

PO Monthly Call

1/9 at 11am
1/11 at 2pm

Agenda

- Upcoming Deliverable Due Dates
- Tentative regional meeting agenda
- Q1 2023
- Updates
 - Recruitment
 - Steering committee meeting
 - June Collaborative wide meeting

Upcoming Deliverable Due Dates

January 10th: Training for all cohort 2 practices is due. After this date the trainings will be taken down from the Beaumont site and unavailable for CME.

January 20th: All endocrinology and nephrology case summaries are due. Reminders will be sent to you on Friday, January 13th with a list of any endocrinologists and nephrologists in your PO who still need to complete these.

February 1st: Progress Reports from all Cohort 1 sites are due. Reminders will be sent on January 13th and January 25th with any practices who have not yet submitted.

Spring Regional Meetings

Topic	Time	Presenter
Welcome and Updates	6:00pm-6:15pm	Lauren Oshman / Heidi Diez
MCT2D + SGLT2is and GLP1RAs in Type 2 Diabetes	6:15pm-6:45pm	TBD
Patient-focused materials on SGLT2is/GLP1 RAs	6:45pm-7:05pm	Group Discussion
Break	7:05pm-7:15pm	N/A
Insurance Coverage + MCT2D Initiatives	7:15pm-7:45pm	Lauren Oshman/Heidi Diez
Closing	7:45pm-8:00pm	Jackie Rau + Jake Reiss

New Endocrinology & Nephrology Practices

Endocrinologists

Alzohaili Medical Consultants MD PC

Juan A Estigarribia, M.D., P.C.

Mohammad Saleh MD PC

West Michigan Endocrine

Thyroid and Diabetes Clinic

Lake Huron Medical Group-Endocrinology

Nephrologists

Renal Associates of Western Michigan

Update: MT2D will not be recruiting new POs or Practices in 2023

Focusing on:

- Integration of data sources needed to implement performance based VBR metrics
- Creation of additional tools and resources
- Delivery of Learning Community events
- And MUCH MORE!

MCT2D Learning Community Event
Friday, February 13th, 12pm-1pm
Management of CKD: A New Era of
Therapeutics
Mike Heung, MD

Data Dashboard Refresh
2/15
Data updated through 11/30

MCT2D Steering Committee Meeting

Agenda Topics

- MCT2D Data- Where we are/Where we're going
- Performance measures- what matters/how do we measure it?
- Building in Health Equity
- Patient Reported Outcomes

Best Practices Submission Form

Available: February 1st

Who: All practices in Cohort 1 required for VBR.

What: Will ask about practice specific processes that were either implemented as a result of MCT2D, or that have contributed to success participating in MCT2D.

- Successful workflows for the integration of CGM data into clinical practice.
- Successful streamlining of CGM / SGTL2i / GLP-1RA prior authorizations.
- Workflows using clinical pharmacists and/or registered dietitians for CGM counseling and low carb counseling respectively.

Why: Will build query-able resource stratified by practice demographics. For example: if a rural primary care practice with limited human resources wants to know what similar practices have done to streamline prior authorizations, they can query this to read the best practices that were submitted.

Learning Community Events offered in Q1 2023

Event Date	Event Title	Presenter
Monday, February 13th , 2023 12pm-1pm	Management of CKD: A New Era of Therapeutics	Mike Heung, MD
Friday, March 3rd , 2023 12pm-1pm	Billing Codes- Care Management, Medical Nutrition Therapy, and billing for non-face-to-face care	Ashley Schwartz, LMSW Lauren Oshman, MD
Friday, March 24th , 2023 12pm-1pm	Updates on Medications and CGM Devices	Heidi Diez, PharmD

Monday, 03/13 at 11 am

**Distribute Primary Payor Education Materials to
Cohort 1 and Cohort 2 PCP Sites**

3/15

Patient Advisory Board Meeting

Tuesday, 3/21 at 4pm

MCT2D Learning Community Event

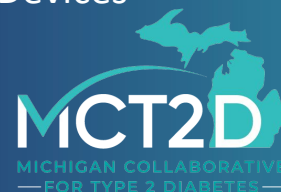

Friday, March 24th, 12pm-1pm

Updates on Medications and CGM Devices

Heidi Diez, PharmD

BCBSM PGIP Quarterly

Friday, March 24th, 8am-5pm

Primary Payor Coverage Materials

Available: March 15th

Due: July 15th

Who: All practices in Cohort 1 and Cohort 2 (required for VBR).

What: Will provide educational materials and resources regarding coverage related to a specific payor. One person at each office needs to view the materials and take a short post test- it does not need to be the clinical champion, can be the person who works with prior authorizations, etc.

Why: Coverage remains a primary issue and challenge that the collaborative faces and is often brought up as the primary difficulty in completing MCT2D initiatives. Alongside advocating for policy change, we wanted to equip the collaborative with the knowledge of how to best work within the current system.

Learning Community Events 2023

2023 Learning Community Events

Based on feedback from participating sites shared at the regional meetings, we have developed our list of 2023 learning community events.

We will also be offering CME for these meetings, as requested by the collaborative. We will only be offering CME for live events, recorded events will still count towards the learning community attendance requirement.

Tentative Learning Community Event Schedule

Event Date	Event Title	Presenter
Monday, February 13th , 2023 12pm-1pm	Management of CKD: A New Era of Therapeutics	Mike Heung, MD
