

International Peeling Society - USA

Session title *	IPS-USA "Peeling Around the World" Program
Learning objective #1 *	Learners will be able to compare chemical peeling treatments for different ethnic types and disorders.
Learning objective #2 *	Learners will be able to contrast levels of chemical peeling for different indications and disorders.
Learning objective #3 *	Learners will be able to recognize and treat complications of chemical peeling in a diversity of skin types and colors.
Session description *	IPS-USA hosts their 4-hour Global Day program to bring in a diversity of chemical peeling physician experts from across the world. The international faculty lead talks and engaging Q&A on chemical peeling from beginner to advanced, sharing best practices for optimal patient care.
