Skill Development Courses for Visually Challenged Students

As an outcome of Collaborations between **Vivekanand College**, **TTI, Pune** and **Bajaj Finance** we have established a dedicated computer lab for visually challenged students. We have received **CSR funding from Bajaj Company** for the same. Various skill development courses have been designed and being implemented through this collaborative efforts.

About TTI of PBMA-
Trainings at Technical Training institute of Poona blind men's Association TTI of the PBMA

PBMA's Technical Training Institute has been established with the intent of empowering the visually challenged with knowledge and skills required to lead independent lives. We are always striving to revise and update our training programs and make them relevant to the needs of our students. Thanks to this ongoing effort many of our students are today working as Accessibility Testers, Assistant Clerks, Customer Care officers, Managers, Trainers and so on in reputed Government/Private sectors or are successful businessmen or businesswomen.

About Our Courses

We offer number of industry relevant short term and long term courses that impart new employable skills and competencies to our students. Here are someof them.

Certificate in Basic Computing and Assistive Technology Learning. (CBCATL)

This is a full time course for learning basics of computers and using assistive technology in a day to day life. The CBCATL course is conducted at Fergusson College, Wadia College, SP College,

DARE in Nagpur and VVP Pune and in Vivekanand college Aurangabad. Students are awarded a certificate on successful completion of the course. The skills imparted in this course equip them to pursue a career in different types of industries.
