

Simply payments with Boulevard Duo

With flexible, contactless payment options, lightning-fast EMV processing, and no hidden fees or contracts, the Boulevard Duo delivers a seamless checkout experience your clients and front desk will love.

Keep everything in-house. The Duo pairs with your Boulevard Duo iPad App and desktop dashboard to help you drive upsells and pre-bookings, discreetly collect gratuity, and store cards on file.

More ways to pay

Give clients more ways to pay. Accept swipe and chip cards, contactless payments like Apple Pay and Google Pay, or process cards on file. Convenient for them, easy for you.

No crazy set up

Start using your Duo right away. Plug it in and pair it with the Boulevard Duo iPad and desktop apps to start seamlessly collecting gratuity and facilitating checkout.

Transparent fees, always

Say no to hidden charges like statement fees and “priority” support. Your processing and software costs will always be simple, transparent, and fair.

Reduced chargebacks, enhanced security

Leave dispute and chargeback headaches behind with EMV protection against counterfeit and stolen card fraud. End-to-end encryption means card data is always protected and never accessible to prying eyes.

Free up your front desk

Streamline walk-ins and give your clients the VIP treatment with self check-in, custom digital forms, and gratuity collection – all within the same Boulevard Duo iPad app you’ll use to process payments.

Goodbye clunky card swiper,
hello silky smooth transactions.

Boulevard Duo FAQ

Can any business use the Boulevard Duo?

The Boulevard Duo is exclusive to Boulevard partners. Not one yet? [Join us!](#)

What do I need to use the Boulevard Duo?

All you need is a client-facing iPad to run the Boulevard Duo App and a desktop or iMac to run the Boulevard Dashboard. The Duo can pair with existing desktops and iPads already using Boulevard.

Does the Duo need to be plugged in?

Yes, the Duo is powered using the supplied USB-C cable and wall charger. Note: Charging the Duo through a computer will not effectively charge the Duo. The Duo needs to be plugged into an outlet to receive enough power.

How does the Duo connect with my iPad?

The Duo connects to the Duo iPad App via Bluetooth.

Will any iPad work?

As long as your iPad runs on iOS version 11 or later, you're good to go.

How many Boulevard Duos can I use at my business?

As many as you'd like! Just keep in mind each Boulevard Duo requires its own iPad. These can be paired with multiple desktop devices.
