

## PCP VBR

### Year 1, Cohort 1

Value based reimbursement for primary care physicians will begin on October 1, 2021.

Primary care physicians who participate in MCT2D and meet the below requirements will receive 5% VBR.

Considering the start date of the VBR, the payments will be prospective, as VBR recipients will be completing these requirements following the initial payments.

Unless there is a specific deadline listed, the activities will need to be completed prior to 9/30/2022. All items must be completed to continue earning VBR.

Requirement	Responsibility
Submit name of clinical champion and practice liaison	Practice
Attend and complete all MCT2D training sessions (virtual, six one-hour sessions)	Clinical Champion
Attend Spring 2022 regional meeting (in person)	Clinical Champion
Complete Practice Change Readiness Assessment (due 9/10/2021, approximately 20-minute time commitment)	Practice
Participate in a 1hr discussion with coordinating center regarding responses on Practice Change Readiness Assessment, if requested	Practice
Respond to requests from the coordinating center and your physician organization related to MCT2D related work in a timely way (3 days or as specified)	Practice
Present on your site's implementation of the quality improvement initiatives at a collaborative meeting, regional meeting, or conference call, if requested	Practice
Gather patient email addresses so that the MCT2D Coordinating Center can conduct Patient Related Outcomes Surveys	Practice
If practice is already sending data to MiHIN, ensure that data fields are populated and work with MCT2D to correct/fill data fields as needed. If practice is not sending data to MiHIN, brainstorm solutions and make reasonable effort to submit data that can be exported from the EMR.	Practice
Submit 3 patient summaries of decision making around CGM, low-carb diet, and medications (initial summary due on 6/1/22, remainder due 9/30/22).	Each physician
Work with your physician organization to maintain a log of practice interventions and changes related to implementation of the quality initiatives	Practice
Participate in one learning community activity for each of the two engagement levels. Details on each level below.	Level 1: Each physician Level 2: Each PO/Each Practice
