

BOULEVARD x quickbooks

All sales. All payments. All in sync.

No need to wait until the end of the month to utilize QuickBooks. Let the Boulevard & QuickBooks Online integration automatically sync your sales and payment data each night, so you and your team wake up every morning with the most accurate and up-to-date financial picture.

Setup is a breeze

Simply link your Boulevard services and products to your QuickBooks Online chart of accounts, then enjoy the daily data updates.

Sales Data

Each night, Boulevard will create a journal entry in QuickBooks Online including all of your sales that day – and automatically port your sales data to the proper QuickBooks accounts. All you have to do is set it up once and let it run forever.

Payment Settlement Data

As your payment processor, we know when you are getting paid. Each night Boulevard will create a journal entry with the payments that settled that day, again linked to the proper QuickBooks Online accounts from your chart of accounts.

Get started today. You and your accountant will love how much time and effort you save.
