

Brad P. Glick, DO, MPH, FAAD
Board of Director Candidate

My name is Dr. Brad Glick and I am honored to serve the AAD.

Like you, I face the challenges of daily practice, changing landscape, threats to patients, endless bureaucracy and erosion into our specialty's image.

As Florida's State Society President, I continue to defend scope of practice, truth in advertising, and reimbursement matters.

Learning from my governance experiences as a Deputy chair, and section Editor of Dialogues, I will advocate for our specialty on healthcare and access disparities across all socioeconomic lines and practice models.

I am affable, reliable, and dedicated to Dermatology. I see barriers firsthand and I have the drive and confidence to take them on.

Please Consider these attributes and I appreciate your vote.
