Benefits of Participation: PROVIDERS

MISSION

MCT2D collaborates with healthcare providers across the state of Michigan to accelerate the utilization of evidence-based treatments that improve the lives of patients with type 2 diabetes.

HOW WILL PROVIDERS BENEFIT?

PATIENT DATA

Access to reporting that will provide robust information on patients with type 2 diabetes from all payers across the state

PATIENT FLAGGING

Patient-specific flagging that will identify patients who would be ideal targets for interventions aimed at improving their health

METRICS REPORTING

Physician and practice level reporting on quality metrics

IMPROVED OUTCOMES

Improved patient outcomes through the implementation of quality initiative measures

TRAINING

Free training that Introduces providers to using continuous glucose monitors, use of newer antihyperglycemic medications, and lower-carbohydrate diets

CGM DATA SUPPORT

Individual practice support on implementing and accessing patient CGM data

LEARNING COMMUNITY

Ability to participate in a Learning Community that will facilitate education, support, and engagement between physicians, patients, and specialists

PEER LEARNING

Opportunity to learn from other primary care providers on best practices

COVERAGE SUPPORT

Support and advocacy surrounding insurance coverage for CGMs, SGTLT2-I and GLP1-RA

COLLABORATION

Learn from and collaborate with endocrinologists and nephrologists on both broad topics and specific patient cases

Support for the Michigan Collaborative on Type 2 Diabetes is provided by Blue Cross Blue Shield of Michigan and Blue Care Network as part of the BCBSM Value Partnerships program. BCBSM's Value Partnerships program provides clinical and executive support for all CQI programs. To learn more about Value Partnerships, visit valuepartnerships.com. The opinions, beliefs, and viewpoints expressed by MCT2D do not necessarily reflect the opinions, beliefs, and viewpoints of BCBSM or any of its employees.
