healthcare climate. Every week I hear from our members who face increasing pressures to keep their practices successful. Every week I interact with insurance companies on their behalf. I have learned that too much of our members time and energy is spent on activities that do not enhance dermatologic care. I want to continue to advocate for our members and our patients by serving on the BOD.
