

TELUS IoT Shop

Pre-paid connectivity, on a dedicated IoT network, only from TELUS.

The TELUS IoT Shop is a self-serve online portal that enables you to order pre-paid IoT SIM cards with a shared data plan and automatically connect to TELUS' dedicated IoT network (4G LTE or LTE-M). Designed for the early stages of IoT product development and smaller deployments, the IoT Shop helps developers, tech start-ups and innovators deploy and manage connected solutions quickly and easily.

Purchase what you need, for as long as you need it.

Online ordering

Simple payment by major credit card.

First 3 SIMs are free

Ruggedized and tri-cut to fit any solution.

Pre-paid shared data

LTE/LTE-M data plans across SIMs can be changed at any time.

Free shipping

SIM cards arrive within a few business days.

Devices stay connected

Auto-renew occurs every 30 days or earlier if usage thresholds are reached.

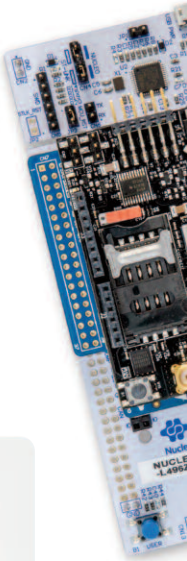

Full control of your subscription

Manage SIM status, monitor data usage, and update your account details.

No long-term commitments

Turn off auto-renew to cancel your data subscription at any time.

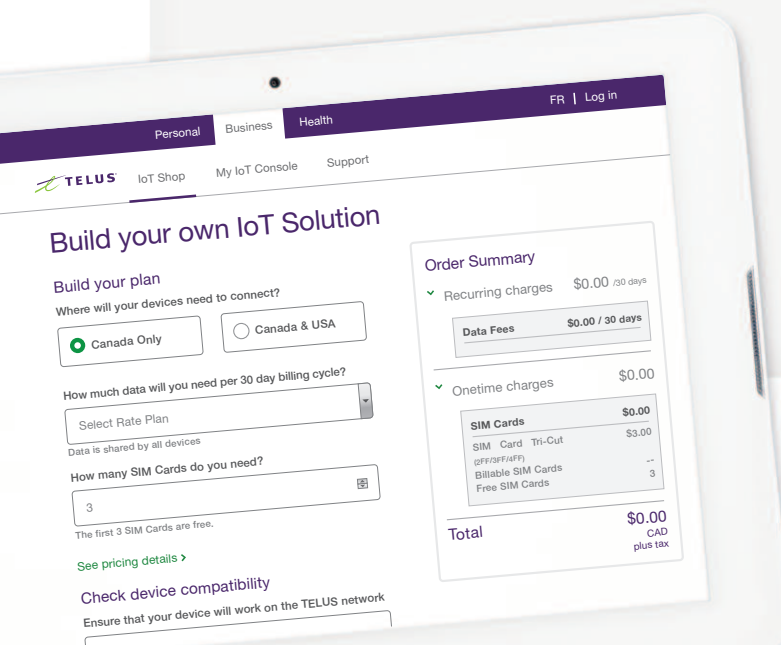

Quick account setup, simple ordering, suited to start-ups.

The TELUS IoT Shop provides connectivity that works for your solution, budget, and changing needs.

Get started at telus.com/iotshop

- 1 Select the number of SIMs and the shared data package you need.
- 2 Place your order using a credit card – your SIM cards will arrive in a few days.
- 3 Connect to the shared APN and deploy your devices.
- 4 Manage and monitor your solution in real-time.
