

## PO Information:

---

### VBR

- Final participation measure scores for the PCP VBR are available in the portal.
- POs who have had a practice who has not met the A1c control measure have been notified. ***Final reports will be available on the Admin Portal the week of 7/14.***
- Following the distribution of the PGIP list from BCBSM, we will share a list of physicians and their VBR score in the portal for you to ***review and sign off on for the upcoming 9/1/2025 VBR year.***

### Performance Measures

- ***The performance measurement period for the PCP uACR measure, the nephrology uACR measure, and the endocrinology CGM interpretation measure began on 7/1/2025.*** The measurement period for all three measures will go through 8/31/2026.
  - PCP uACR baseline rates are available in the Admin Portal.
  - Nephrology uACR baseline rates were distributed via email to clinical champions and PO leads on 6/2/2025
  - Endocrinology CGM interpretation baseline rates will be distribute the week of 7/14.
- ***The PCP A1c measurement period began on 6/1/2025,*** following the same timeline as the previous year's A1c measure, with the measurement time frame ending on 4/30/2026.
  - Baseline reports will be distributed in August for the A1c measure.

### Endocrinology

- ***Please note that the endocrinology CGM interpretation survey is due on 8/1.*** One survey needs to be submitted per practice and this can be found on the Admin Portal.
