Digital Capture Stations - CAPTURE BASIC

- **Capture Basic** is our lightest station designed to cover basic digital capture needs. Ideal for smaller shoots with low to average capture rate. Comes with 12.9" iPad for remote on-set viewing and rating, dedicated wireless channel for the entire studio allowing users to see images anywhere on studio premises.
- Consider adding individual viewing devices such as iPads, Monitors, or our DISTANCED EDIT STATIONS for your crew and creative directors.
- Each additional monitor comes with 100ft cable and is calibrated for each job. Each EDIT station is plug and play and can be controlled independently, from capture station, or operate in mirrored mode, or serve as an additional monitor + keyboard + DigiShelf for photographer.
