Getting Started with
Parachute Health for Ordering CGMs

What is it?

A platform that allows online ordering with guided prompts of durable medical supplies, including continuous glucose monitoring supplies directly from various DMEs.

Who can use it?

Clinicians or their support staff may enter orders. ***However, the prescriber is required to sign (see Step 7).*** Prescriber refers to the following clinicians - PCP, NP, PA or Endocrinologist.

How could using Parachute help?

The platform guides you through providing the specific patient chart information that fulfills their insurance requirements, depending on which supplies are being ordered. It also allows for standard workflows for gathering DME requirements from patients. It eliminates need for:

- Filling out/interpreting specific DME CGM fax form for ordering CGMs
- Faxing chart notes

EXAMPLE – CGM ordering:

The platform compiles a document that has everything the DME needs to submit a claim (e.g. frequency of insulin injection) to patient's insurance.

What happens after an order is sent?

Each order is updated with status and history throughout the process until the items ship. This allows for easy determination of what is happening with the order and eliminates having to call DME and wait on hold.

What happens if there are questions?

The platform offers a live chat option within the order Monday to Friday 9AM-8PM EST.

Do all DMEs participate with Parachute?

Many do, J & B Medical does NOT participate. The platform will tell you if the company does NOT contract with the patient's insurance.

Is the system HIPAA compliant and what are organizational requirements?

Parachute Health maintains HIPAA compliance by completing a business associate agreement (BAA) with organizations and DME suppliers (available on the website) utilizing the service.

Some health care organizations reported they determined a BAA may not be necessary and classify use as continuation of care between two covered entities, the health care system and DME supplier. Work with your organization to confirm BAA details.
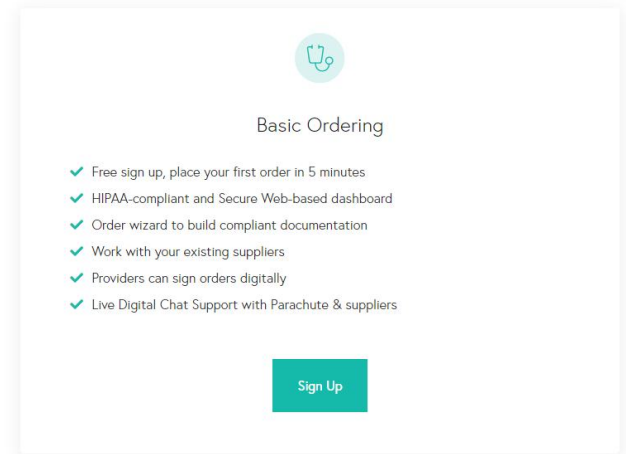

The system will prompt for your health care organization. Certain organizations may require additional authorization.
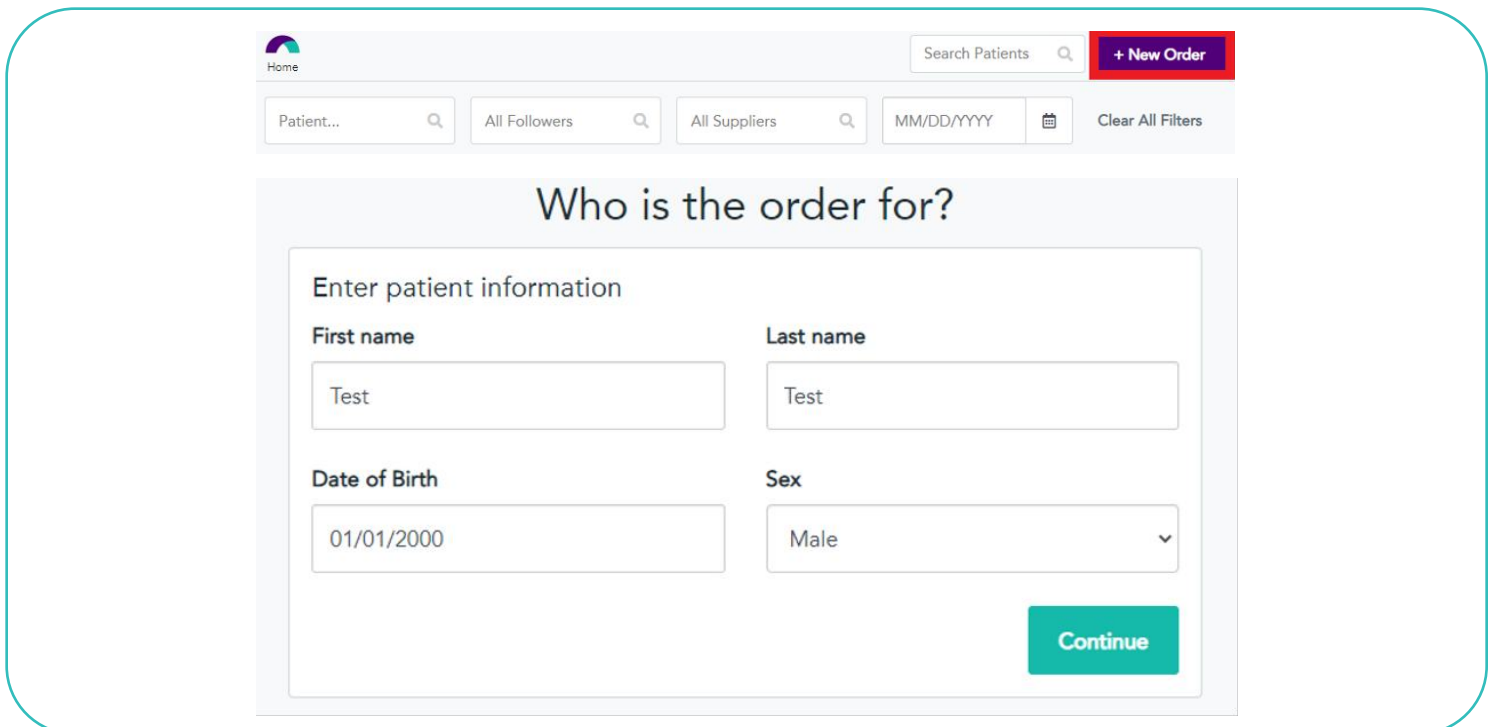

What is the cost to use this software?

It's FREE.

How does an individual practice/clinician enroll?

1. Visit www.parachutehealth.com and click "Sign Up" in top right corner (you can sign up as practice and each individual accessing the platform can have their own ID and password)
2. Select Basic Ordering *(see image on the right)*
3. Click the "Create an account" option
4. Creating CGM order:

STEP 1: CREATE A NEW ORDER & ENTER PATIENT INFORMATION

STEP 2: ENTER PAYMENT / INSURANCE INFORMATION

Test Test
Sex: Male
DOB: 01/01/2000 (23y)

- Payment
- Products & Services
- Addresses & Contacts
- Clinical Info
- Signing Clinician
- Review

Continue

Payment Information

Patient insurance information will be used to help determine eligibility for the order.

Member ID

Enter Member ID

STEP 3: SELECT THE SUPPLIER AND PRODUCT

Select Supplier

Order from your organization's suppliers, or from any supplier on the Parachute Platform.

Search Suppliers by name

| Your Organization's Suppliers | All Suppliers | Service Areas: MI (default) ✕ | Categories |

Active Filters (1)

Advanced Diabetes Supply

Solara Diabetic Supplies

REMINDER - Medicare patients ARE required to have a READER.
Parachute makes this easier by having a MEDICARE/MEDICAID option for each CGM. See boxed text below.

NOTE: If MEDICARE patient requires a new order for SENSORS ONLY -- You must indicate that patient already has a reader (See Step 5)

FreeStyle Libre 3 System, Continuous Glucose Monitoring Package

Dexcom G7 System, Continuous Glucose Monitoring Package

1 in cart

FreeStyle Libre 3 System, Continuous Glucose Monitoring Package [MEDICARE/MEDICAID]

Dexcom G7 Sensor Only

FreeStyle Libre 2 System, Continuous Glucose Monitoring Package

FreeStyle Libre 2 Sensor

STEP 4: ADD PATIENT ADDRESS & CONTACT INFORMATION

Addresses & Contacts

Clinical Info

Select relevant diagnoses and complete the corresponding required documents.

Diagnoses

Add any relevant diagnosis codes for the products you ordered

Diagnosis Codes

Search and select by ICD-10 or description 🔍

You are responsible for ensuring that any patient information submitted by you is accurate and correct. Parachute does not provide recommendations related to the appropriateness of any order or plan of care.

Optional Sections:

1. Additional Notes – Good place to enter if you are switching a patient to a new CGM

2. Chat with Supplier –Good place to share any specifics about order *(e.g., if patient already has a receiver)*

Please add any additional notes or patient history detail [Optional]

Save   Press Enter ↵ or Tab ⇥

Use this space to indicate that the patient already has a reader if they have MEDICARE and you are only ordering sensors.

Enter prescriber's name and NPI here (anyone can do this), then click "Continue."

Option 1: Sign On-Screen (Use if authorized via CPA* or other via sign on behalf of the provider)

1. If you are an authorized signer, enter PCP/ Endocrinologist's name and NPI.

2. After you enter PCP/Endocrinologist name/NPI, this screen (image to the right) appears, simply click, "Continue."

*Collaborative Practice Agreement

Option 2/3: Send a Request / Print and Attach

- *If email selected*: PCP/Endocrinologist will receive an email with a link. The link will take them to the order where they can electronically sign.

- *If fax selected:* PCP/Endocrinologist will receive a fax with instructions on how to sign and return the fax.

- *If Print and Attach selected:* Order will print. Find PCP/ Endocrinologist for wet signature.

Review the order details and once everything is complete hit the "Sign and Send Order" or "Send Order" to send the prescription.

Signature Method Option 1   *Signature Method Option 2/3*
