

December PO Monthly Call

*Monday, December 9th at 11am
Wednesday, December 18th at 2pm*

AGENDA

End of Year Deadlines/Reminders

2025 Learning Community Event Series

December Data Update/Performance Measure Population in Dashboard

A1C Form for Performance Measure: Clarification

Next Steps: Prediabetes Resources

Upcoming and Recently Past New PCP Site VBR Deadlines

Patient Needs Assessment Data will be updated again on 12/19 and 12/30. Clinical Champion Training info will continue to be updated on Mondays as partial credit is still possible.

- **Physician level survey related to current knowledge and comfort with the MCT2D initiatives.**
 - 10 points - 90%-100% of physicians in the practice complete by 12/13/2024
 - 8 points - 80%-89% of physicians in the practice complete by 12/13/2024
 - 5 points - 70%-79% of physicians in the practice complete by 12/13/2024
 - 0 points - Less than 70% of physicians in the practice complete by 12/13/2024
- **Practice clinical champion completes all four MCT2D training sessions.**
 - 15 points - Completed all four by 12/13/2024
 - 7 points - Completed all four by **1/31/2025**
 - 0 points - Not completed or completed after **1/31/2025**
- **Patient Needs Assessment Survey and collect a minimum of 10 responses per practice.**
(giving grace period until 12/31)
 - 15 points - Practice receives 10+ surveys by 12/13/2024
 - 7 points - Practice receives 5-10 surveys by 12/13/2024
 - 0 points - Practice receives less than 5 surveys by 12/13/2024

Additional Deadlines

Continuing Practices- All Due 7/1/25

- Physician Level Learning Community VBR
- Practice Level Learning Community VBR
- PO Level Learning Community VBR
- 5 uncontrolled A1C forms per practice/aggregate practice group

New PCP Practices

- Reflection on Patient Needs Assessment due 2/3/2025
 - MCT2D will share the results with your PO and practices in early January.
- Physician Level Learning Community Requirement due 7/1/2025
- Practice Level Learning Community VBR due 7/1/2025
- PO Level Learning Community VBR due 7/1/2025

2025 Learning Community Event Series

Topic	Possible Date
ADA Standards of Care - 2025 Updates	Late February/Early March
Incretin Mimetics - Nutritional Considerations and more	March
Insulin and Type 2 Diabetes	April
Diabetes Complications Part 1: Foot Care and Neuropathy	May
Diabetes Complications Part 2: Cardiovascular and Eye	May
Exercise and Lifestyle in Type 2 Diabetes	July
Patient Behavior Change	August
Prediabetes Resources	September
Social Determinants of Health	October
Low Carbohydrate Diet	November

December Performance Measure Data Reporting

Performance Measure Reporting on Dashboard: Go live 12/20/2024

Performance Measure Reports (Data through 9/30/2024): Early January

Performance Measure Reports

Coming Early 2025

MCT2D Performance Metric

Measurement Year: 9/1/2024- 3/31/2025

Reward Year: 9/1/2025- 8/31/2026

Eligible population (denominator): BCBSM, BCBS-MA, BCN, and BCNA patients attributed to an MCT2D participating physician via the MCT2D dashboard who have had at least one A1C in the 12 months prior to the baseline data cut off of 05/31/2024 and a documented type 2 diabetes diagnosis.

Measurement definition: The percent of members age 18+ with type 2 diabetes whose most recent glycemic status (A1C) was at the following level during the measurement year:
 A1C <8% for commercial insurance
 A1C ≤9% for Medicare insurance

Goal rate: MCT2D will be aligning with the HEDIS 90th percentile rate for commercial and projected 90th percentile rate for Medicare populations:
 - 70% with an A1C <8% for commercial
 - 87% with an A1C ≤9% for Medicare

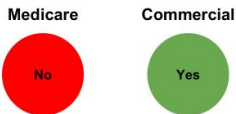

<u>Practice Name</u>	<u>Measured Independently</u>	<u>Meeting Performance Measure-Medicare?</u>	<u>Meeting Performance Measure-Commercial?</u>	<u>Page Number</u>
Practice #1	Y	●	●	3
Practice #2	N			
Practice #3	N	●	●	4-5
Practice #4	N			

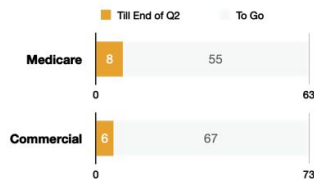

Practice #1

	Medicare	Commercial
Number of Patients in Baseline Population (calculated on xx/xx/xxxx)	69	73
Number of Patients Dropped Out of Measurement Population	6 (8.7%)	0 (0%)
Number of Patients Currently Measured (current denominator)	63 (91.3%)	73 (100%)
Percentage of Patients Meeting Performance (current numerator) (Performance measure threshold = 87%)	85.71% (n=54)	52 (71.2%)

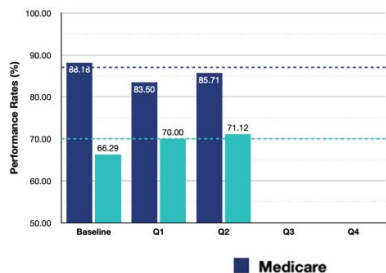

Are you meeting the Performance Measure?

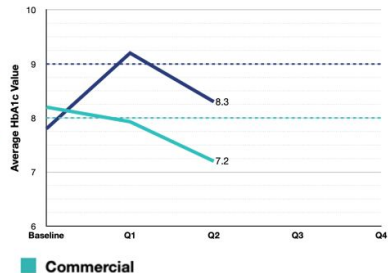

Number of Patients with an A1c recorded after baseline A1c

Performance Rates over time

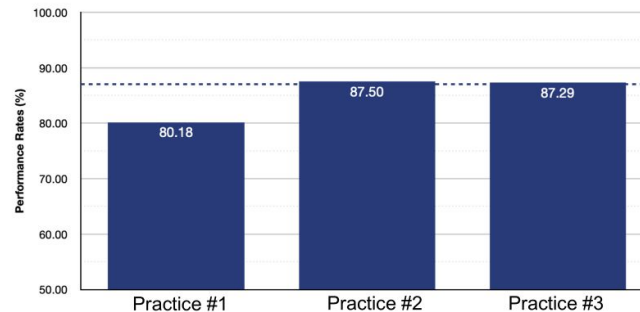

Average A1c value over time

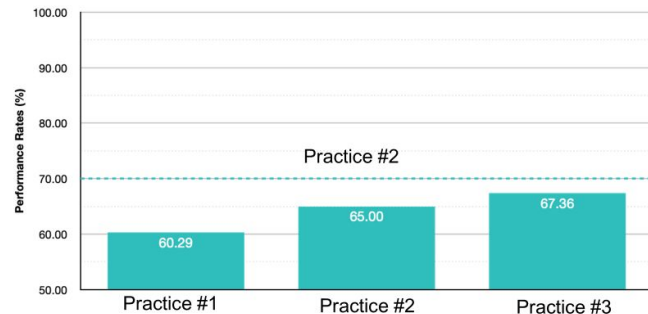

Individual Practice Performance Rate

Medicare Patients Performance Rates in Quarter 2

Commercial Patients Performance Rates in Quarter 2

Uncontrolled A1C Form

- Each aggregated measurement group only needs to submit five patients **TOTAL**, across all practices within the group.
 - Can have all five from a single practice, or distributed amongst the practices.
- Each independently measured practice (those with 100+ in their baseline) needs to submit five patients as well.
- Tracking available beginning in January on admin portal.

Note: If you have not sent the baseline files to your individual practices, please do so. We have received numerous emails from practices whose POs have not shared their baseline data with them.

2025 Data Refresh Schedule

Release Version	Publish Date	Release Type	Paid Claims Data Through	Clinical Data Through	Min Claims Data Lag at Release (days)	Min Claims Data Lag at Next Release (days)	Min Clinical Data Lag at Release (days)	Min Clinical Data Lag at Next Release (days)
January Data Refresh	1/24/2025	Data Refresh	11/30/2024	11/30/2024	55	121	55	121
Enhancement Rel. 1	3/31/2025	Release 1 Enhancement & Data Refresh	1/31/2025	1/31/2025	59	87	59	87

Prediabetes Resources

Based on Regional Meeting Feedback

- Tools for DPP (list of programs and payors who cover them)
- Specific screening criteria, guidelines for screening, and definition of prediabetes
- Free resources, classes, handouts, and webinars for patients with prediabetes

MCT2D Order Form

Low Carb Diet Keychains, Posters, and Resources

- An order form was included in the 12/17/24 newsletter and we will be sending it to to all practice clinical champions tomorrow, where they can order low carb diet keychains, our 10 most frequently used patient focused tools, and posters.
- We will mail the low carb diet keychains to the POs along with a count of how many each practice requested and ask you to distribute those.
- For posters and tools, we will have practices pick these up at the regional meetings.

Next Month's PO Call Dates

Wednesday, January 8th, 2pm-3pm

Monday, January 13th, 11am-12pm
