zapier

# There's a Zap for that

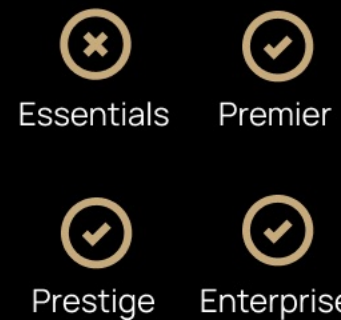

Zapier moves information between 5,000+ web apps automatically, so you can eliminate busy work and focus on giving clients those magical moments that matter most. It's oh-so-easy and oh-so-rewarding.

# How it works

- Save time and eliminate stress by automating the tasks that slow you down at work.
- Create custom, efficient workflows that fit you and your business needs.
- Stay on top of everything by syncing your data in Boulevard with the apps you use most like Hubspot, Klaviyo, Trustpilot, Slack, Google Drive, and more.

## Example Zaps

### Klaviyo

Create targeted marketing & drip campaigns with Klaviyo based on different types of clients, appointments, past purchases, and other action items in Boulevard.

### Twilio

Confirm client appointments using a texting platform such as Twilio.
