BOULEVARD

Revolutionize Your Salon's Profits with Vish!

\$500 off off setup

WHAT IS VISH?

Vish is the industry's leading color management system which connects an intelligent Bluetooth scale from the color room to the front desk, capturing all services and product charges. Vish also provides in-depth analytics on employee performance, color service profitability, and creates professional stock replenishment reports at the touch of a button.

Vish was designed to not only measure color accurately but to use data and analytics to set prices accurately, reduce professional stock, and make life easier for stylists.
