

Timberline HDZ

High Definition® Shingles

Millions of families have found shelter and peace of mind under a Timberline® roof

Brought to you in India by

“There’s nothing quite like a genuine **Timberline® HDZ roof!**”

GAF

What’s the secret to the striking look of a Timberline®HDZ roof?

Timberline® HDZ shingles are unlike any others, thanks to our patented High Definition® shadow bands (U.S. Patent No.5,666,776). Each shadow band is applied using a sophisticated, computer-controlled “feathering technique. When combined with our randomly-blended top layer, it results in a shingle with exceptional depth and dimension - and a striking look unmatched by any other brand.

When you compare Timberline® High Definition shingles to typical architectural shingles, it’s easy to see why they look sharper and more beautiful on your roof.

The color blends of Timberline® HDZ shingles are sharp and well defined - to give your roof maximum dimensionality and depth.

See the difference...

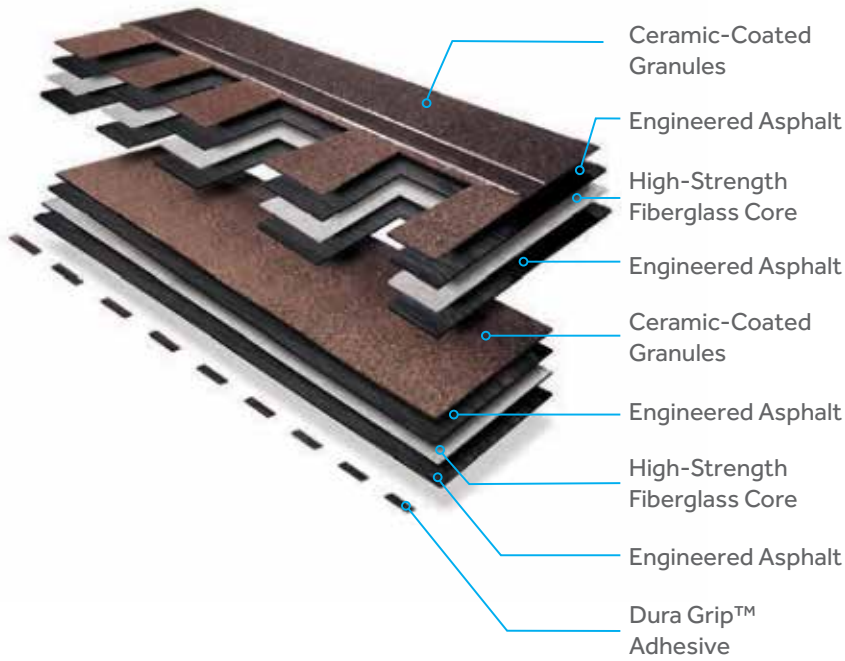

Timberline® HDZ shingles

Another major brand shingles

The protective layers of GAF Timberline HDZ shingles

A roof is so much more than shingles. It's layers of protection, working together to keep your home safe from wind, rain, snow and even sun.

The GAF Roofing System

1. Leak Barrier
2. Roof Deck Protection
3. Starter Strip Shingles
4. Lifetime Shingles
5. Cobra Attic Ventilation
6. Ridge Cap Shingles

Benefits

- **LayerLock[™] Technology** — Proprietary technology mechanically fuses the common bond between overlapping shingle layers.
- **Up to 99.9% nailing accuracy** — The StrikeZone[™] nailing area is so easy to hit that a roofer placed 999 out of 1,000 nails correctly in our test.¹ shingle layers.
- Our legendary **Dura Grip[™]** sealant pairs with the smooth microgranule surface of the StrikeZone[™] nailing area for fast tack. Then, an asphalt-to-asphalt monolithic bond cures for durability, strength, and exceptional wind uplift performance.
- **Perfect Finishing Touch** — For the best look, use TimberTex[®] Premium Ridge Cap Shingles or TimberCrest[™] Premium SBS-Modified Ridge Cap Shingles.
- **StainGuard[®] Algae Protection** — Helps protect the beauty of your roof against unsightly blue-green algae discoloration.²
- **High Performance** — Designed with Advanced Protection[®] Shingle Technology.
- **Seamless compatibility** — The new Timberline[®] HDZ[™] Shingles are compatible with traditional Timberline HD[®] Shingles for the same look and feel homeowners and contractors rely on for beauty and endurance.

Colors & Availability:

Product details:

- Material: Fiberglass asphalt construction
- Dimensions (approx.): 13 1/4" x 39 3/8" (337 x 1,000 mm)
- Exposure: 5 5/8" (143 mm)
- 1 Bundle: 33.3 sqft
- StainGuard[®] Algae Protection²
- Hip/Ridge: TimberTex[®]; TimberCrest[™];
- Seal-A-Ridge[®]; Z[®]Ridge; Ridglass[®]
Starter: Pro-Start[®]; QuickStart[®];
WeatherBlocker[™]

¹Results based on study conducted by Home Innovation Research Labs, an independent research lab, comparing installation of Timberline HD[®] Shingles to Timberline[®] HDZ[™] Shingles on a 16-square roof deck using standard 4-nail nailing pattern under controlled laboratory conditions. Actual results may vary.

²StainGuard[®] algae protection is available only on shingles sold in packages bearing the StainGuard[®] logo.

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

FACTORY MADE RIDGE

SEAL-A-RIDGE® - Protective Ridge Cap Shingles

Seal-A-Ridge® Protective Ridge Cap Shingles Will Help:

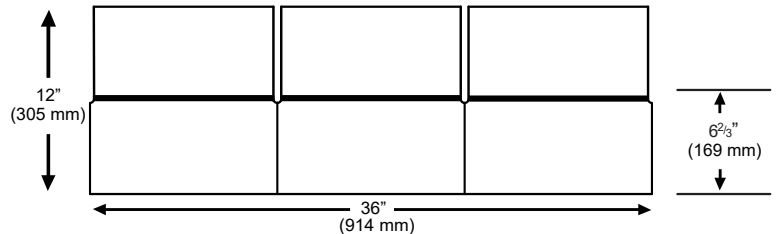

- Protect high-stress areas of your roof (the hips and ridges)
- Provide a high-quality and less labor-intensive alternative to using cut-up strip shingles as your ridge cap

Product Specifications

Standard Seal-A-Ridge® Ridge Cap Shingles

- Fiberglass asphalt design
- 6 2/3" (169 mm) exposure
- Approx. 12" (305 mm) wide
- 4 bundles cover approx. 100 linear feet (30 lm)
- Approx. 45 pieces per bundle
- UL Listed to ANSI/UL 790 Class A
- Meets ASTM D3462
- ICC-ES ESR-1475 and ICC-ES ESR-3267

TIMBER TEX® Premium Ridge Cap Shingles

A Distinctive And Protective Premium Ridge Cap Shingle Will:

- Match the performance of your new roof (unlike using typical 20- or 25-year cut-up strip shingles as your ridge cap)
- Accentuate the natural beauty of your newly installed architectural shingle roof (or even add dimension and depth to a strip shingle roof)
- Offer multi-layer protection at the highest-stress areas of your roof (the hips and ridges)
- Provide a striking and higher-quality alternative to using cut-up strip shingles as your ridge cap.

Product Specifications

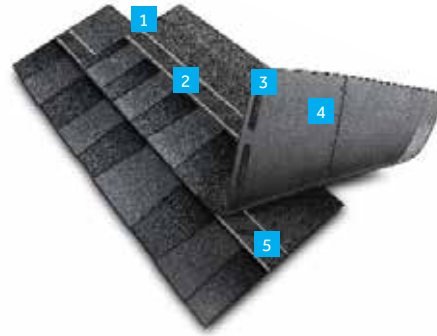

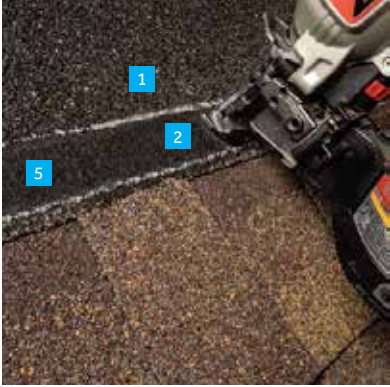

- 8" (20 cm) exposure
- Approx. 12" (30 cm) wide
- Each bundle covers approximately 20 linear feet (6 lm)
- 5 bundles cover approximately 100 linear feet (30 lm)
- 150 pieces per 100 linear feet (30 lm) of coverage
- UL 790 Class A fire rated

Installation:

1. Mechanical Fastening method

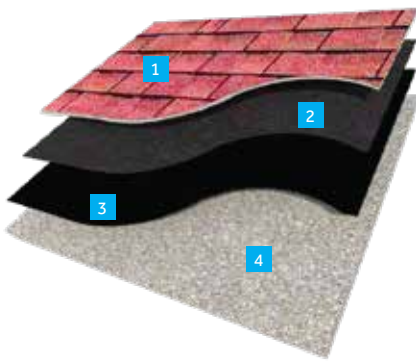

The StrikeZone™ Nailing Area

The industry's largest nailing area for up to 99.9% nail placement accuracy.

1. Alignment guide
2. StrikeZone™ Nailing Area
3. Dura Grip™ Adhesive
4. LayerLock™ Technology
5. Smooth microgranule surface

1. Torching method

1. Roofing Shingles
2. APP Membrane
3. Bitumen Primer
4. RCC slab / other smooth surface
