

**Robert S. Kirsner, MD, PhD, FAAD**  
**Vice President-elect Candidate**

I am Robert Kirsner, Vice President Candidate. As Board Certified Dermatologists, we provide great care and want the freedom to continue to do so. The AAD needs skilled and experienced leaders to combat the multitude of challenges that may threaten this freedom and prevent us from having our best careers.

As Chair of a major dermatology department, I lead 200 full time, part time and voluntary faculty, train 24 residents, and direct a practice of 36 dermatologists. I understand their needs and your needs, and how to best position Dermatology within the house of medicine.

I also have legislative experience. In Florida, we assured Floridians had direct access to Dermatologists, assured AK reimbursement, and assured proper supervision of advanced practitioners.

I have worked extensively in the AAD; including Directing the Council on Education and on the Board of Directors. My combination of experiences and skills coupled with my energy and passion for Dermatology uniquely positions me to help the specialty. Please vote!
