PROGRAM NOTES

CHARLIE CHAPLIN (1889-1977)
Selections from City Lights, Modern Times, Limelight, and other films

With over 40 performances worldwide, *Charlie Chaplin's Smile with Philippe Quint* is a multimedia genre bending show in recital and with orchestra, which is not only a celebration of Charlie Chaplin's musical legacy but also an exploration of one of the most fascinating life journeys.

What's truly remarkable is the enduring relevance of Chaplin's comedy in today's society. His films, crafted during the early 20th century, tackled pressing social and political issues, poverty, unemployment, inequality, and immigration, that continue to resonate deeply in the modern society. But there are always new layers of brilliance and emotion within Charlie Chaplin such as his musical legacy, compositions and even conducting.

Philippe Quint appears by arrangement with Park Avenue Artists
