^{2 3} **Definition:** For purposes of Key Leader disclosures, the definition of direct financial relationship is a compensated relationship held by an individual that should generate an IRS Form W-2, 1099 or equivalent income report. Key Leaders may provide uncompensated service to for-profit companies and accept reasonable travel reimbursement in connection with those services. Key Leaders may accept research support as long as grant money is paid to the institution or practice where the research is conducted, not the individual. Compensation (e.g., royalties) from intellectual property rights does not need to be divested. Exception may be made in certain circumstances for provision of consultant or investigator expertise related to protocol development and/or safety monitoring or any other consulting work related to one's own past, current or potential research studies as long as the activities are not related to marketing or promotional efforts. In this event, the Secretary-Treasurer must be provided with background information and approval must be provided in advance for an exception to the policy. In these circumstances, compensation to the individual may not exceed \$10,000/company/year. Verifying 1099 forms must be submitted to the Secretary-Treasurer when received. **This exception may not be applied to the President, who shall remain free from any and all direct financial relationships during his/her term of office.**
