  - DC Academy of Dermatology
  - IHHS/GW Masters in Hyperhidrosis Conference
  - Inservice Scramble
  - Crazy Kodachromes,
  - GW/JDD Translational Science Lecture

### RESPONSE TO THE QUESTION POSED BY THE NOMINATING COMMITTEE

#### What is your primary reason for running for the Academy Board?

Access is one of the hottest themes in medicine: Access to care, which is hindered by enumerable issues ranging from socioeconomic disparities to the extensive time dedicated to addressing step therapy, obtaining prior authorizations, and submitting denial appeals. Access to practical, digestible, timely and inclusive education, of which identifying can be difficult both due to the incredible noise created by the digital education universe and the limitations imposed by a global pandemic. I aim to improve "access" so dermatologists can focus on what we love: treating patients, education, and research, not paperwork and bureaucracy.
