

Whether you're fresh out of residency, and still getting the hang of this whole coding thing, or you've been a dermatologist for years, and have coded hundreds — if not thousands — of biopsies, coding can always be a little tricky. Use the following reference to find the biopsy codes you need.

| Code | Description |
|---|---|
| Other Sites (Integumentary) | |
| 11102 | Tangential biopsy of skin, single lesion |
| 11103 | each separate/additional lesion |
| 11104 | Punch biopsy of skin, single lesion |
| 11105 | each separate/additional lesion |
| 11106 | Incisional biopsy of skin, single lesion |
| 11107 | each separate/additional lesion |
| Code Anatomic Site Specific | |
| 11755 | Nail unit |
| 40490 | Lip |
| 54100 | Penis |
| 56605 | Vulva or perineum, single lesion |
| 56606 | each separate additional lesion |
| 67810 | Incisional biopsy of eyelid skin including lid margin |
| 69100 | External ear |
